Born to Run Christopher McDougall 2010-12-09
A New York Times bestseller 'A sensation ... a rollicking tale well told' - The Times At the heart of Born to Run lies a mysterious tribe of Mexican Indians, the Tarahumara, who live quietly in canyons and are reputed to be the best distance runners in the world; in 1993, one of them, aged

57, came first in a prestigious 100-mile race wearing a toga and sandals. A small group of the world's top ultra-runners (and the awe-inspiring author) make the treacherous journey into the canyons to try to learn the tribe's secrets and then take them on over a course 50 miles long. With incredible energy and smart observation, McDougall tells this story while asking what the

secrets are to being an incredible runner. Travelling to labs at Harvard, Nike, and elsewhere, he comes across an incredible cast of characters, including the woman who recently broke the world record for 100 miles and for her encore ran a 2:50 marathon in a bikini, pausing to down a beer at the 20 mile mark.

Shamanic Secrets: Lost Wisdom Regained

Robert Shapiro 2016-11-01 Due to wars, natural disasters, a shaman not being able to train a successor, and many other reasons, Isis (through Robert) says that 95 percent of the accumulated shamanic wisdom has been lost. Now it is important to regain this wisdom as young people who are able to learn and use these processes are being born now. Beings who lived as shamans and healers on Earth at various times now speak through Robert Shapiro and bring these lost teachings and techniques to a humanity waking up and discovering it has the talents and abilities to use this wisdom for the benefit of all. "This is a time on Earth when

people are being rent asunder by dramas in their lives and are overwhelmed by dramas in the lives of others or are sometimes attached to the dramatic events of the day. In times gone by, there were people who provided knowledge, wisdom, and comfort to ease life for their people. "This book is entirely about finding comfort and ease through life. You don't have to struggle. You don't have to find substitutes for things you don't have. You don't have to get along without things you need. You need food, comfortable shelter, good health, and time to enjoy life. This book does not provide all the answers to all your questions. Rather, it is the beginning of much more to come. "Some of you are interested in how others lived their lives in the past, but most of you — especially those who need something, want something, or are desperately trying to acquire something — are interested in how people from the past acquired those things. Some of the suggestions will seem fantastic or impossible to you. Don't assume

that. Some of you will find you can produce, in some way, a portion of what those shamans from the past were able to do. This might be easier for those of you already on your spiritual path. Even if you are not on any particular spiritual path, don't assume you cannot do these things."

NEW YORK TIMES
BESTSELLER • WINNER OF THE WILLIAM HILL SPORTS BOOK OF THE YEAR AWARD
The Secret Race is the book that rocked the world of

professional cycling—and exposed, at long last, the doping culture surrounding the sport and its most iconic rider, Lance Armstrong. Former Olympic gold medalist Tyler Hamilton was once one of the world’s top-ranked cyclists—and a member of Lance Armstrong’s inner circle. Over the course of two years, New York Times bestselling author Daniel Coyle conducted more than two hundred hours of interviews with Hamilton and spoke with numerous teammates, rivals, and friends. The result is an explosive page-turner of a book that takes us deep inside a shadowy, fascinating, and surreal world of unscrupulous doctors, anything-goes team directors, and athletes so relentlessly driven to win that they would do almost anything to gain an edge. For the first time, Hamilton recounts his own battle with depression and tells the story of his complicated relationship with Lance Armstrong. This edition features a new Afterword, in which the authors reflect on the developments within the sport, and involving

Armstrong, over the past year. The Secret Race is a courageous, groundbreaking act of witness from a man who is as determined to reveal the hard truth about his sport as he once was to win the Tour de France. With a new Afterword by the authors. “Loaded with bombshells and revelations.”—VeloNews “[An] often harrowing story . . . the broadest, most accessible look at cycling’s drug problems to date.”—The New York Times “ ‘If I cheated, how did I get away with it?’ That question, posed to SI by Lance Armstrong five years ago, has never been answered more definitively than it is in Tyler Hamilton’s new book.”—Sports Illustrated “Explosive.”—The Daily Telegraph (London)

Lost Secrets of the Gods Michael Pye
2014-07-21 Are there 10,000-year-old secret societies that still exist today? Was there a race of giants that once inhabited the Americas? Did ancient Egypt and ancient China have heretofore

undiscovered ties? Lost Secrets of the Gods delves into these ancient mysteries and many more in articles by some of the world's most intrepid and knowledgeable researchers. The old paradigms of history are being radically transformed as we discover more evidence of little-known cultures and what they achieved. Many ancient cultures spoke and wrote of visitors that gave them knowledge and helped shape their societies. Who were they, and where did they come from? We now know that many ancient cultures had advanced knowledge of science, agriculture, and astronomy, only some of which has been rediscovered in the last 100 years. Were The Iliad and The Odyssey really about an epic struggle in pre-Celtic Europe? What happened to the Persian army that completely disappeared from Egypt 2,500 years ago? Did the ancients know how to create psychic guard dogs to protect sacred sites? There is much more to history than what has officially been recorded. Lost Secrets of the

Gods reveals startling truths and asks fascinating questions traditional historians have long ignored.

Secrets of the Lost Mode of Prayer Gregg Braden 2016-07-26 Could our deepest hurts reveal the key to a powerful form of prayer that was lost 17 centuries ago? What can we learn today from the great secret of our most cherished traditions? "There are beautiful and wild forces within us." With these words, the mystic St. Francis described what ancient traditions believed was the most powerful force in the universe—the power of prayer. For more than 20 years, Gregg Braden has searched for evidence of a forgotten form of prayer that was lost to the West following the biblical edits of the early Christian Church. In the 1990s, he found and documented this form of prayer still being used in the remote monasteries of central Tibet. He also found it practiced in sacred rites throughout the high deserts of the American Southwest. In this book, Braden describes this

ancient form of prayer that has no words or outward expressions. Then, for the first time in print, he leads us on a journey exploring what our most intimate experiences tell us about our deepest beliefs. Through case histories and personal accounts, Braden explores the wisdom of these timeless secrets, and the power that awaits each of us . . . just beyond our deepest hurt!

The Lost Race Robert E. Howard 2015-02-12
This early work by Robert E. Howard was originally published in 1927 and we are now republishing it with a brand new introductory biography. 'The Lost Race' is a story in the Bran Mak Morn series and is set during the Roman invasion of Britain. Robert Ervin Howard was born in Peaster, Texas in 1906. During his youth,

his family moved between a variety of Texan boomtowns, and Howard – a bookish and somewhat introverted child – was steeped in the violent myths and legends of the Old South. At fifteen Howard began to read the pulp magazines of the day, and to write more seriously. The December 1922 issue of his high school newspaper featured two of his stories, 'Golden Hope Christmas' and 'West is West'. In 1924 he sold his first piece – a short caveman tale titled 'Spear and Fang' – for \$16 to the not-yet-famous *Weird Tales* magazine. Howard's most famous character, Conan the Cimmerian, was a barbarian-turned-King during the Hyborian Age, a mythical period of some 12,000 years ago. Conan featured in seventeen *Weird Tales* stories between 1933 and 1936 which is why Howard is now regarded as having spawned the 'sword and sorcery' genre. The Conan stories have since been adapted many times, most famously in the series of films starring Arnold Schwarzenegger.

Ancient High Tech Frank Joseph 2020-08-04 A detailed look into ancient advanced technology, science, and medicine--some of which has yet to be reproduced today • Explores countless examples of ancient high tech, including robotics, artificial intelligence, aircraft, solar-powered cannons, high-speed drills, illuminated

underground temples, massive refrigerators, and subterranean cities • Examines evidence of advanced medicine in ancient times • Includes examples from ancient Egypt, China, Greece, Babylon, Siberia, the Americas, and India The first self-igniting match was invented in 1805 by Jean Chancel, a French chemist. Yet, in Babylon, 3,600 years before, identical sulfur matches were in common use. On the Panchavarnaswamy Temple in India, built millennia ago, there is a detailed carving of a man on a bicycle, yet the bicycle wasn't invented in the modern world until 1817. These inventions are only two examples of technology lost in the Dark Ages. Exploring the sophisticated tech achieved by ancient civilizations hundreds and thousands of years ago, Frank Joseph examines evidence of robotics and other forms of artificial intelligence; manned flight, such as hot-air balloons and gliders; and military science, including flamethrowers, biological warfare, poison gas, and solar-powered cannons. He

reveals how ancient construction engineers excavated subterranean cities, turned stone walls into glass, lifted 100-ton blocks of granite, illuminated underground temples and pyramids, and stored their food in massive refrigerators. Examples explored in the book include the first known alarm clock, invented by Plato in 4th-century-BC Greece; 600-year-old Aztec whistles that reproduce animal sounds and human voices with uncanny accuracy; Stone Age jewelry from Siberia worked by a high-speed drill; sex robots in ancient Troy, Greece, and China; ancient Egyptian aircraft; and India's iron pillar exposed to sixteen hundred years of monsoons but still standing rust-free. The author also explores evidence of advanced medicine in ancient times, particularly in Egypt and China, from brain surgery, optometry, and prosthetics to dentistry, magnet therapy, and cancer cures. By examining the achievements of our ancient ancestors, we can not only reverse-engineer their inventions but also learn from their civilizations' mistakes,

enabling us to avoid more dark ages. Imagine how scientifically advanced humanity would be if our early achievements had escaped destruction and been allowed to develop?

Heirs of a Lost Race Francis Pitard 2002-04 The purpose of this book is many-fold! So many teens are struggling to find their identities, and parents are spending sleepless nights wondering what to do next. As a mental health practitioner in public school settings from the small to larger schools, the author has found that for the most part we are all the same inside, whether from the city or country, whether from private schools or public schools or home schooled. Dr. Syntha Traugher West has put together her own life's

experiences, her years of parenting, and of course the countless conversations with parents and teens who have provided her the pleasures, as well as the pains, of being in a trusting environment with an offered listening ear and a sounding board from a caring professional's point of view. Parents, if you are seeking a guide to put your teen in a better position to be ready for college with a better chance for financial aid, to check your parental skills in knowing your children and helping them make decisions, and are looking for peace in your own lives, then look inside these pages for wisdom and practical experiences to find answers to achieving those goals.

Lost Race of the Giants Patrick Chouinard 2013-09-28 An exploration of mythological and archaeological evidence for prehistoric giants • Examines the many corresponding giant mythologies throughout the world, such as the Greek and Roman titans, Norse frost giants, and the biblical Nephilim • Reveals recent finds of

giant skeletons in the deserts of Saudi Arabia and India • Explains how giants passed on their sophisticated culture and civilization to humanity before being wiped out in the great age of cataclysms and floods Giants are a cornerstone of the myths, legends, and traditions of almost every culture on Earth. Stories of giants are often considered fantasies of the ancients or primitive attempts to explain natural phenomena, but archaeological discoveries of 10- and 12-foot skeletons--many of which have been suppressed--confirm the existence of a forgotten golden age of giants before recorded history. Patrick Chouinard examines the staggering number of corresponding giant mythologies throughout the world, such as the Greek and Roman titans, Norse frost giants, the Hindu Daityas, the biblical Nephilim, the Celtic Formorach, the Sumerian Anunnaki, and the multitude of myths in which the sky or world is held aloft on the shoulders of a giant. He links these stories to

Atlantis as well as other legends of prehistoric civilizations lost to cataclysm and great floods whose survivors spawned the rise of ancient civilizations. The author reveals how physical remains of giant-size peoples have been found on almost every continent, including recent finds in the deserts of Saudi Arabia, Afghanistan, and northern India as well as hundreds of excavations of giant mummies and skeletons across the United States, corresponding directly with Native American accounts of red-haired giants. He also examines reports from famous explorers such as Magellan, Sir Francis Drake, and Desoto of their encounters with giants on the North American continent. Revealing how giants represent the true earthborn race, Chouinard explains how they engaged in open conflict with the extraterrestrial gods who created humanity for forced labor and how they passed their sophisticated culture and civilization on to humanity before being nearly wiped out in the great age of cataclysms.
