New Orleans After the Promises Kent B.

Germany 2011-08-15 In the 1960s and 1970s, New Orleans experienced one of the greatest transformations in its history. Its people replaced Jim Crow, fought a War on Poverty, and emerged with glittering skyscrapers, professional football, and a building so large it had to be called the Superdome. New Orleans after the Promises looks back at that era to explore how a few thousand locals tried to bring

the Great Society to Dixie. With faith in God and American progress, they believed that they could conquer poverty, confront racism, establish civic order, and expand the economy. At a time when liberalism seemed to be on the wane nationally, black and white citizens in New Orleans cautiously partnered with each other and with the federal government to expand liberalism in the South. As Kent Germany examines how the civil rights, antipoverty, and therapeutic initiatives of the Great Society dovetailed with the struggles of black New Orleanians for full citizenship, he defines an emerging public/private governing apparatus that he calls the "Soft State": a delicate arrangement involving constituencies as varied as old-money civic leaders and Black Power proponents who came together to sort out the meanings of such new federal programs as Community Action, Head Start, and Model Cities. While those diverse groups struggled--violently on occasion--to influence the process of racial inclusion and

the direction of economic growth, they dramatically transformed public life in one of America's oldest cities. While many wonder now what kind of city will emerge after Katrina, New Orleans after the Promises offers a detailed portrait of the complex city that developed after its last epic reconstruction.

The Copycat Effect Loren Coleman 2004-09-14
VIOLENCE BEGETS VIOLENCE BEGETS VIOLENCE... A disturbed student shoots up his classroom -- and suddenly a wave of mass murder is sweeping through our nation's schools. A young child is taken from her home -- and for months afterward child abductions are frantically reported on an almost daily basis. A surfer is attacked by a shark -- and the public spends an entire summer fearing an onslaught of the deadly underwater predators. Why do the terrible events we see in the media always seem to lead to more of the same? Noted author and cultural behaviorist Loren Coleman explores

how the media's over-saturated coverage of murders, suicides, and deadly tragedies makes an impact on our society. This is The Copycat Effect -- the phenomenon through which violent events spawn violence of the same type. From recognizing the emerging patterns of the Copycat Effect, to how we can deal with and counteract its consequences as individuals and as a culture, Loren Coleman has uncovered a tragic flaw of the information age -- a flaw which must be corrected before the next ripples of violence spread.

The New Orleans Sniper Frances Chaput Waksler 2010-10-15 On January 7, 1973, shots were fired from Howard Johnson's Motel in New Orleans, LA. Six were killed, ten wounded, and the debate began about the number of snipers. Waksler traces the course of this event and analyzes claims and counterclaims made in the search to explain it.

Nightmare in Wichita Robert Beattie 2005-03-21 Lawyer Robert Beattie assisted the

police during the thirty-year search for the BTK Strangler—and was instrumental in the long-awaited arrest of a suspect. Here he shares his inside knowledge of the case, from its terrifying beginnings to its most up-to-date developments. In 1974 a killer embarked on a murder spree in Wichita, Kansas, counting among his victims, men, women, and children. Longing to join the ranks of the Hillside Stranglers and Black Dahlia killer, the elusive sex murderer taunted authorities and the media with clues, puzzles, and obscene letters. Then in 1979, he vanished. The killings appeared to have stopped, and one of the longest and most baffling manhunts in the annals of crime came to a dead end. But in 2004, a letter—and a grisly clue—arrived at a Wichita paper. And with it, a terrifying implication: BTK was back. The biggest shock of all came when they made their arrest. Now, from his unique vantage point, Robert Beattie tells the complete story of one of the most intriguing and horrifying serial murder cases in American history.

Subaltern Citizens and their Histories

Gyanendra Pandey 2009-09-10 Deploying the provocative idea of the 'subaltern citizen', this book raises fundamental questions about subalternity and difference, dominance and subordination, in India and the United States. In contrast to other writings on subordinated and marginalized people, the essays presented here devote deliberate attention to diverse locations of subalternity: in the conditions and histories of slaves, dalits, peasants, illegal immigrants, homosexuals, schoolteachers, women of noble lineage; in the Third World and the First; in pre-colonial, colonial and postcolonial times. With contributions from a diverse group of distinguished scholars, the anthology explores issues of gender and sexuality, migration, race, caste and class, education and law, culture and politics. The very juxtaposition of different bodies of scholarship serves to challenge common perceptions of inherited histories - claims to American and Indian 'exceptionalism' -

and promotes a new awareness, not only of shared histories and shared struggles in the making of the modern world, but of particularities and facets of our different histories and societal conditions that are assumed as being well understood, and hence often taken for granted. *Subaltern Citizens and Their Histories* will be essential reading for scholars of colonial, postcolonial and subaltern studies, American studies, US and South Asian social science and history.

New Orleans City Guide Works Progress Administration 2011-08-15 In 1938, under the direction of novelist and historian Lyle Saxon, The Federal Writers' Project of the Works Progress Administration produced this delightfully detailed portrait of New Orleans. Containing recipes, photographs and folklore, it is consistently hailed as one of the best books produced about the city. Remarkably, many of the sites and attractions the WPA chronicled in 1938 are still around today.

The Challenge of Blackness Derrick E. White 2011-09-01 The Challenge of Blackness examines the history and legacy of the Institute of the Black World (IBW), one of the most important Black Freedom Struggle organizations to emerge in the aftermath of the assassination of Dr. Martin Luther King Jr. A think tank based in Atlanta, the IBW sought to answer King's question "Where do we go from here?" Its solution was to organize a broad array of leading Black activists, scholars, and intellectuals to find ways to combine the emerging academic discipline of Black Studies with the Black political agenda. Throughout the 1970s, debates over race and class in the United States grew increasingly hostile, and the IBW's approach was ultimately unable to challenge the growing conservatism. By using the IBW as the lens through which to view these turbulent years, Derrick White provides an exciting new interpretation of the immediate post-civil rights years in America.

A Terrible Thunder Peter Hernon 2005-02-08 On New Year's Eve in New Orleans, 1972, Mark James Essex began one of the most violent and deadly sniper attacks on policemen that any American city had ever seen. It was yet another tragic journey down the road of hatred, and before it ended one week later, hundreds of heavily armed police and a Marine Corps assault helicopter would be called to a burning downtown hotel to battle phantom gunmen who refused to surrender or to be killed.

Sunbelt Cities Richard M. Bernard 2014-06-23 Between 1940 and 1980, the Sunbelt region of the United States grew in population by 112 percent, while the older, graying Northeast and Midwest together grew by only 42 percent. Phoenix expanded by an astonishing 1,138 percent. San Diego, Houston, Dallas-Fort Worth, Tampa, Miami, and Atlanta quadrupled in size. Even a Sunbelt laggard such as New Orleans more than doubled its population. Sunbelt Cities brings together a collection of outstanding

original essays on the growth and late-twentieth-century political development of the major metropolitan areas below the thirty-seventh parallel. The cities surveyed are Albuquerque, Atlanta, Dallas-Fort Worth, Houston, Los Angeles, Miami, New Orleans, Oklahoma City, Phoenix, San Antonio, San Diego, and Tampa. Each author examines the economic and social causes of postwar population growth in the city under consideration and the resulting changes in its political climate. Major causes of growth such as changing economic conditions, industrial recruitment, lifestyle preferences, and climate are discussed. Particular attention is paid to the role of the federal government, especially the Pentagon, in encouraging development in the Sunbelt. Describing characteristic political developments of many of these cities, the authors note shifting political alliances, the ouster of machines and business elites from political power, and the rise of minority and neighborhood groups in local politics. Sunbelt

Cities is the first full-scale scholarly examination of the region popularly conceived as the Sunbelt. As one of the first works to thoroughly examine a wide range of cities within the region, it has served as a standard reference on the area for some time.

Seems Like Murder Here Adam Gussow
2010-03-15 Winner of the 2004 C. Hugh Holman Award from the Society for the Study of Southern Literature. Seems Like Murder Here offers a revealing new account of the blues tradition. Far from mere laments about lost loves and hard times, the blues emerge in this provocative study as vital responses to spectacle lynchings and the violent realities of African American life in the Jim Crow South. With brilliant interpretations of both classic songs and literary works, from the autobiographies of W. C. Handy, David Honeyboy Edwards, and B. B. King to the poetry of Langston Hughes and the novels of Zora Neale Hurston, Seems Like Murder Here will transform our understanding of the blues

and its enduring power.

The Age of Lone Wolf Terrorism Mark S. Hamm
2017-05-09 The lethality of lone-wolf terrorism has reached an all-time high in the United States. Isolated individuals using firearms with high-capacity magazines are committing brutally efficient killings with the aim of terrorizing others, yet there is little consensus on what connects these crimes and the motivations behind them. In *The Age of Lone Wolf Terrorism*, terrorism experts Mark S. Hamm and Ramón Spaaij combine criminological theory with empirical and ethnographic research to map the pathways of lone-wolf radicalization, helping with the identification of suspected behaviors and recognizing patterns of indoctrination. Reviewing comprehensive data on these actors, including more than two hundred terrorist incidents, Hamm and Spaaij find that a combination of personal and political grievances lead lone wolves to befriend online sympathizers—whether jihadists, white

supremacists, or other antigovernment extremists—and then announce their intent to commit terror when triggered. Hamm and Spaaij carefully distinguish between lone wolves and individuals radicalized within a group dynamic. This important difference is what makes this book such a significant manual for professionals seeking richer insight into the transformation of alienated individuals into armed warriors. Hamm and Spaaij conclude with an analysis of recent FBI sting operations designed to prevent lone-wolf terrorism in the United States, describing who gets targeted, strategies for luring suspects, and the ethics of arresting and prosecuting citizens.

Louisiana History Florence M. Jumonville
2002-08-30 From the accounts of 18th-century travelers to the interpretations of 21st-century historians, Jumonville lists more than 6,800 books, chapters, articles, theses, dissertations, and government documents that describe the rich history of America's 18th state. Here are

references to sources on the Louisiana Purchase, the Battle of New Orleans, Carnival, and Cajuns. Less-explored topics such as the rebellion of 1768, the changing roles of women, and civic development are also covered. It is a sweeping guide to the publications that best illuminate the land, the people, and the multifaceted history of the Pelican State. Arranged according to discipline and time period, chapters cover such topics as the environment, the Civil War and Reconstruction, social and cultural history, the people of Louisiana, local, parish, and sectional histories, and New Orleans. It also lists major historical sites and repositories of primary materials. As the only comprehensive bibliography of the secondary sources about the state, *Louisiana History* is an invaluable resource for scholars and researchers. New Orleans T. R. Johnson 2023-03-02 The neighborhoods of New Orleans have given rise to an extraordinary outpouring of important writing. Over the last century and a half or so,

these stories and songs have given the city its singular place in the human imagination. This book leads the reader along five thoroughfares that define these different parts of town - Royal, St. Claude, Esplanade, Basin, and St. Charles - to explore how the writers who have lived around them have responded in closely related ways to the environments they share. On the outskirts of New Orleans today, the city's precarious relation to its watery surroundings and the vexed legacies of race loom especially large. But the city's literature shows us that these themes have been near to hand for New Orleans writers for several generations, whether reflected through questions of masquerade, dreams of escape, the innocence of children, or the power of money or of violence or of memory. **Black Rage in New Orleans** Leonard N. Moore 2010-04-15 In *Black Rage in New Orleans*, Leonard N. Moore traces the shocking history of police corruption in the Crescent City from World War II to Hurricane Katrina and the

concurrent rise of a large and energized black opposition to it. In New Orleans, crime, drug abuse, and murder were commonplace, and an underpaid, inadequately staffed, and poorly trained police force frequently resorted to brutality against African Americans. Endemic corruption among police officers increased as the city's crime rate soared, generating anger and frustration among New Orleans's black community. Rather than remain passive, African Americans in the city formed antibrutality organizations, staged marches, held sit-ins, waged boycotts, vocalized their concerns at city council meetings, and demanded equitable treatment. Moore explores a staggering array of NOPD abuses -- police homicides, sexual violence against women, racial profiling, and complicity in drug deals, prostitution rings, burglaries, protection schemes, and gun smuggling -- and the increasingly vociferous calls for reform by the city's black community. Documenting the police harassment of civil

rights workers in the 1950s and 1960s, Moore then examines the aggressive policing techniques of the 1970s, and the attempts of Ernest "Dutch" Morial -- the first black mayor of New Orleans -- to reform the force in the late 1970s and early 1980s. Even when the department hired more African American officers as part of that reform effort, Moore reveals, the corruption and brutality continued unabated in the late 1980s and early 1990s. Dramatic changes in departmental leadership, together with aid from federal grants, finally helped professionalize the force and achieved long-sought improvements within the New Orleans Police Department. Community policing practices, increased training, better pay, and a raft of other reform measures for a time seemed to signal real change in the department. The book's epilogue, "Policing Katrina," however, looks at how the NOPD's ineffectiveness compromised its ability to handle the greatest natural disaster in American history, suggesting

that the fruits of reform may have been more temporary than lasting. The first book-length study of police brutality and African American protest in a major American city, *Black Rage in New Orleans* will prove essential for anyone interested in race relations in America's urban centers.

Guinea Pig Zero Robert Helms 2002 From first person accounts of pharmaceutical studies gone bad to intricate medical histories, *Guinea Pig Zero* provides a fascinating look at the people who sell their bodies to science. While the book provides advice to present-day research subjects (by rating research clinics), the book also provides context by investigating the history and ethics behind this important, but little-known medical industry.

Part III covers assassinations and executions and a final part presents conclusions.

Serial Murder Elliott Leyton 2018-04-27 This title was first published in 2000: Few areas of criminal activity have sustained such widely held attention as serial murder. This volume charts the complete progress of academic work in this field, detailing the development from the early domination of psychiatric enquiries to the later proliferation of criminal justice studies into the darkest of human behaviours.

The Up Stairs Lounge Arson Clayton Delery-Edwards 2014-06-04 On June 24, 1973, a fire in a New Orleans gay bar killed 32 people. This still stands as the deadliest fire in the city's history.

Though arson was suspected, and though the police identified a likely culprit, no arrest was ever made. Additionally, government and religious leaders who normally would have provided moral leadership at a time of crisis were either silent or were openly disdainful of the dead, most of whom were gay men. Based upon review of hundreds of primary and secondary sources, including contemporary news accounts, interviews with former patrons of the lounge, and the extensive documentary trail left behind by the criminal investigations, *The Up Stairs Lounge Arson* tells the story of who used to go to this bar, what happened on the day of the fire, what course the investigations took, why an arrest was never made, and what the lasting effects of the fire have been.

Franchising Dreams Peter M. Birkeland 2004-04 Franchises have become an ever-present feature of American life, both in our

landscapes and our economics. Peter M. Birkeland worked for three years in the front-line operations of franchise units for three companies, met with CEOs and executives, and attended countless trade shows, seminars, and expositions. Through this extensive fieldwork Birkeland not only discovered what makes franchisees succeed or fail, he uncovered the difficulties in running a business according to someone else's system and values. Bearing witness to a market flooded with fierce competitors and dependent on the inscrutable whims of consumers, he revealed the numerous challenges that franchisees face in making their businesses succeed. Mayor Victor H. Schiro Edward F. Haas
2014-07-17 During the turbulent 1960s, the city of New Orleans experienced unprecedented economic growth, racial tensions and desegregation, political realignment, and natural disaster. Presiding over this period of sweeping change was Mayor Victor H. Schiro (1904-1992), an unassuming, moderate Democrat who sought the best for his city and adhered strictly to the rule of law in a region where laissez faire was standard practice and hardened defiance was a social norm. Schiro sought fairness for all and navigated a gauntlet of conflicting pressures. African Americans sought their civil rights, and whites resisted the new racial environment. Despite vigorous opposition and an unfriendly

press, Schiro won election twice. Under his direction, the city experienced numerous municipal reforms, the inclusion of African Americans in executive positions, and the broad extension of city services. The mayor, a businessman, recruited new corporations for his city, heralded the development of New Orleans East, and brought major professional sports to the Crescent City. He also initiated the plans for the construction of the Superdome. At the height of this activity, Hurricane Betsy devastated New Orleans. In response, Schiro coordinated with the federal government to initiate rescue and recovery at a rapid pace. In the aftermath, he lobbied Congress for relief funds that set the precedent for National Federal flood insurance.

[The Ballad of Robert Charles](#) K. Stephen Prince
2021-02-10 For a brief moment in the summer of 1900, Robert Charles was arguably the most infamous black man in the United States. After an altercation with police on a New Orleans

street, Charles killed two police officers and fled. During a manhunt that extended for days, violent white mobs roamed the city, assaulting African Americans and killing at least half a dozen. When authorities located Charles, he held off a crowd of thousands for hours before being shot to death. The notorious episode was reported nationwide; years later, fabled jazz pianist Jelly Roll Morton recalled memorializing Charles in song. Yet today, Charles is almost entirely invisible in the traditional historical record. So who was Robert Charles, really? An outlaw? A black freedom fighter? And how can we reconstruct his story? In this fascinating work, K. Stephen Prince sheds fresh light on both the history of the Robert Charles riots and the practice of history-writing itself. He reveals evidence of intentional erasures, both in the ways the riot and its aftermath were chronicled and in the ways stories were silenced or purposefully obscured. But Prince also excavates long-hidden facts from the narratives passed

down by white and black New Orleanians over more than a century. In so doing, he probes the possibilities and limitations of the historical imagination.

8.4 Peter Hernon 2012-08-20 The New Madrid Seismic Zone is 140 miles, stretching across five states. In 1811 and 1812 enormous earthquakes erupted along this zone, effecting 24 states, creating lakes in Tennessee and causing the Mississippi River to run backward. In Peter Hernon's 8.4 the New Madrid awakens, threatening the country with systematic collapse in a chillingly plausible case of history repeating itself. It's up to a team of scientists to stop the impending destruction, working against nature, time and a horrifying, human-made conspiracy.

Homicide, a Bibliography of Over 4,500 Items Bal K. Jerath 1982

The Lampshade Mark Jacobson 2010-09-14 Few growing up in the aftermath of World War II will ever forget the horrifying reports that Nazi concentration camp doctors had removed the

skin of prisoners to makes common, everyday lampshades. In *The Lampshade*, bestselling journalist Mark Jacobson tells the story of how he came into possession of one of these awful objects, and of his search to establish the origin, and larger meaning, of what can only be described as an icon of terror. Jacobson's mind-bending historical, moral, and philosophical journey into the recent past and his own soul begins in Hurricane Katrina-ravaged New Orleans. It is only months after the storm, with America's most romantic city still in tatters, when Skip Henderson, an old friend of Jacobson's, purchases an item at a rummage sale: a very strange looking and oddly textured lampshade. When he asks what it's made of, the seller, a man covered with jailhouse tattoos, replies, "That's made from the skin of Jews." The price: \$35. A few days later, Henderson sends the lampshade to Jacobson, saying, "You're the journalist, you find out what it is." The lampshade couldn't possibly be real, could it?

But it is. DNA analysis proves it. This revelation sends Jacobson halfway around the world, to Yad Vashem in Jerusalem and to the Buchenwald concentration camp in Germany, where the lampshades were supposedly made on the order of the infamous "Bitch of Buchenwald," Ilse Koch. From the time he grew up in Queens, New York, in the 1950s, Jacobson has heard stories about the human skin lampshade and knew it to be the ultimate symbol of Nazi cruelty. Now he has one of these things in his house with a DNA report to prove it, and almost everything he finds out about it is contradictory, mysterious, shot through with legend and specious information. Through interviews with forensic experts, famous Holocaust scholars (and deniers), Buchenwald survivors and liberators, and New Orleans thieves and cops, Jacobson gradually comes to see the lampshade as a ghostly illuminator of his own existential status as a Jew, and to understand exactly what that means in the context of human responsibility.

One question looms as his search goes on: what to do with the lampshade—this unsettling thing that used to be someone? It is a difficult dilemma to be sure, but far from the last one, since once a lampshade of human skin enters your life, it is very, very hard to forget.

From Edwin Edwards' outlandish antics to Chicken King Al Copeland's romances, this is a collection of stories about 10 of New Orleans' most memorable high-profile litigants. Each chapter features a concise history of one of the colorful

personalities whose trials and tribulations have captured attention for decades. Featured characters include, Chinese Cowboy Harry Lee, Singing DA Harry Connick Sr., Larger-Than-Life Darleen Jacobs, State Senator Michael O'Keefe, NOPD officer Antoine Saacks, and TV reporter Richard Angelico, among others.

Hunting Humans Elliott Leyton 2011-10-05 In this classic study, Elliott Leyton challenges the conventional idea of serial murderers as deranged madmen. He explores the twisted - but comprehensible - motives of a half-dozen notorious killers: Edmund Emil Kemper, Theodore Robert Bundy, Albert DeSalvo ("The Boston Strangler"), David Richard Berkowitz ("Son of Sam"), Mark James Robert Essex, and Charles Starkweather. In the process of describing their crimes Leyton exposes the cold rationality that underlies their apparent pointlessness. The result is startling: a revelatory text on a deeply troubling topic.
