Suburban Life, the Countryside Magazine 1906
Judge Bao and the Rule of Law
Wilt L. Idema 2010 Pure, orthodox and incorruptible, Judge Bao has been serving as the preeminent embodiment of

justice in China for almost a thousand years, so much so his court case have been adapted as stories, novels and plays over the centuries. Now, for the very first time a series of eight ballad-stories on Judge Bao, dating from the period 1250ndash;1450, are offered in a complete and annotated translation. These texts will provide the reader a complete

reflection of the legend of Judge Bao in its earliest phase of development, with an extended introduction placing the ballad-stories in context with the development of the Judge Bao legend. These ballad-stories, in contrast to past plays dating from the same period, present abuse of power and corruption as endemic in the courts and bureaucratic service, and show Judge Bao imposing the rule of law even on the emperor. The Suburban Wild Peter Friederici 1999 Set in the North Shore suburbs of Chicago, amid traffic, pollution, and ever-increasing neighborhoods of houses and apartments, these meditative personal essays explore the importance of our connection with the natural world, history, and memory. The Suburban Wild follows the seasons from one spring to the next, celebrating the natural miracles we frequently miss and revealing a territory less tamed than we might imagine. These essays offer the sights and sounds found on the

outskirts of cities, just perceptible amid the clutter and din of crowded streets and sidewalks. From the constant humming of cicadas on summer evenings and the seasonal migrations of ducks to the myriad hues in a green heron's feathers, Peter Friederici reveals a complex place in which wild geese and morning commuters share the same habitat. The essays honor our lost creatures and places, emphasizing the importance of history, memory, and consciousness. The author describes the varying shades and textures of a clay bluff near his childhood home, relating the gradual erosion and recession of this Ice Age-old landform. A description of spirogyra algae blooms on Lake Michigan merges with a discussion of the lake's once abundant native mussels and the imported zebra mussels that are threatening their existence. From recorded memories, Friederici re-creates the sight of the now extinct passenger pigeon. Though awareness of the destruction of

the landscape and its creatures is never far from the wonders presented here, *The Suburban Wild* connects the tracks of wildlife and traces of our changing landscape with our own path through the world. The book explores how history--whether natural or cultural, collective or personal--shapes a landscape, and how human memory shapes that history. At heart, it seeks to forge a link between the world outside our windows and the one inside.

Creativity from Suburban

Nowheres Ilja Van Damme
2023-07-26 Looking at suburbs as places of creativity gives rise to novel and thought-provoking narratives that typically run counter to the idea that suburbs are sites of "ordinary," "mundane," and "everyday" practices. Far from being geographies of "nowhere" - dull, materialistic, and monotone - suburbs are unpacked as being heterogeneous and historically layered places of living, work, and creation. Situating creativity in place and time, *Creativity from Suburban*

Nowheres displaces mainstream understandings of creativity and widespread stereotypes commonly associated with the suburbs. Contributors explore the particular forms of creativity that suburbs elicit both in the process of their making, materialization, and community construction, and in the myriad ways in which suburbs are inhabited and experienced. They highlight accounts of suburbs as places that give people the space and latitude to shape individual and collective identities through creative practices at odds with mainstream culture, and often remote from the classic agglomeration "assets" associated with inner cities. Anchored in historical and geographical research, this volume highlights how and in what forms creativity should be understood in the suburbs, why and when creativity can be found, and how the notion of suburban creativity overthrows ingrained and dominant normative viewpoints. Rather than seeing creativity arise

despite its suburban location, Creativity from Suburban Nowheres illuminates the emancipatory potential of suburbs for creativity.

resource explores the rise of religious violence, hate crime,

and persecution around the

world. Religious violence and

persecution have been growing

steadily both within the United

States and around the world.

Drawing on the expertise of a

wide range of scholars, this

current and comprehensive

reference helps readers

understand the persecution of

members of particular faiths as

well as violence committed by

members of those faiths. In

doing so, it promotes a greater

understanding of the role of

religion in global politics,

domestic and international terrorism, and religious

bigotry. The book contains

sections on particular religious

traditions from around the

world. Each section begins

with an overview essay

surveying violence related to

that particular religion,

whether committed by or

against members of that faith.

Reference entries in each

section then provide objective,

fundamental information about

particular topics related to

Circling Home John Lane

2011-08-15 After many years of

limited commitments to people

or places, writer and naturalist

John Lane married in his late forties and settled down in his hometown of Spartanburg, in the South Carolina piedmont. He, his wife, and two stepsons built a sustainable home in the woods near Lawson's Fork Creek. Soon after settling in, Lane pinpointed his location on a topographical map. Centering an old, chipped saucer over his home, he traced a circle one mile in radius and set out to explore the area. What follows from that simple act is a chronicle of Lane's deepening knowledge of the place where he'll likely finish out his life. An accomplished hiker and paddler, Lane discovers, within a mile of his home, a variety of coexistent landscapes—ancient and modern, natural and manmade. There is, of course, the creek with its granite shoals, floodplain, and surrounding woods. The circle also encompasses an eight-thousand-year-old cache of Native American artifacts, graves of a dozen British soldiers killed in 1780, an eighteenth-century ironworks site, remnants of two cotton

plantations, a hundred-year-old country club, a sewer plant, and a smattering of mid- to late twentieth-century subdivisions. Lane's explorations intensify his bonds to family, friends, and colleagues as they sharpen his sense of place. By looking more deeply at what lies close to home, both the ordinary and the remarkable, Lane shows us how whole new worlds can open up.

*Roath, Splott and Adamsdown:
One Thousand Years of History*

Jeff Childs 2012-01-31 Over 250 old photographs, many published for the first time, appear in this new collection covering the districts of Roath, Splott and Adamsdown. This area, along with Penylan, Tremorfa and part of Cathays, once had a collective unity as the ecclesiastical parish of Roath created in the late sixteenth century. Roath as an historical entity is much older, however. Reputed to be pre-Norman in origin, in its time it has served as a manor, parish and village as well as a latter-day Cardiff suburb. Although earlier centuries are not

neglected, particular focus is given to the period 1890 to 1950, which saw the emergence and maturity of these communities so familiar to present-day Cardiffians. Scenes of streetlife, work, worship and leisure are captured in a wide variety of often striking and atmospheric images. These are amplified by the fascinating historical detail in the captions providing the reader with a vivid appreciation of the richly significant past of this part of Cardiff.

Cultures of Energy Sarah Strauss 2016-06-16 This path-breaking volume explores cultures of energy, the underlying but under-appreciated dimensions of both crisis and innovation in resource use around the globe. Theoretical chapters situate pressing energy issues in larger conceptual frames, and ethnographic case studies reveal energy as it is imagined, used, and contested in a variety of cultural contexts. Contributors address issues including the connection between resource flows and social relationships in energy systems; cultural transformation and notions of progress and collapse; the blurring of technology and magic; social tensions that accompany energy contraction; and sociocultural changes required in affluent societies to reduce dependence on fossil fuels. Each of five thematic sections concludes with an integrative and provocative

conversation among the authors. The volume is an ideal tool for teaching unique, contemporary, and comparative perspectives on social theories of science and technology in undergraduate and graduate courses.

Me, an Old Pilot, and a Three-Legged Dog Rocky Morrisette 2013-04-09 Summer Rose Watson is a fifteen-year-old army brat whose father is on his third deployment to Afghanistan. Once a straight-A student and youth leader in her church, Summer Rose's grades begin to slip as she sinks into a depression. She stops attending church and is even caught sneaking out of the house. The only thing that keeps Summer Rose's rebellion in check is her flying lessons. But even that is taken away when her plane crashes. In desperation, her mother sends Summer Rose to Palmer, Alaska, to stay with her grandfather. She worries she'll be stuck out in the wilderness, banished from malls, movies, MTV, and even cell phone service. But once there, she

finds things aren't as bad as she feared. Grandpa Gus restarts her flying lessons, and she gets her driver's license on her sixteenth birthday. She makes a new friend, Esperanza, and she falls for the captain of the JV football team at Colony High. But the Greatland can be a brutal place. Summer Rose is forced to handle some very difficult and dangerous adult situations. She witnesses death for the first time and has her own close encounter. What's more, she suspects something is wrong with Grandpa Gus. Whether you are a young woman or man and ever wanted to fly, ever wanted to experience Alaska, ever thought the world wasn't fair, you'll like this book. It has everything from first kisses to volcanic eruptions. And be careful; you just might learn something.

has seen a dramatic reversal in living patterns, with a majority of Americans now residing in suburbs. This mass emigration from cities is one of the most fundamental social and geographical transformations in recent US history.

Suburbanization has not only produced a distinct physical environment—it has become a major defining force in the construction of twentieth-century American culture. Employing over 200 primary sources, illustrations, and critical essays, *The Suburb Reader* documents the rise of North American suburbanization from the 1700s through the present day. Through thematically organized chapters it explores multiple facets of suburbia's creation and addresses its indelible impact on the shaping of gender and family ideologies, politics, race relations, technology, design, and public policy. Becky Nicolaides' and Andrew Wiese's concise commentaries introduce the selections and contextualize the major themes

of each chapter. Distinctive in its integration of multiple perspectives on the evolution of the suburban landscape, *The Suburb Reader* pays particular attention to the long, complex experiences of African Americans, immigrants, and working people in suburbia. Encompassing an impressive breadth of chronology and themes, *The Suburb Reader* is a landmark collection of the best works on the rise of this modern social phenomenon.

The Vegetarian Myth Lierre Keith 2009-05-01 We've been told that a vegetarian diet can feed the hungry, honor the animals, and save the planet. Lierre Keith believed in that plant-based diet and spent twenty years as a vegan. But in *The Vegetarian Myth*, she argues that we've been led astray--not by our longings for a just and sustainable world, but by our ignorance. The truth is that agriculture is a relentless assault against the planet, and more of the same won't save us. In service to annual grains, humans have devastated prairies and forests, driven countless species extinct, altered the climate, and destroyed the topsoil--the basis of life itself. Keith argues that if we are to save this planet, our food must be an act of profound and abiding repair: it must come from inside living

communities, not be imposed across them. Part memoir, part nutritional primer, and part political manifesto, *The Vegetarian Myth* will challenge everything you thought you knew about food politics.

Death by Suburb Dave L. Goetz 2007-02-06 A great number of seekers find themselves in the seemingly unreal world of the suburbs. They read spirituality books but find themselves in carpools and coaching soccer, not in monasteries. Dave Goetz, a former pastor, shows that the suburbs are a real world, but a spiritually corrosive one. The land of SUVs and soccer leagues can truly be toxic to the soul. Suburbanites need to understand how the environment affects them and what spiritual disciplines are needed for their faith to survive and thrive. Goetz identifies eight toxins in the suburban life, such as hyper-competition and the "transactional" friendship, and suggests eight corresponding disciplines to keep the spiritual life authentic. Goetz weaves

sociology studies, his own experiences, current events, wisdom of the spiritual masters, and a little humor to equip spiritual suburbanites for how to relate to God amidst Starbucks, strip-malls, and perfect lawns.

Class, Culture and Suburban Anxieties in the Victorian Era
Lara Baker Whelan 2011-12-20 In this study, Whelan demonstrates the way in which

representations of the Victorian suburb in mid- to late-nineteenth century British writing occasioned a literary sub-genre unique to this period—that attempted to reassure readers that the suburb was a place where outsiders could be controlled and where middle-class values could be enforced. In particular, Whelan draws attention to the discourse of the suburb as a space of cultural contention in an attempt to illuminate a facet of class history that has often been ignored, overgeneralized, or misunderstood. At the same time, she rec.
