Bachman 2003 In the midst of a Victorian culture ingrained with strict social etiquette and societal norms, Wilkie Collins composed novels that contained asocial, even anarchic, impulses. A contemporary of Dickens, Collins creates a world more Kafkaesque than Dickensian, a world populated by doppelgangers, secret selves, oddballs, and grotesques. The essays of Reality's Dark Light: The Sensational Wilkie Collins purposefully work to expand Collins's legacy beyond The Woman in White and The Moonstone; they move well past the simplistic view of Collins's works as "sensation novels," "detective novels," or even "popular fiction," all labels that carry with them pejorative connotations. This collection represents the range of Collins's aesthetic project from various critical perspectives. New methodological and theoretical approaches are applied both to his most popular and to his lesser-known works, giving the reader a broader picture of this

Wilkie Collins, Medicine and the Gothic Laurence Talairach-Vielmas 2009-09-01 This book examines how Wilkie Collins's interest in medical matters developed in his writing through exploration of his revisions of the late eighteenth-century Gothic novel from his first sensation novels to his last novels of the 1880s.

Throughout his career, Collins made changes in the prototypical Gothic scenario. The aristocratic villains, victimized maidens and medieval castles of classic Gothic tales were reworked and adapted to thrill his Victorian readership. With the advances of neuroscience and the development of criminology as a significant backdrop to most of his novels, Collins drew upon contemporary anxieties and increasingly used the

medical to propel his criminal plots. While the prototypical castles were turned into modern medical institutions, his heroines no longer feared ghosts but the scientist's knife. This study hence underlines the way in which Collins's Gothic revisions increasingly tackled medical questions, using the medical terrain to capitalize on the readers' fears. It also demonstrates how Wilkie Collins's fiction reworks Gothic themes and presents them through the prism of contemporary scientific, medical and psychological discourses, from debates revolving around mental physiology to those dealing with heredity and transmission. The book's structure is chronological covering a selection of texts in each chapter, with a balance between discussion of the more canonical of Collins's texts such as *The Woman in White*, *The Moonstone* and *Armadale* and some of his more neglected writings.

PULITZER PRIZE • NATIONAL BESTSELLER • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). • From the bestselling author of *The Passenger* A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. *The Road* is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the

other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. Look for Cormac McCarthy's latest bestselling novels, *The Passenger* and *Stella Maris*.
