Nature Is Nurture Megan E. Delaney 2019-12-02

"From foraging and hunting for food to (more recently) finding solace and peace in a beautiful vista, humans have long interacted with the natural world. Though a connection to nature runs deep in our DNA, however, people of the modern age are indoors almost 93% of the day. With that said, there is a growing evidence suggests that the natural world promotes mental and physical well-being, including stress relief, improved mood, and neurological benefits. Ecotherapy, a steadily developing but lesser-known construct in mental health, explores the reciprocal relationship humans have with nature and its capacity to build strength and provide healing. Nature Is Nurture provides an overview of the theoretical concepts and empirical bases of ecotherapy via historical considerations and recent research within the discipline. Chapters share practical ways to incorporate ecotherapy with children, adults, and veteran populations; within schools; and in group work. Descriptions of modalities such as animal-assisted, equine-assisted, horticultural, forest-bathing, green-exercise, and adventure-based therapy are also included alongside case examples, techniques, and practical and ethical considerations. In examining the impact of improved physical and mental wellness for all clients, this book provides counselors, therapists, social workers, and psychologists with the knowledge and techniques to infuse ecotherapy into everyday practice."

Sailing Lessons Hannah McKinnon 2018-06-05 On the shores of Cape Cod, the Bailey sisters reunite with their long-lost father for a summer of hope and forgiveness in this heartfelt novel from the author of the "sharp and evocative" (Kirkus Reviews) *Mystic Summer*, *The Lake Season*, and *The Summer House*, sure to appeal to "fans of Elin Hilderbrand" (Booklist). Wrenn Bailey has lived all her life on Cape Cod with her mother Lindy, older sister Shannon, and younger

sister Piper. Growing up, life was dictated by the seasons with sleepy gray winters where only the locals stayed on, followed by the sharp influx and colorful bustle of summer tourists who swept up the elbow of the Cape and infiltrated their small paradise. But it wasn't just the tourists who interrupted Wrenn's formative years; her father—brilliant but troubled photographer Caleb—has long made a habit of drifting in and out of his girls' lives. Until the one summer he left the Cape and did not return again. Now, almost twenty years later, Caleb has come back one last time, suffering from pancreatic cancer and seeking absolution. Wrenn and her sisters each respond differently to their father's return, determined to find closure. But that means returning to the past and revisiting old wounds—wounds that cause the tightknit Bailey women to confront their own wishes and wants, and admit to their own wrong-doings over the years. In a place that brings both great comfort and great pain, the Bailey sisters experience a summer on the Cape that promises not only hard endings, but perhaps, hopeful new beginnings.

Shana and Bram share more than just a hometown, and he won't let her forget it. When the decades-old skeleton of Shana's estranged uncle is uncovered, Bram issues a challenge: Return home to Vermont and solve the cold case, or the blood he spills next will be on her hands. As Shana interviews members of her family and the community, mining for secrets that could help her solve her uncle's murder, she begins to realize how little she remembers of her childhood. In order to solve one mystery, Shana must wade into her murky past to unravel another.

My Children's Diary, or, the Morals of the passing hour. [The preface signed: R. D.] R. D. 1824

On the Way to Myself Charlotte Wolff 2015-08-11 Originally published in 1969, Dr Charlotte Wolff was the author of three books of psychology: *The Human Hand*, *A Psychology of Gesture* and *The Hand in Psychological Diagnosis*. This book, though it contains much psychology, is not of the same scientific kind as these. It is an autobiography, but not one of the normal kind. It is the history of a mind, not the chronicle of a life. For this reason it is not arranged chronologically but it is constructed round what the author called the creative shock experiences of her life, some of which belong with their consequences rather than with events adjacent in time. The resulting book is one of imaginative psychology. In the course of a life which began on the borders of Poland and carried her to Germany, France, Russia and England, Dr Wolff had met and known many of the most famous writers, artists and thinkers of the time. In Germany she studied under the founding Existentialists, Husserl and Heidegger; in France she carried out psychological research under Professor Henri Wallon and was also assisted by the Surrealists, André Breton, St. Exupéry, Paul Eluard; in England she was aided in her work by Sir Julian Huxley, Aldous Huxley

and his wife, Dr William Stephenson, Dr Earle and others. But Dr Wolff's earliest creative work was as a poet, and though she turned to psychology, her interest in art brought her into touch at different times with Ravel, Virginia Woolf, Bernard Shaw, Lady Ottoline Morrell, Thomas and Heinrich Mann, Baladine Klossowska and many more. Dr Earle wrote of her that she is 'an artist of psychology', and it is thus that she appears in this odd and fascinating book. Today it is an interesting glimpse in to the life of an early feminist psychologist. Her later research focused on sexology, her writing on lesbianism and bisexuality were influential early works in the field.

My Outback Childhood (younger readers)

Toni Tapp Coutts 2018-05-29 There was something interesting around every corner, be it brumbies and wild donkeys disappearing through the bush, or a little waterhole where the snakes and kangaroos came to drink. Toni's childhood isn't like other kids'. She is only five years old when her mum packs a small suitcase and takes the family over 300 kilometres on a scratchy dirt track to live at Killarney, a remote cattle station in the Northern Territory. Toni grows up among the cattle and horses, with the wild Territory climate and even wilder native animals around her. She has adventures with Old Dora and Daisy, the Aboriginal women who help raise her and her brothers and sisters. They teach her about bush tucker and tell her stories of debil debils. My Outback Childhood is the story of Toni's unconventional upbringing on Killarney - stalking goannas, helping in the cattle yards, riding horses and sleeping under the stars. Young readers will be captivated by this true story of a childhood filled with Outback adventures. Fascinating for city kids and country children alike, this is a unique story that educates as well as entertains.

The Last Lecture Randy Pausch 2008-04-08 "We cannot change the cards we are dealt, just

how we play the hand."---Randy Pausch A lot of professors give talks titled "The Last Lecture." Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave--"Really Achieving Your Childhood Dreams"--wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because "time is all you have...and you may find one day that you have less than you think"). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Where Chingchoks Chirp My Childhood Days in Bangkok Kim Pao Yu 2023-01-10 Bangkok in the 1950s and early 1960s was a relatively small city consisting of exotic temples and palaces built in

bygone days surrounded by rows of commercial and residential shophouses. Author Kim Pao Yu, a child born into a traditional Northern Chinese family, writes about his parents, their origins in Shandong, and how they escaped the war and communism in China to settle in Bangkok. In *Where Chingchoks Chirp*, a collection of essays, he shares his parents' beliefs and values, their hopes and joys, and their struggles to ensure a better life for their children. Raised in a shophouse where his parents owned an antique and furniture store, situated in a compound inhabited by immigrant Chinese from Swatow, Kim describes everyday activities—the myriad vendors who sold their goods and services, the neighborhood children and the games they played, and how they celebrated holidays and festivals. The selections also cover the food and recipes his mother left as a legacy; his memories of people and experiences encountered while growing up; and his adventures at an American school as a local Chinese boy attending with the children of American expatriate and military families that shaped his thinking as he left Bangkok for higher learning in the United States. *Where Chingchoks Chirp* shares the sights, sounds, and smells of the bygone days of Bangkok, now a modern, bustling city that still retains much of its past.

Collected Works of Charlotte Wolff Charlotte Wolff 2021-03-04 Charlotte Wolff (1897-1986) was born in Riesenburg, West Prussia (now Prabuty, Poland) into a middle-class Jewish family. She studied philosophy and then medicine at several German universities, completing her doctorate in Berlin in 1926. Working in various institutions over the next few years, she was also interested in psychotherapy and had a small private medical and psychotherapeutic practice. In 1933 she was forced to leave Germany because of the Nazi regime, and settled for a few years in Paris. As a German refugee she was unable to practice medicine, so she began her research into the correlation between hand traits and personality. In 1936 she went to London to continue her research work and lived there until her death. An active lesbian from an early age, her later research turned to sexology and her writing on lesbianism and bisexuality were influential early works in the field. This is a great opportunity to rediscover her early work, including her first autobiography.
