A Historical Atlas of Tibet Karl E. Ryavec 2015-05-08 This pioneering work documents cultural and religious sites across the Tibetan Plateau and its bordering regions from the Paleolithic Era to today. Western fascination with Tibet has soared in recent decades, yet this historic and globally celebrated region has barely been mapped. With this groundbreaking atlas, Karl E. Ryavec sweeps aside the image of Tibet as Shangri-La, offering a comprehensive vision of the region as it really is. The product of twelve years of research and eight more of mapmaking, the results are absolutely stunning. A Historical Atlas of Tibet ranges through the five main periods in Tibetan history, offering introductory maps of each followed by details of western, central, and eastern regions. It beautifully visualizes the history of Tibetan Buddhism, tracing its spread throughout Asia, with thousands of temples mapped, both within Tibet and across North China and Mongolia, all the way to Beijing. There are maps of major polities and their territorial administrations, as

well as of the kingdoms of Guge and Purang in western Tibet, and of Derge and Nangchen in Kham. There are town plans of Lhasa and maps that focus on history and language, on population, natural resources, and contemporary politics. Extraordinarily comprehensive and absolutely gorgeous, this volume makes a major contribution in the realms of cartography, Asian studies, and Buddhist studies.

High Frontiers Kenneth M. Bauer 2004 This is an ethnographic and ecological history of Dolpo, a culturally Tibetan region in western Nepal. Bauer describes Dolpo since the 1950s and traces how pastoralists living in the trans-Himalaya have adapted to sweeping changes in their economic, political and cultural circumstances.

NAKO Gabriela Krist 2016-10-10 The Nako temple complex from the 12th century is an extraordinary testimony of early Tibetan Buddhism not anymore preserved in today's Tibet. Endangered by the rough environment, improper treatment and frequent earthquakes, the outstanding monuments were re-discovered by scholars from Austrian universities in the 1980s. The transdisciplinary research project carried out over more than 20 years led to in-depth studies, preservation and model-like conservation of the temples and their artworks.

Himalaya John Keay 2022-09-15 'John Keay is the master storyteller and historian. This grand narrative of Himalaya is as epic as the mountains and peoples he describes' Dan Snow 'Adds the human element to the hard rock. And what a rich vein it is' Michael Palin History has not been

kind to Himalaya. Empires have collided here, cultures have clashed. Buddhist India claimed it from the south, Islam put down roots in its western approaches, Mongols and Manchus rode in from the north, and, from the east, China continues to absorb what it prefers not to call Tibet. Hunters have decimated its wildlife and mountaineers have bagged its peaks. Today, machinery gouges minerals out of its rock. Roughly the size of Europe, the region is one of the most seismically active on the planet. Summers bring avalanches, rainfall triggers landslides and winters obliterate trails. Glaciers retreat, rivers change course and whole lakes quietly evaporate. To some, Himalaya is an otherworldly realm, profoundly life-changing, yet forbidding and forbidden. It has mesmerised scholars and mystics, sportsmen and spies, pilgrims and mapmakers who have mingled with the farmers and traders on the 'Roof of the World'. Himalaya is the story of one of the last great wildernesses and, in particular, of the bizarre discoveries and improbable achievements of its pioneers. Ranging from botany to trade, from the Great Game to today's geopolitics, John Keay draws on a lifetime of exploration and study to enlighten and delight with this lively biography of a region in crisis.

Zhang Zhung John Vincent Bellezza 2008 Using archaeological, anthropological and philological methodologies, Zhang Zhung presents the formative elements in the development of civilization in Upper Tibet, the vast upland north and west of Lhasa. Part I of this major work provides a comprehensive examination of the monumental and aesthetic traces of the Metal Age and early historic period in Upper Tibet. Based

on a field survey project of twelve years duration, the morphological, constructional, mythological and cross-cultural traits of the region's visible archaeological wealth are described in detail, laying the groundwork for the meticulous textual analysis that follows. In Part II of the book, annotated translations of numerous excerpts from Bon and Buddhist texts present the traditional view of Tibet's ancient past. These indigenous literary accounts of the early cultural, religious and political complex of the Plateau are in turn systematically compared to the archaeological record, revealing critical points of agreement. Zhang Zhung has pioneered the application of empirical evidence to gauge the historicity and significance of Tibetan Bon sources. Part III is devoted to the study of the archaic funerary heritage of Tibet, which proves to be highly useful with regard to analyzing the cultural evolution of the Plateau. New perspectives on the identity and contributions of the Tibetan ethnos are obtained by subjecting Dunhuang and Bon textual materials to rigorous archaeological and ethnographic interpretation. Considerable effort has been devoted to analyzing Tibetan funerary literature and to discerning its links to northern Inner Asian mythology and burial practices of the first millennium BCE and the first three-quarters of the first millennium CE. Critically edited transliterations of the Tibetan works, tables of all the surveyed archaeological sites, bibliographies and extensive indexes complement the main text.

Facing Mount Kanchenjunga Sangharakshita 2018-04-05 This volume of Sangharakshita's Complete Works includes Facing Mount Kanchenjunga, the second in the series of his memoirs, and, in Dear

Dinoo, some very personal letters. Facing Mount Kanchenjunga covers the period 1950-1953, beginning with Sangharakshita's arrival in Kalimpong as a twenty-four-year-old sramaa'era, and his response to his teacher's injunction to 'stay here and work for the good of Buddhism!' In the pages that follow we are drawn into a deeply committed Dharma life lived in unusual circumstances and among some very colourful characters. As he recalls the significant events of those years - the setting up of the Kalimpong Young Men's Buddhist Association; the creation of a new Buddhist journal, whose contributors included Conze, Guenther, Govinda and other leading Buddhist writers of the time; accompanying the Sacred Relics of the Buddha's chief disciples; advising on the making of a Buddhist film; giving lectures; discovering Dharmapala; meeting Dhardo Rimpoche; in fact, working in every way to spread the Dharma - Sangharakshita also affords the reader glimpses of his inner life, his struggles and disappointments, his aspirations and inspirations, his responses to the beauties of nature, and his feeling for friendship. The twenty-nine letters collected together in Dear Dinoo span the period 1955-1974, giving a sighting of Sangharakshita's life as he experienced it at the time, including what happened on the day of Dr Babasaheb Ambedkar's untimely death in 1956. We are also afforded a glimpse of the unusual friendship that sprung up between the young English monk and the Montessori teacher. Kalyanaprabha's Introduction highlights some of the significances of the correspondence, including reflections on Sangharakshita, Women, and Friendship. A friend who often appears in the letters, Dr Dinshaw Mehta, Servant of God, and one time naturopath to Gandhi, is the subject of the appendix.

Pilgrimage in Tibet Alex McKay 2013-12-16 The Western image of Tibet as a sacred land is in many ways a mythical construction. But the Tibetans themselves have traditionally mapped out their land in terms of areas of sacred space, and pilgrimage, ensuring a high degree of mobility within all classes of Tibetan society. Pilgrims travelled to local, regional, and national centres throughout recorded Tibetan history. In recent years, pilgrimage has resumed in areas where it had been forbidden by the Chinese authorities, and has now become one of the most prominent religious expressions of Tibetan national identity. In this major new work, leading scholars of Asian pilgrimage traditions discuss historical and contemporary aspects of pilgrimage within the Tibetan cultural world. Myths and legends, material conditions, textual sources, a modern pilgrim's impressions, political and economic influences, biographies and contemporary developments - all these and many other issues are examined here. The result is an informative and often entertaining work which contributes greatly to our knowledge of the history and culture of Tibet as well as the wider issues of religious power and practice.

Tibetan Inscriptions 2013-07-01 The articles brought together in this volume not only deal with Tibetan inscriptions on such diverse writing supports as paper, temple walls, rocks and tsha tshas, they also span a wide range in respect to the contents of the historical and religious epigraphs discussed.
