Ultimate House Book Terence Conran

2006-08-01 Three years into the new millennium, Sir Terence Conran has once again reinvented his concept of home design, now a harmonious blur between public and private living with a soupcon of professionalism. The Conran movement (stores and style) began in 1974 with *The House Book* and was updated as *The New House Book* in 1985 and *The Essential House Book* in 1994. The significance of the newly added word home in the title should not be overlooked, as the author has gravitated toward LeCorbusier's 1927 statement:

"Everybody, quite rightly, dreams of sheltering himself in a sure and permanent home of his own." *Ultimate* appeals to this primal notion of belonging, starting with an aspirational, visual introduction before separating ideas into three distinct sections: home life, or the different stages of design, from first house to empty nest; home work, exploring all options for decorating, from paint versus plaster to remodeling versus new construction; and compendium, the nitty-gritty information so necessary to understanding and making design choices. A feat worthy of any bookshelf. Barbara Jacobs Copyright © American Library Association. All rights reserved

Yet handling colour effectively does take both confidence and a degree of expertise. With reference to a wide range of sources, from nature and fashion to street markets and works of art, he reveals how to translate such examples into practical strategies for bringing colour into your home. Packed with fascinating detail, sound advice and a wealth of inspiration, the book is illustrated with engaging contemporary interiors from around the world - homes that display a fresh blend of thoughtful design and individual character. As such examples reveal, using colour successfully is as much about well-judged accents and focal points as it is in the choice of wall colour or floor covering.
