The Shape of Green Lance Hosey 2012-06-11 Does going green change the face of design or only its content? The first book to outline principles for the aesthetics of sustainable design, *The Shape of Green* argues that beauty is inherent to sustainability, for how things look and feel is as important as how they're made. In addition to examining what makes something attractive or emotionally pleasing, Hosey connects these questions with practical design challenges. Can the shape of a car make it more aerodynamic and more attractive at the same time? Could buildings be constructed of porous materials that simultaneously clean the air and soothe the skin? Can cities become verdant, productive landscapes instead of wastelands of concrete? Drawing from a wealth of scientific research, Hosey demonstrates that form and image can enhance conservation, comfort, and community at every scale of design, from products to buildings to cities. Fully embracing the principles of ecology could revolutionize every aspect of design, in substance and in style. Aesthetic attraction isn't a superficial concern — it's an environmental imperative. Beauty could save the planet.

Art, Imagination and Christian Hope Gavin Hopps 2016-12-05 In hope, Christian faith reconfigures the shape of what is familiar in order to pattern the contours of God's promised future. In this process, the present is continuously re-shaped by ventures of hopeful and expectant living. In art, this same poetic interplay between past, present and future takes specific concrete forms, furnishing vital resources for sustaining an imaginative ecology of hope. This volume attends to the contributions that architecture, drama, literature, music and painting can make, as artists trace patterns of promise, resisting the finality of modernity's despairing visions and generating hopeful living in a present which, although marked by sin and death, is grasped imaginatively as already pregnant with future.

*Our Only Hope* Margaret B Adam 2014-08-28 The most popular source of theological hope for modern Christians is that of Jurgen Moltmann. Preachers, teachers, and lay people reflect Moltmann's influence, with their hope in a this-worldly eschatology and suffering God. However, an exclusive reliance on that hope deprives the church of crucial resources in the face of global economic, environmental, and military crises. *Our Only Hope* explores Moltmannian hope and considers its costs before looking elsewhere for additional contributions, from Thomas Aquinas' theological virtue of hope to nihilism and beyond, in order to encourage the church to sustain and practise hope in Jesus Christ, our only hope.

Christian Hope among Rivals Michael W. Zeigler 2017-08-29 Hope is a widespread, if not a universal, human experience. For centuries, followers of Jesus of Nazareth have ordered their lives around a central hope. How is their experience similar to or different from others who live by hope? This book seeks an answer in the idea that living by hope involves living within a peculiar story of the world--an incomplete story. The stories that shape these hopes are threatened by evil, however it may be defined&mdash. The hopeful struggle as characters caught up in plots that move toward resolution. They exercise an as-yet unverified hope that evil will not prevail. In this regard, the hope of Christians is similar to others. Yet, it is different because they wait for the God of Jesus to transform the world to match the promise he made to

Abraham. To arrive at this conclusion, this book takes a detour through four model life-organizing stories. Christians and participants in other stories-of-the-world may not agree on the ultimate ground for hope. However, taking a detour into the hopeful experience of another may help uncover a place where rivals can stand together long enough to talk. "Michael Zeigler's insightful text rightly returns us to the immense power of life-organizing stories. The Christian description of reality continues to mold and shape our individual narratives, imbibing them with meaning found in the cross and empty tomb--the place where the essential conflict between God, sin, and humanity is resolved. Ever gracious, Christian Hope Among Rivals invites Christians into meaningful conversation with other traditions without surrendering the profound hope that is offered in Christ alone." --Joel Oesch, Associate Professor of Theology, Concordia University Irvine

**Hope's Journey** Serena Simpson 2020-04-04 Was it love if it broke the rules? Hope was brought up to believe that love looked a certain way. It acted a certain way, hell it even smelled a certain way. So why didn't she want the mother approved love she saw on her television screen? Her heart longed for something that she knew the world around her would not accept. Seth was exiled to this planet for being something he couldn't change. His option had been the right, according to his family. All he had to do was die as he renounced the sin that was buried in his blood and marrow. That would allow others like him, both male and female, to renounce their wicked ways and to die with the blessing of the great one on them. He chose to keep living. Logan had a choice, but to him, it was a non-choice. He could renounce Seth, and all that he stood for, or he could go through the turmoil of living life on the run until he was exiled along with Seth. He chose a life on the run, fighting for what was right. Three people one fatal meeting that will change not only their lives but the shape of the world they live in. The world will tell you to be content as it steals your joy from you one breath at a time. This is the journey of Hope, Seth, and Logan as they travel to find a different kind of love. This book is for people who are 18 and older. It is an adult book that features a triad union. It is mmf and mfm. Why? Because people in love touch.

Prisoner of Hope Ed Cook 2011-11 Some forks in the road simply provide a side trip or detour. Others alter the shape and meaning of a person's life. As Ed Cook writes, "My new life began the day I didn't kill myself." Choosing life on April 28, 1976 resulted in Ed's life moving in an entirely new direction. That day began a fifteen-month journey from addiction to recovery and from atheism to faith. What could have been an overly sober story is kept enjoyably readable with infusions of wit and wisdom. Hearing another's story often prompts us to think about our own stories and learn from them. You may find that by reading *Prisoner of Hope*, you may learn more about yourself than about Ed Cook.

*Patience, Compassion, Hope, and the Christian Art of Dying Well* Christopher P. Vogt 2004 By mining the rich tradition of virtue ethics, Christopher Vogt uses the virtues of patience, compassion, and hope as a framework for specifying the shape of a good death, and for naming the practices Christians should develop

to live well and die well. Bringing together historical, biblical, and contemporary sources in Christian ethics, Vogt provides a long-overdue theological analysis of the ars moriendi or art of dying literature of four centuries ago. Through a careful analysis of Luke's passion narrative, Vogt uses Jesus as the primary model for being patient in the face of death and for dying well.

Our Only Hope Margaret B. Adam 2013-08-08 The most popular source of theological hope for American Christians is that of Jurgen Moltmann. Preachers, teachers, and lay people reflect Moltmann's influence, with their hope in a this-worldly eschatology and a suffering God. However, an exclusive reliance on that hope deprives the church of crucial resources in the face of global economic, environmental, and military crises. Suffering and Hope Johan Christiaan Beker 1994 This is a print on demand book and is therefore non-returnable. This compelling study by J. Christian Beker provides a moving, triumphant answer to one of life's greatest mysteries -- the presence of suffering in God's world. Now an established classic in the discussion of the problem of evil, Suffering and Hope plumbs the Old Testament's response to earthly pain as well as Paul's own dealings with "redemptive suffering." Beker seeks to understand how the Bible's view of suffering relates to our present experience of suffering and to the Christian hope for the future of creation. His concern is with the quality and character of both suffering and hope in a world where the question of suffering is inescapable. This powerful new edition features a foreword by Ben C. Ollenburger that describes the story behind the book -- the dehumanizing conditions Beker endured as a slave laborer during the Nazi occupation of The Netherlands and the ways in which they helped shape the particular poignancy of his view of suffering. Readers will be moved both by Beker's personal transparency and by his biblical vision of "hopeful suffering" -- the apocalyptic trust in God's eventual victory over the power of death that poisons his creation.

**Paul and the Hope of Glory** Constantine R. Campbell 2020-11-24 A Unique Study of Pauline Eschatology that Is Both Exegetical and Theological One of the trajectories coming out of Constantine Campbell's award-winning book Paul and Union with Christ is the significance of eschatology for the apostle. Along with union with Christ, eschatology is a feature of Paul's thinking that affects virtually everything else. While union with Christ is the "webbing" that joins Paul's thought together, eschatology provides the "shape" of his thought, and thus gives shape to his teaching about justification, resurrection, the cross, ethics, and so forth. There is considerable debate, however, about Paul's eschatology, asking whether he is a "covenant" or an "apocalyptic" theologian. In Paul and the Hope of Glory Campbell conducts a thorough exegetical study of the relevant elements of Paul's eschatological language, metaphors, and images including "parousia," "the last day," "inheritance," "hope," and others. He examines each passage in context, aiming to build inductively an overall sense of Paul's thinking. The results of this exegetical study then feed into a theological study that demonstrates the integration of Paul's eschatological thought into his overall theological framework. The study is comprised of three parts: The first part introduces the key issues--both exegetical and theological--and sets the parameters and methodology of the book. It also offers an historical survey of the scholarly work produced on Paul's eschatology through the twentieth century to

the present day. The second part contains the detailed exegetical analysis, with chapters on each important Pauline phrase, metaphor, and image related to eschatology. The third part turns its attention to theological synthesis. It recapitulates relevant conclusions from the evidence adduced in part two and launches into theological discussion engaging current issues and debates. This volume combines high-level scholarship and a concern for practical application of a topic currently debated in the academy and the church. More than a monograph, this book is a helpful reference tool for students, scholars, and pastors to consult its treatment of any particular instance of any phrase or metaphor that relates to eschatology in Paul's thinking.

*A Heart for the Future* Robert Boak Slocum 2004 Prominent thinkers, writers, and well-known voices in the Episcopal Church come together to present a very broad spectrum of Christian thought and eschatology. Ultimately, what they have in common is the belief that the choice Christians must make is not between the now and the eternal; it is between being forward-looking and being back-ward looking. Unless we look with eagerness and longing toward the future, we will stay stranded in the past. To live the Christian life today, we need a heart for the future.

*Hope Is an Imperative* David W. Orr 2011-03-01 For more than three decades, David Orr has been one of the leading voices of the environmental movement, championing the cause of ecological literacy in higher education, helping to establish and shape the field of ecological design, and working tirelessly to raise awareness of the threats to future generations posed by humanity's current unsustainable trajectory. *Hope Is an Imperative* brings together in a single volume Professor Orr's most important works. These include classics such as "What Is Education For?," one of the most widely reprinted essays in the environmental literature, "The Campus and the Biosphere," which helped launch the green campus movement, and "Loving Children: A Design Problem," which renowned theologian and philosopher Thomas Berry called "the most remarkable essay I've read in my whole life." The book features thirty-three essays, along with an introductory section that considers the evolution of environmentalism, section introductions that place the essays into a larger context, and a foreword by physicist and author Fritjof Capra. *Hope Is an Imperative* is a comprehensive collection of works by one of the most important thinkers and writers of our time. It offers a complete introduction to the writings of David Orr for readers new to the field, and represents a welcome compendium of key essays for longtime fans. The book is a must-have volume for every environmentalist's bookshelf.

**An Unpromising Hope** Thomas R. Gaulke 2021-09-21 Written in a theopoetic key, this book challenges Christian reliance on the motif of promise, especially where promise is regarded as a prerequisite for the experience of hope. It pursues instead an unpromising hope available to the agnostic or belief-fluid members and leaders of faith communities. The book rejects any theological judgement about doubt and hopelessness being sinful. It also rejects any hope which is grounded in a sense of Christian supremacy. Chapter 1 focuses on Ernst Bloch's antifascist concept of utopian surplus, putting Bloch in conversation with queer theorist José Esteban Muñoz and womanist theologian M. Shawn Copeland. Chapter 2 explores the saudadic and theopoetic hope of Rubem Alves. Chapter 3 turns to the womanist theologies of Delores Williams, Emilie Townes, and A. Elaine Brown Crawford. Finally, chapter 4 engages the post-colonial eschatology of Vitor Westhelle, framing hope as nearby in space, rather than nearby in time. Each chapter offers an unpromising hope that may be tapped into by those who wish to affirm belief-fluidity in their own communities, and by those who wish to speak of hope honestly, whether or not, at any given moment, they believe in God or in the promises of a god.

**The Shape of Hope** Philip Berlin 2016

*The Hope of the Christian* Otto J. Hentz 1997 Christians declare their ultimate hope in two words: eternal life. What is eternal life? How does hope in eternal life relate to the challenges we face? Does hope for

eternal life devalue our world or distract us from responsibility for the world we shape? And why hope, precisely? What is hoping? Why do we hope in God? An intellectually honest Christian does not ponder these questions out of idle curiosity. Without hope in eternal life our future is, ultimately, only death, and death puts into question the meaning of life, of whom we are now and what we are about in our history. In giving an account of their hope, Christians proclaim the Gospel anew and let their light shine for others. *The Agricultural Journal of the Cape of Good Hope* Cape of Good Hope (Colony). Department of Agriculture 1905

*Hope in the Dark* Rebecca Solnit 2016-05-14 “[A] landmark book . . . Solnit illustrates how the uprisings that begin on the streets can upend the status quo and topple authoritarian regimes” (Vice). A book as powerful and influential as Rebecca Solnit’s *Men Explain Things to Me*, her *Hope in the Dark* was written to counter the despair of activists at a moment when they were focused on their losses and had turned their back to the victories behind them—and the unimaginable changes soon to come. In it, she makes a radical case for hope as a commitment to act in a world whose future remains uncertain and unknowable. Drawing on her decades of activism and a wide reading of environmental, cultural, and political history, Solnit argues that radicals have a long, neglected history of transformative victories, that the positive consequences of our acts are not always immediately seen, directly knowable, or even measurable, and that pessimism and despair rest on an unwarranted confidence about what is going to happen next. Now, with a moving new introduction explaining how the book came about and a new afterword that helps teach us how to hope and act in our unnerving world, she brings a new illumination to the darkness of our times in an unforgettable new edition of this classic book. “One of the best books of the 21st century.” —The Guardian “No writer has better understood the mix of fear and possibility, peril and exuberance that’s marked this new millennium.” —Bill McKibben, New York Times–bestselling author of *Falter* “An elegant reminder that activist victories are easily forgotten, and that they often come in extremely unexpected, roundabout ways.” —The New Yorker

**The Hope of the Gospel** George MacDonald 2020-12-02 -and thou shalt call his name Jesus; for he shall save his people from their sins.-Matthewi. 21.I would help some to understand what Jesus came from the home of our Father to be to us and do for us. Everything in the world is more or less misunderstood at first: we have to learn what it is, and come at length to see that it must be so, that it could not be otherwise. Then we know it; and we never know a thing really until we know it thus. I presume there is scarce a human being who, resolved to speak openly, would not confess to having something that plagued him, something from which he would gladly be free, something rendering it impossible for him, at the moment, to regard life as an altogether good thing. Most men, I presume, imagine that, free of such and such things antagonistic, life would be an unmingled satisfaction, worthy of being prolonged indefinitely. The causes of their discomfort are of all kinds, and the degrees of it reach from simple uneasiness to misery such as makes annihilation the highest hope of the sufferer who can persuade himself of its possibility. Perhaps the greater part of the energy of this world's life goes forth in the endeavour to rid itself of discomfort. Some, to escape it, leave their natural surroundings behind them, and with strong and continuous effort keep rising in the social scale, to discover at every new ascent fresh trouble, as they think, awaiting them, whereas in truth they have brought the trouble with them. Others, making haste to be rich, are slow to find out that the poverty of their souls, none the less that their purses are filling, will yet keep them unhappy. Some court endless change, nor know that on themselves the change must pass that will set them free. Others expand their souls with knowledge, only to find that content will not dwell in the great house they have built. To number the varieties of human endeavour to escape discomfort would be to enumerate all the modes of such life as does not know how to live. All seek the thing whose defect appears the cause of their misery, and is but the variable occasion of it, the cause of the shape it takes, not of their misery itself; for, when one apparent cause is removed, another at once succeeds. The real cause of his trouble is a something the man has not perhaps recognized as even existent; in any case he is not yet acquainted with its true nature.

Topics included are salvation from sin, the remission of sins, Jesus in the world, Jesus and his fellow townsmen, the heirs of heaven and earth, sorrow the pledge of joy, God's family, the reward of obedience, and the hope of the universe.

**Jürgen Moltmann's Ethics of Hope** Timothy Harvie 2016-05-06 This book develops a thorough account of the sphere of human moral action in sustained dialogue with Jürgen Moltmann. By examining God's role as promise-giver, particularly in the Christian understanding of resurrection, this work describes the occupancy of both history and space in moral terms. This leads to an understanding of Jesus' description of 'the kingdom of God' to feature prominently in describing both the possibility and content of human moral action. By offering an account of each of the main doctrines found in Moltmann's corpus - the role of the future, the Trinity, the Holy Spirit, and anthropology - this book locates how each contributes to the understanding of ethics from a Christian perspective and subsequently applies these findings to the contemporary issue of poverty and global economics.
