"The Secret Island" - Aided by Jack, an orphan they have befriended, the Arnold children run away to an island on a nearby lake, and together they make a new home constructed with the branches of a willow tree. "The Secret of Spiggy Hole" - The Arnold children discover that their parents are alive and reunite with them. "The Secret of Killimoooin" - Prince Paul invites the Arnold's to his palace in Baronia for the holidays; but it is so hot there in the roasting summer that the entire royal household adjourns to their

castle up in the mountains. Bands of robbers are marauding the countryside, terrorizing the local people, and Paul is incensed, and determined to find the robbers and have them detained. "The Secret of Moon Castle" - The Arnolds are invited to spend some time in the castle with Prince Paul's family. They are all soon puzzled by strange events happening in the castle: odd noises that occur, eyes in portraits that shine mysteriously, lights that shine in tower rooms, despite being locked tight.

[America's Secret Island](#) Peter E. Newell 2015-09-13 I reveal the existence of a US-UK-NATO submarine base on Andros, established in 1963. I describe in detail all the facilities on Andros, used mainly by the Americans, although British personnel, including submarines, visit the base, not generally known or reported in Great Britain. Mention is made of Paradise Island, adjacent to Nassau, where entertainment is provided for personnel stationed in Andros. Paradise Island was developed by the mafia, with assistance from former President Nixon. The next chapter details SOSUS, the underwater anti-submarine detection system, connected, in the Atlantic Ocean, to West Wales, the Azores, Bermuda and Andros. Like the base on Andros, SOSUS is rarely, if ever, reported in the British media. Who knows of its base in West Wales? Very few.

**Secret Island Dimension** Janet R. Shaw 2019-06-22 The secret island dimension is called Keo since it is the 'key' that bridges the gap between "Earth-as-we-know-it" and "magical realms beyond." The differences between 'mystical' and what we'd consider 'normal' lie in secret aspects there that are known only to a privileged few. "Keo Island" is a separate dimension from the tiny unnamed island that shares its coordinates--a privately owned uninhabitable island--so small that, if shown on any map of the Hawaiian Islands, would only appear as a tiny insignificant dot. That actual island (if you can even call it an island) is only the anchor that holds Keo in place. In this first book of the Ambersand Dimensions series, 15-year-old Jaiya, guided by a telepathic kitten named Zendo, discovers Ambersand--a secret movie lot--and finds its movie production company is a cover-up for a secret magical society there and Zendo is a 'between-worlds-angel' able to form-shift at will.
