Empire of the Summer Moon S. C. Gwynne 2010-05-25 *Finalist for the Pulitzer Prize and the National Book Critics Circle Award* *A New York Times Notable Book* *Winner of the Texas Book Award and the Oklahoma Book Award* This New York Times bestseller and stunning historical account of the forty-year battle between Comanche Indians and white settlers for control of the American West "is nothing short of a revelation...will leave dust and blood on your jeans" (The New York Times Book Review). *Empire of the Summer Moon* spans two astonishing stories. The first traces the rise and fall of the Comanches, the most powerful Indian tribe in American history. The second entails one of the most remarkable narratives ever to come out of the Old West: the epic saga of the pioneer woman Cynthia Ann Parker and her mixed-blood son Quanah, who became the last and greatest chief of the Comanches. Although readers may be more familiar with the tribal names Apache and Sioux, it was in fact the legendary fighting ability of the Comanches that determined when the American West opened up. Comanche boys became adept bareback riders by age six; full Comanche braves were considered the best

horsemen who ever rode. They were so masterful at war and so skillful with their arrows and lances that they stopped the northern drive of colonial Spain from Mexico and halted the French expansion westward from Louisiana. White settlers arriving in Texas from the eastern United States were surprised to find the frontier being rolled backward by Comanches incensed by the invasion of their tribal lands. The war with the Comanches lasted four decades, in effect holding up the development of the new American nation. Gwynne's exhilarating account delivers a sweeping narrative that encompasses Spanish colonialism, the Civil War, the destruction of the buffalo herds, and the arrival of the railroads, and the amazing story of Cynthia Ann Parker and her son Quanah—a historical feast for anyone interested in how the United States came into being. Hailed by critics, S. C. Gwynne's account of these events is meticulously researched, intellectually provocative, and, above all, thrillingly told.

Empire of the Summer Moon announces him as a major new writer of American history.

Wolf Jim Harrison 2016-05-03 Jim Harrison's first novel—a walk on the wild side from “a force of nature in American letters” (The Seattle Times). The New York Times—bestselling author of thirty-nine books of fiction, nonfiction, and poetry—including *Legends of the Fall*, *Dalva*, and *Returning to Earth*—Jim Harrison was one of our most beloved and acclaimed writers, adored by both readers and critics. Praised as “a raunchy, funny, swaggering, angry, cocksure book,” Wolf tells the story of a man who abandons Manhattan after too many nameless women and drunken nights, to roam the wilderness of northern Michigan, hoping to catch a glimpse of one of the rare wolves that prowl that territory (The New York Times Book Review). “When you turn the last page and Swanson's voice stops, you want to flip back and keep listening.” —The Examiner

Just Cause John Katzenbach 2014-12-16 A reporter is the only hope for an innocent man on death row for murder—while the real killer roams free—in this “riveting, provocative” thriller (Publishers Weekly). When burnt-out Miami reporter Matt Cowart receives a letter from a death row inmate pleading his innocence, he is tempted to dismiss it. And if he doesn't act, the wrong man is going to be executed. In the months that follow, Cowart's investigative articles not only set Ferguson free, but make Cowart a celebrity and win him a Pulitzer Prize—and set in motion a new chain of unimaginable horror. Letters from the Dust Bowl Caroline Henderson 2012-10-19 In May 1936 Secretary of Agriculture Henry A. Wallace wrote to Caroline Henderson to praise her contributions to American “understanding of some of our farm problems.” His comments reflected the national attention aroused by Henderson's articles, which had been published in *Atlantic Monthly* since 1931. Even today, Henderson's articles are frequently cited for her vivid descriptions of the dust storms that ravaged the Plains. Caroline Henderson was a Mount Holyoke graduate who moved to Oklahoma's panhandle to homestead and teach in 1907. This collection of Henderson's letters and articles published from 1908 to 1966 presents an intimate portrait of a woman's life in the Great Plains. Her writing

mirrors her love of the land and the literature that sustained her as she struggled for survival. Alvin O. Turner has collected and edited Henderson's published materials together with her private correspondence. Accompanying biographical sketch, chapter introductions, and annotations provide details on Henderson's life and context for her frequent literary allusions and comments on contemporary issues.

The Everything Store Brad Stone 2013-10-15

The authoritative account of the rise of Amazon and its intensely driven founder, Jeff Bezos, praised by the Seattle Times as "the definitive account of how a tech icon came to life." Amazon.com started off delivering books through the mail. But its visionary founder, Jeff Bezos, wasn't content with being a bookseller. He wanted Amazon to become the everything store, offering limitless selection and seductive convenience at disruptively low prices. To do so, he developed a corporate culture of relentless ambition and secrecy that's never been cracked. Until now. Brad Stone enjoyed unprecedented access to current and former Amazon employees and Bezos family members, giving readers the first in-depth, fly-on-the-wall account of life at Amazon. Compared to tech's other elite innovators -- Jobs, Gates, Zuckerberg -- Bezos is a private man. But he stands out for his restless pursuit of new markets, leading Amazon into risky new ventures like the Kindle and cloud computing, and transforming retail in the same way Henry Ford revolutionized manufacturing. *The Everything Store* is the revealing, definitive biography of the company that placed one of the first and largest bets on the Internet and forever changed the way we shop and read.

He stumbles upon adventure, searches his soul, and grapples with the past. In doing so, he just might discover what a life well-lived truly looks like. Sometimes ordinary people do the most extraordinary things of all. Praise for *The Incredible Winston Browne*: "Sean Dietrich has written a home run of a novel with *The Incredible Winston Browne*. Every bit as wonderful as its title implies, it's the story of Browne—a principled, baseball-loving sheriff—a precocious little girl in need of help, and the community that rallies around them. This warm, witty, tender novel celebrates the power of friendship and family to transform our lives. It left me nostalgic and hopeful, missing my grandfathers, and eager for baseball season to start again. I loved it." —Ariel Lawhon, New York Times bestselling author of *I Was Anastasia* "Make no mistake. [Living While Black](#) Guilaine Kinouani 2022-01-25

A Guardian "Best Book of 2021" Selection A powerful look at the impacts of anti-Black racism and a practical guide for overcoming racial trauma through radical self-care as a form of resistance Over the past 15 years, radical psychologist Guilaine Kinouani has focused her research, writing, and workshops on how racism affects both physical and mental health. *Living While Black* gives voice to the diverse, global experiences of Black people, using personal stories, powerful case studies, and eye-opening research to offer expert guidance on how to set boundaries and process micro-aggressions; protect children from racism; handle difficult

race-based conversations; navigate the complexities of Black love; and identify and celebrate the wins. Based on her findings, Kinouani has devised tried-and-tested strategies to help protect Black people from the harmful effects of verbal, physical, and structural racism. She empowers Black readers to adopt self-care mechanisms to improve their day-to-day wellness to help them thrive, not just survive, and to find hope and beauty—or even joy—in the face of racial adversity. She also provides a vital resource for allies seeking to better understand the impacts of racism and how they can help. With the rise of far-right ideologies and the increase of racist hate crimes, *Living While Black* is both timely and instrumental in moving conversations from defining racism for non-Black majorities to focusing on healing and nurturing the mental health of those facing prejudice, discrimination, and the lasting effects of the violence of white supremacy.

The Encyclopedia of Canadian Organized Crime Peter Edwards 2012-07-31 You may never again think of Canadians as law-abiding. Respected crime reporters Peter Edwards and Michel Auger have pooled their research and expertise to create *The Encyclopedia of Canadian Organized Crime*. Sometimes grim, sometimes amusing, and always entertaining, this book is filled with 300 entries and more than 150 illustrations, covering centuries of organized crime. From pirates such as “Black Bart,” who sheltered in isolated Newfoundland coves to strike at the shipping lanes between Europe and the North American colonies, all the way to the most recent influx of Russian mobsters, who arrived after the end of the Cold War in 1989 and are now honing their sophisticated technological skills on the Western public, Edwards and Auger enumerate the personalities and the crimes that have kept Canadian law enforcement busy. Here too are the Sicilian and Calabrian gangs, the American and Colombian drug connections, the bikers whose internal struggles have left innocent bystanders dead (and who tried to murder Auger), as well as many unexpected figures, such as the Sundance Kid, who spent years in Canada. Arranged in alphabetical entries for easy browsing, and illustrated throughout with photographs and drawings, this is a book that will both entertain

and inform.

The Warmth of Other Suns Isabel Wilkerson 2011-10-04 NATIONAL BOOK CRITICS CIRCLE AWARD WINNER • NEW YORK TIMES BESTSELLER • In this beautifully written masterwork, the Pulitzer Prize-winner and bestselling author of *Caste* chronicles one of the great untold stories of American history: the decades-long migration of black citizens who fled the South for northern and western cities, in search of a better life. From 1915 to 1970, this exodus of almost six million people changed the face of America. Wilkerson compares this epic migration to the migrations of other peoples in history. She interviewed more than a thousand people, and gained access to new data and official records, to write this definitive and vividly dramatic account of how these American journeys unfolded, altering our cities, our country, and ourselves. With stunning historical detail, Wilkerson tells this story through the lives of three unique individuals: Ida Mae Gladney, who in 1937 left sharecropping and prejudice in Mississippi for Chicago, where she

achieved quiet blue-collar success and, in old age, voted for Barack Obama when he ran for an Illinois Senate seat; sharp and quick-tempered George Starling, who in 1945 fled Florida for Harlem, where he endangered his job fighting for civil rights, saw his family fall, and finally found peace in God; and Robert Foster, who left Louisiana in 1953 to pursue a medical career, the personal physician to Ray Charles as part of a glitteringly successful medical career, which allowed him to purchase a grand home where he often threw exuberant parties. Wilkerson brilliantly captures their first treacherous and exhausting cross-country trips by car and train and their new lives in colonies that grew into ghettos, as well as how they changed these cities with southern food, faith, and culture and improved them with discipline, drive, and hard work. Both a riveting microcosm and a major assessment, *The Warmth of Other Suns* is a bold, remarkable, and riveting work, a superb account of an "unrecognized immigration" within our own land. Through the breadth of its narrative, the beauty of the writing, the depth of its research, and the fullness of the people and lives portrayed herein, this book is destined to become a classic.

Comic Crime Earl F. Bargainnier 1987 The humor of Sherlock Holmes, Donald Westlake, Agatha Christie, Michael Innes, and Edmund Crispin are just a few of those discussed. A major point highlighted by this book is simply that wit, slapstick, laughter, and an anything-can-happen motif appear in a significant amount of fiction about crime.

The Signal and the Noise Nate Silver 2015-02-03 UPDATED FOR 2020 WITH A NEW

PREFACE BY NATE SILVER "One of the more momentous books of the decade." —The New York Times Book Review Nate Silver built an innovative system for predicting baseball performance, predicted the 2008 election within a hair's breadth, and became a national sensation as a blogger—all by the time he was thirty. He solidified his standing as the nation's foremost political forecaster with his near perfect prediction of the 2012 election. Silver is the founder and editor in chief of the website FiveThirtyEight. Drawing on his own groundbreaking work, Silver examines the world of prediction, investigating how we can distinguish a true signal from a universe of noisy data. Most predictions fail, often at great cost to society, because most of us have a poor understanding of probability and uncertainty. Both experts and laypeople mistake more confident predictions for more accurate ones. But overconfidence is often the reason for failure. If our appreciation of uncertainty improves, our predictions can get better too. This is the "prediction paradox": The more humility we have about our ability to make predictions, the more successful we can be in planning for the future. In keeping with his own aim to seek truth from data, Silver visits the most successful forecasters in a range of areas, from hurricanes to baseball to global pandemics, from the poker table to the stock market, from Capitol Hill to the NBA. He explains and evaluates how these forecasters think and what bonds they share. What lies behind their success? Are they good—or just lucky? What patterns have they unraveled? And are their forecasts really right? He explores unanticipated commonalities and exposes unexpected juxtapositions. And sometimes, it is not so much how good a prediction is in an absolute sense that matters but how good it is relative to the competition. In other cases, prediction is still a very rudimentary—and dangerous—science. Silver observes that the most accurate forecasters tend to have a superior command of probability, and they tend to be both humble and hardworking. They distinguish the predictable from the unpredictable, and they notice a thousand little details that lead them closer to the truth. Because of their appreciation of probability, they can distinguish the signal from

the noise. With everything from the health of the global economy to our ability to fight terrorism dependent on the quality of our predictions, Nate Silver's insights are an essential read.
