ambitious young men, Joe Lucas had worked hard to gain his Electrical Engineering degree, and once he was qualified he took it on himself to start his own business manufacturing electronic devices that would make Australian homes, factories and offices more secure. There was definitely a niche market for such manufactured items, with the steady rise in house breaks, after-hours theft from business houses and confidential and personal documents being stolen from government departments and the like. Joe immediately grasped the opportunity to make and customize sophisticated electronic devices, that would hopefully combat the newer methods criminals were now using to break the law. During this time he also met and fell in love with a young lady called Sophie Hamm, and in less than two year's they were married. He was also advised to make Sophie a fifty-percent silent partner in his manufacturing business, being assured there were many financial benefits

to be had, doing it that way. A short while later, and with two young daughters under five, he was soon to discover that his wife Sophie had cleverly been keeping a secret from him, helped along by his overpowering and domineering mother-in-law. It happened again to him a few months later, when Joe was visiting the city of Adelaide in South Australia, only this time it was one of his last remaining relatives his mother's older sister, and he was shocked to find she too had been keeping a secret from him? It's hard to keep secrets in families.

of reference get lost, or finally don't matter. Mina lives with her screenwriter husband and works at her best friend Lorene's highly successful concept restaurants, which exploit the often unconscious desires and idiosyncrasies of a rich, chic clientele. Almost inadvertently, Mina has acquired two lovers. And then there are the other men in her life: her father, a washed-up Hollywood director living in a yurt and hiding from his debtors, and her disturbed brother, Michael, whose attempts to connect with her force Mina to consider that she might still have a heart -- if only she could remember where she had left it. Between her Spiritual Exfoliation and Detoxification therapies and her elaborate devotion to style, Lorene is interested only in charting her own perfection and impending decay. Although supremely confident in a million shallow ways, she, too, starts to fray at the edges. And there is Lisa, a loving mother who cleans houses, scrapes by, and dreams of food terrorists

and child abductors, until even the most innocent events seem to hint at dark possibilities. Lightning Field explores the language tics of our culture -- the consumerist fetishes, the self-obsession and the peeting possibility that you just might have gotten it all badly wrong. In funny, cutting, unsentimental prose, Spiotta exposes the contradictions of contemporary lives in which "identity is a collection of references." She writes about overcoming not just despair but ambivalence. Playful and dire, raw and poetic, Lightning Field introduces a startling new voice in American fiction. *Sun Slower, Sun Faster* Meriol Trevor 2004 This is an adventurous story with a difference--it is soon after World War II, but Cecil (short for Cecilia) and her cousin, Rickie, are thrown into a series of adventures that have little to do with the England that they know. Inexplicably, they, and sometimes their eccentric and interesting tutor, Dominic, find themselves in another time--usually right in the middle of a dramatic, if not harrowing, moment. Every dip into time takes them farther back and each time they experience another chapter of the Church's history and teachings. At once fun and frightening, these escapades into the past take on deeper and deeper significance. Each of these three Cecil, Rickie, Dominic are faced with things from their own pasts which touch deeply upon who they are in the present and who they will

choose to be in the uncertain but tantalizing future. They have much to sort out, as history--especially the history of the Christian Faith--comes unexpectedly alive.

Two years later, with no other financial option, I moved back to my small hometown. It was easy to pretend the fuzzy gaps in my memory weren't there as I got a job under the strict woman who almost killed my childhood love of books. I thought everything was perfect when I married my dream guy. Then the attack happened. The "good" folks at the local magical law enforcement agency knew about me the whole time. They've pressured me to work for them as an exorcist because they're convinced I was a vigilante who committed multiple murders. My odd, intriguing mentor Cory watches for any misstep

The worst part? The only people who seem to believe me are my friend June and my journalist cousin Kat. Eli, filled with spite for the local magical rulers, seems to know something I DON'T and thinks I should play them at their own game and seduce my mentor, so we can interrogate him together... - The Southern Magicks is a small-town paranormal urban fantasy/mystery series with a M/M/NB menage romantic subplot. Before he was an Army Ranger who came home to become Tibbehah County Sheriff and take down a corrupt system, Quinn Colson was a kid who got into trouble--a lot of it. So when juvenile delinquent TJ Byrd insists that she doesn't know who killed her mother—an unreliable addict who has disappeared—Quinn's inclined to believe her. But no one else does--not the town, not the sheriff in a neighboring county, not her mother's older boyfriend, and certainly not Quinn's friend and former deputy, U.S. Marshal Lillie Virgil. The Byrd family has always been trouble, and sixteen-year-old TJ is known for petty theft, fighting, and general hellraising. She's also no fool, and when she senses she's about to take the fall for her mother's murder, TJ, her boyfriend, her best friend, and her nine-year-old brother go on the run. As Lillie Virgil tracks the kids across a trail of burglaries, stolen cars and even a kidnapping, intent on
