Where the Wild Books Are Jim Dwyer
2010-04-01 As interest in environmental issues grows, many writers of fiction have embraced themes that explore the connections between humans and the natural world. Ecologically themed fiction ranges from profound philosophical meditations to action-packed entertainments. *Where the Wild Books Are* offers an overview of nearly 2,000 works of nature-oriented fiction. The author includes a discussion of the precursors and history of the genre, and of its expansion since the 1970s. He also considers its forms and themes, as well as the subgenres into which it has evolved, such as speculative fiction, ecodefense, animal stories, mysteries, ecofeminist novels, cautionary tales, and others. A brief summary and critical commentary of each title is included. Dwyer's scope is broad and covers fiction by Native American writers as well as ecofiction from writers around the world. Far more than a mere listing of books, *Where the Wild Books Are* is a lively introduction to a vast universe of engaging, provocative writing. It can be used to develop book collections or curricula. It also serves as an introduction to one of the most fertile areas of contemporary fiction, presenting books that will offer enjoyable reading and new insights into the vexing environmental questions of our time.

Normativity and the Problem of Representation
Matthew S. Bedke 2020-06-04 This book tackles questions which revolve around the representational purport (or lack thereof) of evaluative and normative claims. Claims about what we ought to do, what is best, what is justified, or simply what counts as a good reason for action—in other words, evaluative or normative claims—are familiar. But when we pause to ask what these claims mean and what we are doing when we use them, puzzles arise. Are there facts of the matter about what ought to be done, much like there are facts of the matter about mathematics or the natural world? If so, "ought claims" are probably trying to represent the "ought facts". Alternatively, perhaps there are no evaluative facts, in which case evaluative claims are either trying to represent facts which do not exist, or evaluative claims are not in the representation business to begin with. The latter option is intriguing, and it is the subject of much recent work in expressivism, pragmatism, and semantic relativism. But if ought claims are not representing anything as factual, why do we think such claims are true or false, and what are

we doing when we disagree with one another about them? This book sheds light on this important area of philosophy. This book was originally published as a special issue of the Canadian Journal of Philosophy.

World Enough Lesley Choyce 1998 When their farm gets expropriated to make way for the Point Lepreau nuclear power plant, Alexander McNab and his family move to Saint John. Without the magic of the Bay of Fundy, without the bright companionship of his little sister, Alex grows up a lonely, insecure failure. At 30, he's had enough; to make a clean break, he moves to

Halifax. There, he is hired as a counsellor at New Dawn, a rehabilitation workshop, even though he has no professional qualifications. Alex soon becomes part of the New Dawn family, and the distinction between the helper and the helped blurs. The key may be that Alex takes for granted the wholeness in each of these damaged adults. Blind Jeff, 17, knows everything about cars, so Alex takes him out to the parking lot and teaches him to drive. In turn, Alex is adopted by Cornwallis Itwaru, a descendent of Jamaican Maroons plagued by encroaching Alzheimer's, who firmly adjusts Alex's fuzzy thinking. Alex sees right away that Gloria Vincent, who suffers from schizophrenia, has adopted a sloppy dress and ugly glasses as camouflage for her intelligence and beauty, and his discovery does not wholly displease her. Unfortunately, New Dawn goes broke, but by the time the landlord padlocks the doors, Alex has learned that living life fully doesn't depend on external circumstances.

Dance the Rocks Ashore 2014 Lesley Choyce writes rings around most Canadian authors. Even so, the most recent of his five books of stories came out in 1988, and most are out of print. It's time for a new collection and here it is — Dance the Rocks Ashore or, as one might say, choice Choyce. Dance the Rocks Ashore contains substantial new stories including "Dance the Rocks Ashore," a bittersweet account of an elderly couple's decline; the hilarious and bizarre "My Father Was a Book Reviewer"; "The Third or Fourth Happiest Man in Nova Scotia," with a peculiar hero reminiscent of Noah; and "The Wreck of the Sister Theresa," in which spring fever hits like "a handshake in hell." Favourite stories from previous books include "Losing Ground," the pivotal chapter in Choyce's acclaimed 1989 novel *The Second Season* of Jonas MacPherson, as well as "The Cure," "Dancing the Night Away," and the complex and disturbing "Conventional Emotions."
