Preventing Drowning World Health Organization 2017 "Far too many people around the world know the pain of losing a loved one to drowning. Each year almost 360 000 people die from drowning--over 90% of them in low- and middle income countries. More than half of these deaths are among those younger than 25, with children aged under 5 facing the greatest risk. Drowning is the third leading cause of death worldwide for those aged from 5 to 14. Despite these tragic facts, drowning prevention gets relatively little attention and few resources. There is far more we can do to prevent drowning. Global commitments made as part of the Sustainable Development Goals, for example, cannot be met as long as this preventable cause of death is left largely unchecked. All of us--policymakers, parents, non-profit organizations, businesses and concerned citizens--can help prevent drowning. Explaining how is the goal of this guide. Building on the World Health Organization's 2014 Global report on drowning, the following pages provide practical, step-by-step guidance on how to implement 10 effective measures to prevent drowning. They range from community-based solutions, such as day care for children and barriers controlling access to water, to effective national policies and legislation around water safety, including setting and enforcing boating, shipping and ferry regulations. Data show that all of these solutions can help save lives. The more we work together to implement the measures outlined in this guide, the more lives can be saved. We urge all concerned to adopt as many of the interventions and strategies as their resources will allow, and to protect those most vulnerable without delay." p. IV.

Wong's Essentials of Pediatric Nursing - E-Book Marilyn J. Hockenberry 2021-03-05 As the #1 title in the pediatric nursing market for over 40 years, Wong's Essentials of Pediatric Nursing, 11th Edition continues to leverage its trademark developmental approach as it equips readers with the very latest research and guidelines for treating children today. The text utilizes a highly-readable writing style and encourages a whole-body approach — beginning with child development and health promotion to better understand the later chapters on specific health problems. This new eleventh edition also features Next Generation NCLEX®-style case studies and questions, a new chapter covering all systems cancers, additional case studies within the nursing care plans, and updated and expanded evidence-based content throughout to best reflect the latest standards and trends impacting pediatric nursing care today. Developmental approach clearly identifies developmental tasks and influences at each stage of a child's growth. Emphasis on wellness features health promotion chapters for each developmental stage of childhood. Critical thinking case studies with answers are found throughout the text. Quality patient outcomes are highlighted within nursing management discussions for major diseases and disorders. Drug alerts draw attention to potential safety issues, reflecting QSEN safety initiative. Family focus includes a separate family chapter as well as family content and Family-Centered Care boxes integrated throughout the text. Community Focus boxes provide resources and guidance on caring for children outside the clinical setting. Evidence-Based Practice boxes focus attention on the application of research and critical thought processes to support and guide the outcomes of nursing care. Chapter on complementary & alternative therapy cover timely topics to aid in providing complete, comprehensive care. Nursing care plans provide a model for planning patient care and

include rationales that provide the "why." Research Focus boxes highlight current studies that impact pediatric nursing today. Cultural content and Cultural Considerations boxes are integrated throughout the text to draw attention to customs and beliefs of different cultures that influence childcare. Atraumatic Care boxes contain techniques for care that minimize pain, discomfort, or stress. Nursing tips offer helpful hints and practical, clinical information of a non-emergency nature. Nursing alerts feature critical information that MUST BE considered in providing care. Emergency Treatment sections provide a quick reference in critical situations. Nursing care guidelines provide clear, step-by-step instructions for performing specific skills or procedures.

Protecting the Gift Gavin De Becker 2013-05-15 Safety skills for children outside the home Warning signs of sexual abuse How to screen baby-sitters and choose schools Strategies for keeping teenagers safe from violence All parents face the same challenges when it comes to their children's safety: whom to trust, whom to distrust, what to believe, what to doubt, what to fear, and what not to fear. In this empowering book, Gavin de Becker, the nation's leading expert on predicting violent behavior and author of the monumental bestseller *The Gift of Fear*, offers practical new steps to enhance children's safety at every age level, giving you the tools you need to allow your kids freedom without losing sleep yourself. With daring and compassion, he shatters the widely held myths about danger and safety and helps parents find some certainty about life's highest-stakes questions: How can I know a baby-sitter won't turn out to be someone who harms my child? (see page 103) What should I ask child-care professionals when I interview them? (see page 137) What's the best way to prepare my child for walking to school alone? (see page 91) How can my child be safer at school? (see page 175) How can I spot sexual predators? (see page 148) What should I do if my child is lost in public? (see page 86) How can I teach my child about risk without causing too much fear? (see page 98) What must my teenage daughter know in order to be safe? (see page 191) What must my teenage son know in order to be safe? (see page 218) And finally, in the face of all these questions, how can I reduce the worrying? (see page 56)

The Pool Safety Resource Geoff Dawson 2011-04-20 This book will help parents understand the unique risks of their own pool environment and how to build a robust system of protection. When the Roisum family moved to Florida in 2005 they decided to install a new pool in their back yard. Everyone was excited about the aquatic fun they would enjoy for years to come. It was just another day in March when Jenna, kissed her 2 year old son Mason goodbye as she left for work. Not long after, Mason found his way to the pool and drowned. Every year, hundreds of children and infants fall victim to accidental drowning accidents that are preventable with proper precautions. In *The Pool Safety Resource*, author and pool safety consultant Geoff Dawson guides parents and pool owners through the dangers and risks and helps them identify and make educated choices regarding swimming pools and other bodies of water. He offers realworld advice and solutions to help increase safety. He discusses understanding, evaluating, and mitigating risks; building layers of protection; constructing a safe, new pool; providing aquatic survival

skills and swimming lessons; establishing and communicating pool rules; enjoying the pool safely; preparing for emergencies; being a pool safety advocate. Owning a pool is a huge responsibility, but the benefits to health, happiness, and family life are immeasurable. The Pool Safety Resource provides a wealth of information to help families enjoy their swimming pools safely.
