Art Books Wolfgang M. Freitag 2013-10-28 First published in 1997. For this second edition of *Art Books: A Basic Bibliography of Monographs on Artists*, the vast number of new books published since 1985 was surveyed and evaluated. This has resulted in the selection of 3,395 additional titles. These selections, reflective of the increase in the monographic literature on artists during the last ten years, are evidence of the activities of a larger number of art historians in more countries worldwide, of the increasingly diverse and ambitious exhibition programs of museums whose number has also increased dramatically, and also of a lively international art market and the attendant gallery activities. The selections of the first edition have been reviewed, errors have been corrected and important new editions and

reprints have been noted. The second edition contains 278 names of artists not represented in the first edition.

Turner Graham Reynolds 2022-09-01 Few British artists have ever achieved such a wide range of style in oil painting, watercolour, drawing and engraving as J. M. W. Turner. He had a precocious gift that was developed over a lifetime of experiment and innovation. This classic book in the World of Art series traces the artists career from youthful pictureseque views and watercolours of Gothic ruins to the romantic landscape and historical compositions of his maturity, and the astonishing art of his later years. In these late paintings Turners tragic sense of life is stated most profoundly and the work was unintelligible to his contemporaries but his reputation as the greatest British painter now rests on our understanding of these as pioneering explorations of abstraction, prefiguring the art of the 20th century. Graham

Reynolds weaves together the artists biography with sensitive criticism of his work, through all phases of his career, in this classic work first published in 1969 that has long served as an outstanding introduction to Turners life and art. It has now been revised and updated by the curator of the Turner Bequest at Tate, David Blayney Brown, to reflect recent discoveries and interpretations, and the illustrations are in full colour for the first time. It will serve as the best available study of this perennially popular artist for a new generation of readers.

Turner was a fascinating and enigmatic figure. Both astonishingly prolific and extraordinarily innovative, he is widely seen as the greatest British landscape painter of them all, anticipating and surpassing the Impressionists in his dramatic interpretations of the effects of light and colour. The Turner Book goes beyond the usual interpretations of the artist, revealing the extraordinary self-belief and ambition that allowed him to continue steadfastly with his experimentation in the face of hostile critical attack. The book examines in detail key works and the techniques by which Turner realised them and features revealing extracts from his notebooks, travel journals and poetry.

Beautifully illustrated with both famous and unknown works and ranging over the entire course of the artist's career, this is the essential guide to Turner's life and work. Sam Smiles is Professor of Art History at the University of Plymouth at Exeter and the author of numerous acclaimed books, including *J.M.W. Turner, Two-way Traffic: British Art and Italian Art 1880-1980* and *The Image of Antiquity: Ancient Britain and the Romantic Imagination*.
