The Man Without a Shadow

Joyce Carol Oates 2016-01-19
In this taut and fascinating novel, the bestselling, New York Times bestselling and National Book Award-winning author of *The Sacrifice*, *The Accursed*, and *Lovely, Dark*, Oates examines the mysteries of memory, personality, and identity and pierces the enigmatic force that drives human lives—love. In 1965, neuroscientist Margot Sharpe meets the attractive, charismatic Elihu Hoopes—the “man without a shadow”—whose devastated memory, unable to store new experiences or to retrieve the old, will make him the most famous and most studied amnesiac in history. Over the course of the next thirty years, Margot herself becomes famous for her experiments with E. H.—and inadvertently falls in love with him, despite the ethical ambiguity of their affair, and though he remains forever elusive and mysterious to her, haunted by mysteries of

the past. The Man Without a Shadow tracks the intimate, illicit relationship between Margot and Eli, as scientist and subject embark upon an exploration of the labyrinthine mysteries of the human brain. Where does “memory” reside? Where is “love”? Is it possible to love an individual who cannot love you, who cannot “remember” you from one meeting to the next? Made vivid by her exceptional eye for detail and her keen insight into the human psyche, *The Man Without A Shadow* is a unique story of forbidden love, a kind of secret, evolving marriage, depicted in Joyce Carol Oates’s tight, impassioned prose. It is an uncanny, ambitious, and structurally complex novel that penetrates the mind and illuminates the heart.

remember these events; he can't recall anything long-term, except the summer of his fifteenth year following his mother's death. It was the summer his father told him to call him Kurt. The summer the mysterious and enchanting Vera burst into their lonely, quiet lives. The summer his own world opened, then irrevocably changed. James, at fifty-two, suffers from a severe case of early onset Alzheimer's. The novel unravels James's predicament through the clear glimpses he retains of that long ago summer, and through the desperate attempts of his wife and his nurse to bring him back to the present, if only for stolen moments. Each has her motives: his wife trying not to lose the man with whom she shared so much - wars, death, love, loss of a child, history. And his nurse, the half sister he never knew he had, needing James's adolescent memory to understand the biological father and mother she never met. Told from the perspective of a man betrayed by his own mind, *Shadow Man* is a novel

of identity and suspense that travels across continents and deep into the pasts that make us each who we are. It explores the power of memory to heal and to mask, and of the limits of unconditional love. Set in Philly and the eastern shore of yesteryear, in the Middle East, and throughout Eastern Europe, Fleishman's trademark descriptive but spare lyricism shines. *Shadow Man* is a touching and haunting novel perhaps most similar to *The Diving Bell and the Butterfly*, though it is a work of fiction. From the Trade Paperback edition.

Shadow Man Richard Layman

1981 The legend of Dashiell Hammett, the former Pinkerton detective who reinvented the mystery story in five books written between 1929 and 1934, is carefully examined here by Richard Layman in a meticulously factual account of all that is likely to be known about the real "Continental Op." This unsentimental account of Hammett from his rural Maryland youth through the Pinkerton years in San Francisco, fame as a novelist, notoriety as a Hollywood screen writer, imprisonment as an uncooperative McCarthy committee witness, and an obscure death in 1961 highlights the facts while accenting the shadow on which the legend would be built. bestselling author of the Perfect series, Helen Fields. **The Shadow Man** Geoff Andrews 2015-09-07 James Klugmann appears as a shadowy figure in the legendary history of the Cambridge spies. As both mentor and friend to Donald Maclean, Guy Burgess and others, Klugmann was the man who manipulated promising recruits deemed ripe for conversion to the communist cause. This perception of him was reinforced following the release of his MI5 file and the disclosure of Soviet intelligence files in Moscow, which revealed he played the key part in the recruitment of John Cairncross, the 'fifth man', as well as his pivotal war-time role in the Special Operations Executive in shifting Churchill and the allies to support Tito and the communist partisans in Yugoslavia. In this book, Geoff Andrews reveals Klugmann's story in full for the first time, uncovering the motivations, conflicts and illusions of those drawn into the world of communism and the sacrifices

they made on its behalf.

2022-03-01 "Mindhunter crossed with American Gothic. This chilling story has the ghostly unease of a nightmare."—Michael Cannell, author of *Incendiary: The Psychiatrist, the Mad Bomber and the Invention of Criminal Profiling* The pulse-pounding account of the first time in history that the FBI's Behavioral Science Unit

created a psychological profile to catch a serial killer On June 25, 1973, a seven-year-old girl went missing from the Montana campground where her family was vacationing. Somebody had slit open the back of their tent and snatched her from under their noses. None of them saw or heard anything. Susie Jaeger had vanished into thin air, plucked by a shadow. The largest manhunt in Montana's history ensued, led by the FBI. As days stretched into weeks, and weeks into months, Special Agent Pete Dunbar attended a workshop at FBI Headquarters in Quantico, Virginia, led by two agents who had hatched a radical new idea: What if criminals left a psychological trail that would lead us to them? Patrick Mullany, a trained psychologist, and Howard Teten, a veteran criminologist, had created the Behavioral Science Unit to explore this new "voodoo" they called "criminal profiling." At Dunbar's request, Mullany and Teten built the FBI's first profile of an unknown subject:

Psychological operations (PSYOPs) are the preferred method by which shadow men socially engineer the masses' consent on a myriad of important issues. The author provides numerous examples of how social engineers have modified the public's perceptions and attitudes about America's founders, slavery, financial markets, dating and mating customs, self-perception, and a laundry list of other matters people have no idea were socially engineered. The reader will become expert on the character of the men who work in the shadows whose sole reason for living is to control others in service to accumulating wealth and power, of which, they never, ever, have enough. The reader is provided a step-by-step program that promises to strip away shadow men's brainwashing of them and return the reader to his natural state of freedom and happiness.

Shadow Man Gabriel Blackwell 2012-10-01 According to Dashiell Hammett, a shadow man is "meant to blend in, to disappear by being always there." Hammett knew something about disappearing. Behind the shadows thrown by "Miles Archer," his fictional detective, was a very real detective-his partner in San Francisco, Lewis Miles Archer, a private detective so private that, when he went missing in February of 1929, no one even thought to look for him. Shadow Man is the biography of the silhouette Hammett, as well as Raymond Chandler and even Ross Macdonald, eventually filled in, a man who was always there. Until he wasn't. "Shadow Man is a stylish, metaphysical romp through a noir labyrinth. It manages to do for the hardboiled classics what Rosencrantz and Guildenstern Are Dead did for Hamlet." - Jedediah Berry, author of "The Manual of Detection" "Shadow Man's project is to unnerve biography's careless assumptions about selfhood

and historical knowledge. The real detective work involved in this bright, complex, comic, melancholy critifiction about the epistemological static at the nexus of art and the rest reveals itself in the intriguing chess game the reader is asked to play on every page with the puckish meta-author." -Lance Olsen, author of "Calendar of Regrets" "Borges warns us of 'the contamination of reality by dream, ' and with that in mind, Gabriel Blackwell's infectious book drives us out of our minds, defying quarantine, plum crazy on Plum Island. The narrative genetics of this nonfiction fiction is masterfully mosaic. Rules are all busted and bested. Shadow Man is sicker than sick but in a good way, in the best way." -Michael Martone, author of "Michael Martone" and "Four for a Quarter" "In Shadow Man, Gabriel Blackwell stakes his claim as conductor and curator extraordinaire of shadows textual, characterological, and historical. Raising the language of noir to the nth power, and serving up a plot that might

lead Ray Chandler to hang a white flag on his carriage return, Shadow Man rewards its reader richly in style, substance, and insubstance. Brace yourself to shadow Blackwell as he charts the fraught, frayed boundaries between fact and fiction, but also to lose yourself delightedly in the murky, twisting alleyways of this book." -Tim Horvath, author of "Understories" and Distinguished Professor of Umbrology at the New Hampshire Institute of Art *Incendiary* Michael Cannell 2017-04-25 Long before the specter of terrorism haunted the public imagination, a serial bomber stalked the streets of 1950s New York. The race to catch him would give birth to a new science called criminal profiling. Grand Central, Penn Station, Radio City Music Hall—for almost two decades, no place was safe from the man who signed his anonymous letters “FP” and left his lethal devices in phone booths, storage lockers, even tucked into the plush seats of movie

theaters. His victims were left cruelly maimed. Tabloids called him “the greatest individual menace New York City ever faced.” In desperation, Police Captain Howard Finney sought the help of a little known psychiatrist, Dr. James Brussel, whose expertise was the criminal mind. Examining crime scene evidence and the strange wording in the bomber’s letters, he compiled a portrait of the suspect down to the cut of his jacket. But how to put a name to the description? Seymour Berkson—a handsome New York socialite, protégé of William Randolph Hearst, and publisher of the tabloid The Journal-American—joined in pursuit of the Mad Bomber. The three men hatched a brilliant scheme to catch him at his own game. Together, they would capture a monster and change the face of American law enforcement.

The Shadow Man Mary Gordon 1997-04-29 "My father died when I was seven years old. I've always thought that was the most important thing anyone could know about me." The beloved, lost father - the Shadow Man: in this searing memoir, one of America's finest writers discovers the truth about the man whose romantic image defined her life. But who was David Gordon really? In Mary Gordon's memories of him, he was an erudite and charming man: an intellectual, a writer and publisher, a Harvard dropout and Jazz Age bohemian. But at midlife she began to question these loving memories and to go in search of the man whose presence - and absence - haunted her life. Unburying startling truths, Gordon discovers both a devoted, inventive, and loving father and a person desperate to cover up the underside of the immigrant's encounter with the American dream. As

Gordon tracks her father - in the archives, in libraries, in the middle of America - she uncovers lies, despair, madness: a man who lied about many things, including his date and place of birth, his native language, his family, his education. A Jew born in the last years of the nineteenth century, he became a convert to Catholicism and to right-wing politics, a literary critic who was also a pornographer, and a vicious anti-Semite. As a realistic portrait of her father emerges, Mary Gordon reevaluates herself in the light of these painful discoveries about her heritage and past.

contained surveillance photos, search warrants, FBI interviews, text messages, call logs, and police interviews with friends and family of Shanann and Chris Watts. In this first book, Alan guides the reader through the official narrative set forth by DA Michael Rourke. Alan adopted the name 'The Shadow Man' after discovering a shadow on the driveway of the Watts family home showing Chris bending down to pick up what turned out to be one of his children. This is contrary to the official narrative delivered by DA Rourke when he stated in the court that Chris Watts had carried out his entire deceased family to his truck 'like trash'. In addition, Alan has shown categorically that no one died in the house thus proving beyond doubt that, again, DA Rourke got it wrong.
