2018-10-03 Excerpt from Contract Price List of Vine Seeds and Seed Corn The past season was very disastrous to all our vine seed crops, more so than anything we ever experienced before. Selected planting stocks are much reduced, and yet, I very fortunately had nearly two years supply on hand. I therefore wish to announce that I will be able to care for the usual requirements of my customers, except on a few varieties as noted within, but I will not be able to handle a very much increased acreage. I will therefore request that orders be placed as early as possible. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. **Nineteenth Annual Descriptive List of
Cantaloupe, Other Vine Seeds and
Specialties**

Garwood and Woodside 2018-10-12

Excerpt from Nineteenth Annual Descriptive List
of Cantaloupe, Other Vine Seeds and Specialties:

Season 1931 The vines are hardy, strong,
vigorous growers and rarely affected by rust. It
is very early and prolific; has been known to
mature in 70 days from planting. The melons run
from oval to oblong in shape; very uniform in
size, averaging a little larger than the Rocky
Ford varieties. While it is a ribbed melon, the
ribs are not prominent and very heavily netted.
The flesh is a rich orange color, fine-grained and
of excellent flavor. The seed cavity is small. The
melon does not turn yellow When ripe but
retains its natural green color and remains solid

and firm for days after it is picked from the vine.
We recommend that everyone give it a thorough
trial. We are sure that it will give satisfaction.

The seed we offer is of our own growing from
Michigan stock. About the Publisher Forgotten
