Lecturing the Atlantic Tom
F. Wright 2017-04-06 In the
early nineteenth century, the
public lecture emerged as one

~~of the Anglo-American world's~~
most important cultural forms.
On both sides of the Atlantic,
audiences and performers
transformed a cultural practice
with origins in the medieval
cloister into an unexpected
flashpoint medium of public
life. In the United States, as
part of the "lyceum movement,"
lecturing became crucial to
literary and political life,
multiple social reform
movements, and the rise of
public intellectualism, offering
speakers from across the
cultural spectrum a platform
from which to promote their
ideas and explain
contemporary life. Lecturing
the Atlantic argues for a new
interpretation of this neglected
institution. It reorients our
understanding of the lyceum by
seeing it as an international
and cross-media phenomenon
patterned by cultural
investment in an "Anglo-
American commons." Tom F.
Wright shows how some of the
mid-century North Atlantic
world's most enduring cultural
figures, such as Frederick
Douglass, William Makepeace

Thackeray, and Ralph Waldo Emerson, as well as fascinating marginal voices such as Lola Montez and John B. Gough, used lecture hall discussions of a transatlantic imaginary to offer powerful commentaries on slavery, progress, comedy, order, tradition, and reform. Crucially, this world was a matter as much of print as performance, since as the book reveals, a remarkable culture of newspaper commentary allowed oratory to resonate far beyond the realm of the lecture hall. Through a series of inventive readings of Anglo-American relations as understood through performance and print re-mediation, Wright connects the transatlantic turn in cultural studies to important recent debates in media theory and public sphere scholarship. *Lecturing the Atlantic* speaks to those interested in the literature and history of Victorian Britain and the early US, to students of performance, communication and rhetoric, and all those seeking a deeper

understanding of nineteenth-century public culture.

Mediated Text: Writing for

Periodicals in the Mid-Nineteenth Century Richard Pearson 2017-11-01 This title

was first published in 2000:

Thackeray's "minor writings" remain caught in a debate about what constitutes "literature" and whether magazine writing and journalism might be construed as such. This debate was present during the inception of the mass periodical press in the 1830s when Thackeray began his career and forms part of the context of, reasoning within, and techniques of Thackeray's work. Throughout his career,

The Showman Of Vanity Fair The Life Of William Makepeace

Thackeray was enmeshed in critical arguments about periodicals, novels, "realism" and commercialism. He was himself both (and neither) journalist and literary artist and was at once a product of and critical of emerging writing practices. This book argues that an understanding of Thackeray's writings for periodicals and the literary and commercial context of these is central to an understanding of his literary achievement.

Focusing principally on the foundational part of his career, from 1833-1847, but relating this to the novels, particularly "Pendennis" and "The Adventures of Philip" and the "Cornhill Magazine" of the 1860s, the book explores Thackeray's ambiguous response to the burgeoning periodical press, and considers his negotiation and critique of the market-place through a variety of publishing media.

Vanity Fair William Makepeace Thackeray 2015 I ran to the side of the ship. Help, help! Murder! I screamed, and my uncle slowly

Thackeray turned to look at me. I did not see any more. Already strong hands were pulling me away. Then something hit my head; I saw a great flash of fire, and fell to the ground . . .' And so begin David Balfour's adventures. He is kidnapped, taken to sea, and meets many dangers. He also meets a friend, Alan Breck. But Alan is in danger himself, on the run from the English army across the wild Highlands of Scotland . . .

Giving Robert H. Bremner 2017-07-28 "According to Greek mythology mankind's first benefactor was the Titan, Prometheus, who gave fire, previously the exclusive possession of the gods, to mortal man." With these words the esteemed scholar Robert Bremner presents the first full-fledged history of attitudes toward charity and

The Showman Of Vanity Fair The Life Of William Makepeace

Thackeray

philanthropy. 'Giving' is a perfect complement to his earlier work *The Discovery of Poverty in the United States*. The word 'philanthropy' has been translated in a variety of ways: as a loving human disposition, loving kindness, love of mankind, charity, fostering mortal man, championing mankind, and helping people. Bremner's book covers all of these meanings in rich detail. Bremner describes the ancient world and classical attitudes toward giving and begging; Middle Ages and early modern times, emphasizing hospitals and patients and donors and attributes of charity; the eighteenth century and the age of benevolence; the nineteenth century and the growth of the concept of public relief and social policy; and a careful multiple chapter review of the twentieth century. Bremner reviews the act of giving in such comparative contexts as London, England and Kasrilevke, Russia with such figures as Thomas Carlyle, Charles Dickens, and Sholem Aleichem, as well as

the more familiar wealthy industrialist/philanthropists, forming part of the narrative. The final chapters bring the story up to date, discussing the relationships of modern philanthropy and organized charity, and the uses of philanthropy in education and the arts. Bremner has an astonishing knowledge of the cultural context and the economic contents of philanthropy. As a result, this volume is intriguing as well as important history, written with lively style and wit. Whether the reader is a professional in the so-called "third stream" or "independent sector," or simply a citizen wondering just what the act of giving and the spirit of receiving is all about, 'Giving' will be compelling reading.

S. S. Praver 2017-12-02 "This study traces the successive stages of Thackeray's contact with the German world and analyses the discourse he developed as a result. The author is concerned with the fiction and criticism of Thackeray's :Paris Sketch Book"" and the impressions related by the cockney

traveller in ""Irish Sketch Book"" and ""Notes of a Journey from Cornhill to Grand Cairo"". Thackeray's own pictorial illustrations of his writings and those by Cruikshank, Doyle and Walker, which he supervised and supplemented, are recognized as an integral part of his German discourse. The study is a chronological one, setting Thackeray's construction of ""German"" and ""the Germans"" against the background of his own development and of the social, industrial, cultural and political history of Britain and its continental neighbours."
