Rogue Banking M. Hollow 2014-11-27 Since the turn of the millennium, the British media has been awash with stories of bankers and financiers caught engaging in acts of corporate wrongdoing and financial skullduggery. But just how different are these crimes to those committed in the past? And, is the threat of financial fraud greater today than in bygone years? In this book, Matthew Hollow begins answering these questions by providing an in-depth historical overview of some of the most significant frauds that took place in the British financial sector between 1919 and 1939. Using extensive archival evidence, he reveals the variety of tactics that were employed by interwar fraudsters to conceal their underhand transactions and dupe the British public into handing over their money. He goes on to explore the different factors

that motivated these fraudsters many of whom had previously had blemish-free records to engage in these acts of deception and deceit. Rogue Banking is a unique resource for history and finance researchers and students, both in the UK and around the world, who are interested in questions relating to corporate fraud and white-collar crime. This book's interdisciplinary approach also makes it an accessible and informative tool for professionals in accountancy, management and criminology.

Secret Treasure. Hidden Riches of the British Isles, Etc. [With Plates.] Alpheus Hyatt VERRILL 1931

Lost Gold of the Dark Ages Caroline Alexander 2011-10-18 In July 2009 an amateur metal-detecting enthusiast made an astonishing find: 1500 pieces of bejeweled gold and silver almost 1500 years old, buried, lost, then forgotten. The treasure trove promises to shed unprecedented light on the most mysterious period of British history—the so-called "Dark Ages"—when the Saxons, Anglos, Celts, Picts, Jutes, and Vikings battled for control of the British Isles and a "mish mash of peoples evolved into a homogenous nation possessed with a strong cultural identity," according to New York Times bestselling author of the book, Caroline Alexander. Alexander, author of the bestselling *The Endurance* and *The Bounty*, draws themes from the story of the spectacular treasure to explore the entire fascinating history of the Saxons in England; from the fall of Rome to the flourishing and seemingly incomprehensible spread of Saxon influence. Piece by piece, she draws readers into a world of near constant warfare guided by a unique understanding of Christianity, blended as it was with pagan traditions. Through heroic and epic literature that survives in poems such as *Beowulf* and the *Legends of King Arthur*, Alexander seeks to separate myth from reality and wonder, with readers, if the circumstances of the deposit of such a spectacular hoard have parallels in legendary tales. Peering through a millennia of mist and mystery, Alexander reveals a fascinating era—and a mesmerizing discovery—as never before, uncovering a dynamic period of history that would see its conclusion in the birth of the English nation. Set in a landscape whose beauty endures, the story of the making of England emerges through a wealth of archaeological and written

material. The story highlights the fluid nature of human societies and carries a surprisingly modern message of a successful, cohesive culture emerging from a diverse group of peoples.

A Modern Legal History of Treasure N.M. Dawson 2023-04-06 This book examines treasure law and practice from the rise of the new science of archaeology in the early Victorian period to the present day. Drawing on largely-unexamined state records and other archives, the book covers several legal jurisdictions: England and Wales, Scotland, Ireland pre- and post-independence, and post-partition Northern Ireland. From the Mold gold cape (1833) to the Brighter hoard (1896), from Sutton Hoo (1939) to the Galloway hoard (2014), the law of treasure trove, and the Treasure Act 1996, are considered through the prism of notable archaeological discoveries, and from the perspectives of finders, landowners, archaeologists, museum professionals, collectors, the state, and the public. Literally and metaphorically, treasure law is revealed as a ground-breaking chapter in the history of the legal protection of cultural property and cultural heritage in Britain and Ireland.

The Inquisition Alpheus Hyatt Verrill 1931

Ontario Library Review 1926

Secret Treasure A. Verrill 2013-01-30 The romance of hidden treasure has long been a subject of interest to A. Hyatt Verrill. In a previous book,

'Lost Treasure/' the author tracked down the existing treasures in South and Central America and along the Spanish Main. In "Secret Treasure," he gives a fascinating account of the hidden riches of the British Isles, a record which is based upon months of laborious research. As the author explains, in Great Britain there has been ample opportunity and motive for the hiding of possessions in the centuries that have passed and in the waves of warfare of one kind or another that have inundated the small islands. The scope of the story embraces England, Ireland, Scotland, and Wales, and includes accounts of such fabulous treasures as that of the Florencea Galleon whereon was lost the gold of the Armada, the treasure of the Tower of London, which Pepys writes about, and traditional treasures like Dick Wittington's and that of Wallingford Castle. "Secret Treasure" is an exciting adventure into a field which is perpetually romantic. It is told in a delightfully vivid manner. It is Mr. Verrill at his best.
