increasing number of survivors is due in part to advances in early detection and treatment of cancer. It's also due partly to a growing and aging population.

Second Assessment of Climate Change for the Baltic Sea Basin

The BACC II Author Team
2016-10-08 This book is an update of the first BACC assessment, published in 2008. It offers new and updated scientific findings in regional climate research for the Baltic Sea basin. These include climate changes since the last glaciation (approx. 12,000 years ago), changes in the recent past (the last 200 years), climate projections up until 2100 using state-of-the-art regional climate models and an assessment of climate-change impacts on terrestrial, freshwater and marine ecosystems. There are dedicated new chapters on sea-level rise, coastal erosion and impacts on urban areas. A new set of chapters deals with possible causes of regional climate change along with the global effects of increased greenhouse gas concentrations, namely atmospheric aerosols and land-cover change. The evidence collected and presented in this book shows that the regional climate has already started to change and this is expected to continue. Projections of potential future climates show that the region will probably become considerably warmer and wetter in some parts, but dryer in others. Terrestrial and aquatic ecosystems have already shown adjustments to increased temperatures and are expected to undergo further changes in the near future. The BACC II Author Team consists of 141 scientists from 12 countries, covering various disciplines related to climate

research and related impacts. BACC II is a project of the Baltic Earth research network and contributes to the World Climate Research Programme.

The Second Chance Club Jason Hardy
2021-02-16 A former parole officer shines a bright light on a huge yet hidden part of our justice system through the intertwining stories of seven parolees striving to survive the chaos that awaits them after prison in this illuminating and dramatic book. Prompted by a dead-end retail job and a vague desire to increase the amount of justice in his hometown, Jason Hardy became a parole officer in New Orleans at the worst possible moment. Louisiana's incarceration rates were the highest in the US and his department's caseload had just been increased to 220 "offenders" per parole officer, whereas the national average is around 100. Almost immediately, he discovered that the biggest problem with our prison system is what we do—and don't do—when people get out of prison. Deprived of social support and jobs, these former convicts are often worse off than when they first entered prison and Hardy dramatizes their dilemmas with empathy and grace. He's given unique access to their lives and a growing recognition of their struggles and takes on his job with the hope that he can change people's fates—but he quickly learns otherwise. The best Hardy and his colleagues can do is watch out for impending disaster and help clean up the mess left behind. But he finds that some of his charges can muster the miraculous power to save themselves. By following these heroes, he both stokes our hope and fuels our outrage by showing us how most

offenders, even those with the best intentions, end up back in prison—or dead—because the system systematically fails them. Our focus should be, he argues, to give offenders the tools they need to re-enter society which is not only humane but also vastly cheaper for taxpayers. As immersive and dramatic as *Evicted* and as revelatory as *The New Jim Crow*, *The Second Chance Club* shows us how to solve the cruelest problems prisons create for offenders and society at large.

Patients Come Second Spiegelman Paul 2018-08-21 Americans enjoy the finest

healthcare delivery system in the world, but most people will tell you that we still have a long way to go. Far too frequently, patients leave the doctor's office or hospital feeling confused, angry, or neglected. Healthcare leaders recognize this problem, but in their focus on patients (and sometimes financials), they often overlook the true key to lasting patient loyalty and satisfaction: their employees. *Patients Come Second* shakes up the traditional healthcare model, arguing that in order to care for and retain patients, leaders must first create exceptional teams and find ways to engage nurses, administrative staff, physicians, supervisors, and even housekeeping staff and switchboard operators. By connecting employees' work with a higher purpose and equipping them with the tools to become leaders themselves, patient care can be dramatically transformed. And with continuing healthcare changes on the horizon and ever-rising pressure to acquire and keep patients, doing so now is more important than ever. Britt Berrett, president of an 898-bed hospital, and Paul Spiegelman, founder and CEO of a successful patient-experience company, are the perfect guides to the changes needed in healthcare leadership. With a rich combined experience in their field, they have filled each chapter with an abundance of engaging, insightful stories and write with a humor and friendliness that balances and enhances the urgency of their message.

Second Chance

Second Chance Danielle Steel 2009-02-25 As editor-in-chief of New York's leading fashion magazine, Fiona Monaghan was utterly content with her life, jetting back and forth between her stylish Manhattan and Europe—until the sweltering June day John Anderson strolled into her office. A widower with two daughters, John was as conservative as Fiona was freewheeling, both amused and appalled by her world of high-strung designers, anorexic models, Fendi-stuffed closets, and Sir Winston, her snoring bulldog. But after Fiona impulsively invited John to the Paris couture shows, somewhere between the magic of the runway and the stroll along the Seine, she let him into her heart. And within weeks of their return to New York, John was making friends with Sir Winston—and Fiona was

making room in her closets. It didn't take long for the dominoes to start falling. First, John introduced Fiona to his hostile daughters and their bloodthirsty Pekingese and snarling housekeeper. Then, after a disastrous dinner party with John's biggest client, Fiona and John's relationship began to unravel with alarming speed. What happens next will set Fiona on a journey filled with pain, revelation, and awakening. When she risks everything and returns to Paris alone, an extraordinary series of events begins to unfold. And as the snow falls on the city of light, the curtain will rise on a second act Fiona never saw coming. In a dazzling tale of modern misadventures and career-crossed relationships, Danielle Steel captures the heady magic of instant attraction, the challenges of change—and the hope that comes when we dare to do it all over again.
