

# Searching For The Invisible Man Slaves And Plantation Life In Jamaica

Whispering the Secrets of Language: An Psychological Journey through **Searching For The Invisible Man Slaves And Plantation Life In Jamaica**

In a digitally-driven earth wherever screens reign supreme and immediate conversation drowns out the subtleties of language, the profound secrets and psychological nuances concealed within words frequently get unheard. Yet, set within the pages of **Searching For The Invisible Man Slaves And Plantation Life In Jamaica** a charming literary value blinking with raw thoughts, lies an extraordinary journey waiting to be undertaken. Written by a skilled wordsmith, that enchanting opus encourages readers on an introspective journey, delicately unraveling the veiled truths and profound influence resonating within ab muscles cloth of each and every word. Within the psychological depths of the poignant review, we shall embark upon a genuine exploration of the book is key styles, dissect their charming publishing style, and fail to the strong resonance it evokes serious within the recesses of readers hearts.

*Henry Goulburn, 1784-1856* Brian Jenkins

1996-03-14 Between 1812 and 1821 Goulburn worked in the War and Colonial Office, where he

effectively administered Britain's far-flung possessions. Appointed chief secretary for Ireland in 1821 -- a Protestant to offset a "Catholic" viceroy -- Goulburn was at the heart of the final rearguard action by the opponents of Catholic emancipation. As chancellor of the exchequer for the Duke of Wellington (1828-30) and Sir Robert Peel (1841-46) he participated in such momentous decisions as Catholic emancipation and the repeal of the Corn Laws. An opponent of parliamentary reform, he worked closely with Peel, his lifelong friend, to build the Conservative Party and served as a parliamentary champion of the Established Church. Jenkins examines the conservative values Goulburn held, and the moral dilemma of an essentially good man who depended on the institution of slavery for his private income. A modest man and a loyal lieutenant, Goulburn himself allowed that he had been content to walk in the shadow of political giants. This self-effacement helps account for the lack of wide

recognition generally given him but does not detract from his significant contribution to British history. Henry Goulburn accords a remarkable politician his rightful place. *Converging Worlds* Louise A. Breen 2013-06-17 Providing a survey of colonial American history both regionally broad and "Atlantic" in coverage, *Converging Worlds* presents the most recent research in an accessible manner for undergraduate students. With chapters written by top-notch scholars, *Converging Worlds* is unique in providing not only a comprehensive chronological approach to colonial history with attention to thematic details, but a window into the relevant historiography. Each historian also selected several documents to accompany their chapter, found in the companion primary source reader. *Converging Worlds: Communities and Cultures in Colonial America* includes: timelines tailored for every chapter chapter summaries discussion questions lists of further reading, introducing students to specialist literature fifty

illustrations. Key topics discussed include: French, Spanish, and Native American experiences regional areas such as the Midwest and Southwest religion including missions, witchcraft, and Protestants the experience of women and families. With its synthesis of both broad time periods and specific themes, *Converging Worlds* is ideal for students of the colonial period, and provides a fascinating glimpse into the diverse foundations of America. For additional information and classroom resources please visit the *Converging Worlds* companion website at [www.routledge.com/textbooks/9780415964999](http://www.routledge.com/textbooks/9780415964999). *The Black History Truth - Jamaica* Pamela Gayle 2022-07-07 Reviewed by Astrid Lustulin for Readers' Favourite: It is time to learn the stories of some nations in a more equitable way - not from the point of view of the conquerors but of the oppressed. This is why books like *The Black History Truth: Jamaica* by Pamela Gayle arouse great interest in a conscious reader. This book

tells the story of 'The Sharpest Thorn in Britain's Caribbean Colonies,' focusing on the 16th to 19th centuries. Through extensive use of sources and images, Gayle sheds light on the injustices perpetrated by the British and analyses the stigmatization of Eurocentric historiography, which portrayed unfavourable behaviours and customs of groups of people it could not understand. Although the subject is complex, this book is clear and precise. Gayle tackles so many topics that she arouses the admiration of readers with her profound knowledge of Jamaica. She is very direct when she blames the British, but the evidence she brings is overwhelming. In *The Black History Truth: Jamaica*, you will not only find descriptions of struggles and injustices but also valuable information on local heroes and heroines, such as Nana Yaa Asantewaa and Queen Nanny, as well as customs that Europeans have misunderstood. After reading this book, readers will understand why Jamaica was actually (as the

subtitle describes it) "the sharpest thorn in Britain's Caribbean Colonies." I recommend this book to all those who want to see the history of humanity from a new perspective.

**Plantation Slavery in the Sokoto Caliphate**

Mohammed Bashir Salau 2018 A work of synthesis on plantation slavery in nineteenth century Sokoto caliphate, engaging with major debates on internal African slavery, on the meaning of the term "plantation," and on comparative slavery

Critical Readings on Global Slavery Damian Alan Pargas 2017-12-05 Critical Readings on Global Slavery offers students and researchers a rich collection of previously published works by some of the most preeminent scholars of slavery in various regions and time periods, from antiquity to the present day.

**Slave Populations of the British Caribbean, 1807-1834** B. W. Higman 1995 Reprint of work that originally appeared in 1984. Excellent and thorough treatment of major demographic

aspects of British Caribbean slavery from abolition of slave trade to slave emancipation. Draws heavily on extensive data available from slave registration returns for various islands to provide comparative perspective of nature of slave life. Excellent tables and figures. Essential for serious scholars of the region. -Handbook of Latin American Studies, v. 58

Women and Slavery: The modern Atlantic Gwyn Campbell 2007 The particular experience of enslaved women, across different cultures and many different eras is the focus of this work.

**Cultivation and Culture** Harry C Black Professor of History Philip D Morgan 1993 So central was labor in the lives of African-American slaves that it has often been taken for granted, with little attention given to the type of work that slaves did and the circumstances surrounding it. Cultivation and Culture brings together leading scholars of slavery- historians, anthropologists, and sociologists- to explore when, where, and how slaves labored in growing

the New World's great staples and how this work shaped the institution of slavery and the lives of African-American slaves. The authors focus on the interrelationships between the demands of particular crops, the organization of labor, the nature of the labor force, and the character of agricultural technology. They show the full complexity of the institution of chattel bondage in the New World and suggest why and how slavery varied from place to place and time to time.

*Archaeologies of Slavery and Freedom in the Caribbean* Lynsey A. Bates 2018-09-12

Caribbean plantations and the forces that shaped them--slavery, sugar, capitalism, and the tropical, sometimes deadly environment--have been studied extensively. This volume brings together alternate stories of sites that fall outside the large cash-crop estates. Employing innovative research tools and integrating data from Dominica, St. Lucia, the Dominican Republic, Jamaica, Barbados, Nevis, Montserrat,

and the British Virgin Islands, the contributors investigate the oft-overlooked interstitial spaces where enslaved Africans sought to maintain their own identities inside and outside the fixed borders of colonialism. Despite grueling work regimes and social and economic restrictions, people held in bondage carved out places of their own at the margins of slavery's reach. These essays reveal a complex world within and between sprawling plantations--a world of caves, gullies, provision grounds, field houses, fields, and the areas beyond them, where the enslaved networked, interacted, and exchanged goods and information. The volume also explores the lives of poor whites, Afro-descendant members of military garrisons, and free people of color, demonstrating that binary models of black slaves and white planters do not fully encompass the diversity of Caribbean identities before and after emancipation. Together, the analyses of marginal spaces and postemancipation communities provide a more nuanced

understanding of the experiences of those who lived in the historic Caribbean, and who created, nurtured, and ultimately cut the roots of empire.

A volume in the Florida Museum of Natural History: Ripley P. Bullen Series

British Capitalism and Caribbean Slavery

Barbara Lewis Solow 2004-07-08

The proceedings of a conference on Caribbean slavery and British capitalism are recorded in this volume. Convened in 1984, the conference considered the scholarship of Eric Williams & his legacy in this field of historical research.

*The Sociology of Slavery* Orlando Patterson

2022-04-27 Orlando Patterson's classic study of slavery in Jamaica reveals slavery for what it was: a highly repressive and destructive system of human exploitation, which disregarded and distorted almost all of the basic prerequisites of normal social life. What distinguishes

Patterson's account is his detailed description of the lives and culture of slaves under this repressive regime. He analyses the conditions of

slave life and work on the plantations, the psychological life of slaves and the patterns and meanings of life and death. He shows that the real-life situation of slaves and enslavers involved a complete breakdown of all major social institutions, including the family, gender relations, religion, trust and morality. And yet, despite the repressiveness and protracted genocide of the regime, slaves maintained some space of their own, and their forced adjustment to white norms did not mean that they accepted them. Slave culture was characterized by a persistent sense of resentment and injustice, which underpinned the day-to-day resistance and large-scale rebellions that were a constant feature of slave society, the last and greatest of which partly accounts for its abolition. This second edition includes a new introduction by Orlando Patterson, which explains the origins of the book, appraises subsequent works on Jamaican slavery, and reflects on its enduring relevance. Widely recognized as a foundational

work on the social institution of slavery, this book is an essential text for anyone interested in the role of slavery in shaping the modern world.

**Jamaica in the Age of Revolution** Trevor Burnard 2020-02-21 A renowned historian offers novel perspectives on slavery and abolition in eighteenth-century Jamaica Between the start of the Seven Years' War in 1756 and the onset of the French Revolution in 1789, Jamaica was the richest and most important colony in British America. White Jamaican slaveowners presided over a highly productive economic system, a precursor to the modern factory in its management of labor, its harvesting of resources, and its scale of capital investment and output. Planters, supported by a dynamic merchant class in Kingston, created a plantation system in which short-term profit maximization was the main aim. Their slave system worked because the planters who ran it were extremely powerful. In *Jamaica in the Age of Revolution*, Trevor Burnard analyzes the men and women

who gained so much from the labor of enslaved people in Jamaica to expose the ways in which power was wielded in a period when the powerful were unconstrained by custom, law, or, for the most part, public approbation or disapproval. Burnard finds that the unremitting war by the powerful against the poor and powerless, evident in the day-to-day struggles slaves had with masters, is a crucial context for grasping what enslaved people had to endure. Examining such events as Tacky's Rebellion of 1760 (the largest slave revolt in the Caribbean before the Haitian Revolution), the Somerset decision of 1772, and the murder case of the Zong in 1783 in an Atlantic context, Burnard reveals Jamaica to be a brutally effective and exploitative society that was highly adaptable to new economic and political circumstances, even when placed under great stress, as during the American Revolution. *Jamaica in the Age of Revolution* demonstrates the importance of Jamaican planters and merchants to British

imperial thinking at a time when slavery was unchallenged.

The Making of New World Slavery Robin Blackburn 2010-08-02 The Making of New World Slavery argues that independent commerce, geared to burgeoning consumer markets, was the driving force behind the rise of plantation slavery. The baroque state sought—successfully—to feed upon this commerce and—with markedly less success—to regulate slavery and racial relations. To illustrate this thesis, Blackburn examines the deployment of slaves in the colonial possessions of the Portuguese, the Spanish, the Dutch, the English and the French. Plantation slavery is shown to have emerged from the impulses of civil society, not from the strategies of individual states. Robin Blackburn argues that the organization of slave plantations placed the West on a destructive path to modernity and that greatly preferable alternatives were both proposed and rejected. Finally, he shows that

the surge of Atlantic trade, predicated on the murderous toil of the plantations, made a decisive contribution to both the Industrial Revolution and the rise of the West.

*The Politics of Reproduction* Katherine Paugh 2017-04-21 Many British politicians, planters, and doctors attempted to exploit the fertility of Afro-Caribbean women's bodies in order to ensure the economic success of the British Empire during the age of abolition. Abolitionist reformers hoped that a homegrown labor force would end the need for the Atlantic slave trade. By establishing the ubiquity of visions of fertility and subsequent economic growth during this time, *The Politics of Reproduction* sheds fresh light on the oft-debated question of whether abolitionism was understood by contemporaries as economically beneficial to the plantation colonies. At the same time, Katherine Paugh makes novel assertions about the importance of Britain's Caribbean colonies in the emergence of population as a political problem. The need to

manipulate the labor market on Caribbean plantations led to the creation of new governmental strategies for managing sex and childbearing, such as centralized nurseries, discouragement of extended breastfeeding, and financial incentives for childbearing, that have become commonplace in our modern world. While assessing the politics of reproduction in the British Empire and its Caribbean colonies in relationship to major political events such as the Haitian Revolution, the study also focuses in on the island of Barbados. The remarkable story of an enslaved midwife and her family illustrates how plantation management policies designed to promote fertility affected Afro-Caribbean women during the late eighteenth and early nineteenth centuries. The Politics of Reproduction draws on a wide variety of sources, including debates in the British Parliament and the Barbados House of Assembly, the records of Barbadian plantations, tracts about plantation management published by doctors and plantation owners, and

missionary records related to the island of Barbados.

**The Harvard Guide to African-American History** Evelyn Brooks Higginbotham 2001

Computer searchable version of the text of the same title.

**Crowns of Glory, Tears of Blood** Emília Viotti da Costa 1997 Recounts the events of the Demerara Slave Rebellion in Guyana during the nineteenth century

**Testing the Chains** Michael Craton 2009

**Martha Brae's Two Histories** Jean Besson 2002 Based on historical research and more than thirty years of anthropological fieldwork, this wide-ranging study underlines the importance of Caribbean cultures for anthropology, which has generally marginalized Europe's oldest colonial sphere. Located at *Jamaica in Slavery and Freedom* Kathleen E. A. Monteith 2002 Jamaica's rich history has been the subject of many books, articles and papers. This collection of 18 original essays considers

aspects of Jamaican history not covered in more general histories of the island and illuminates developments in Jamaican and West Indian history. The collection emphasises the relevance of history to everyday life and the development of a national identity, culture and economy. The essays are organized in three sections: historiography and sources; society, culture and heritage; and economy, labour and politics. Work and Labor in Early America Stephen Innes 2013-04-01 Ten leading scholars of early American social history here examine the nature of work and labor in America from 1614 to 1820. The authors scrutinize work diaries, private and public records, and travelers' accounts. Subjects include farmers, farmwives, urban laborers, plantation slave workers, midwives, and sailors; locales range from Maine to the Caribbean and the high seas. These essays recover the regimen that consumed the waking hours of most adults in the New World, defined their economic lives, and shaped their larger existence. Focusing on

individuals as well as groups, the authors emphasize the choices that, over time, might lead to prosperity or to the poorhouse. Few people enjoyed sinecures, and every day brought new risks. Stephen Innes introduces the collection by elucidating the prophetic vision of Captain John Smith: that the New World offered abundant reward for one's "owne industrie." Several motifs stand out in the essays. Family labor has begun to assume greater prominence, both as a collective work unit and as a collective economic unit whose members worked independently. Of growing interest to contemporary scholars is the role of family size and sex ratio in determining economic decision, and vice versa. Work patterns appear to have been driven by the goal of creating surplus production for markets; perhaps because of a desire for higher consumption, work patterns began to intensify throughout the eighteenth century and led to longer work days with fewer slack periods. Overall, labor relations showed no

consistent evolution but remained fluid and flexible in the face of changing market demands in highly diverse environments. The authors address as well the larger questions of American development and indicate the directions that research in this expanding field might follow.

**New Men** Thomas A. Foster 2011-01-24 In 1782, J. Hector St. John de Crèvecoeur wrote, "What then, is the American, this new man? He is an American, who, leaving behind him all his ancient prejudices and manners, receives new ones from the new mode of life he has embraced." In casting aside their European mores, these pioneers, de Crèvecoeur implied, were the very embodiment of a new culture, society, economy, and political system. But to what extent did manliness shape early America's character and institutions? And what roles did race, ethnicity, and class play in forming masculinity? Thomas A. Foster and his contributors grapple with these questions in *New Men*, showcasing how colonial and

Revolutionary conditions gave rise to new standards of British American manliness. Focusing on Indian, African, and European masculinities in British America from earliest Jamestown through the Revolutionary era, and addressing such topics that range from slavery to philanthropy, and from satire to warfare, the essays in this anthology collectively demonstrate how the economic, political, social, cultural, and religious conditions of early America shaped and were shaped by ideals of masculinity.

*Slavery and Slaving in World History: A Bibliography, 1900-91: v. 1* David Y Miller 2019-07-23 This bibliography of 20th century literature focuses on slavery and slave-trading from ancient times through the 19th century. It

contains over 10,000 entries, with the principal sections organizing works by the political/geographical frameworks of the enslavers.

A Tale of Two Plantations Richard S. Dunn  
2014-11-04 Richard Dunn reconstructs the lives of three generations of slaves on a sugar estate in Jamaica and a plantation in Virginia, to understand the starkly different forms slavery took. Deadly work regimens and rampant disease among Jamaican slaves contrast with population expansion in Virginia leading to the selling of slaves and breakup of families.

**Women in Port** Douglas Catterall 2012-09-28  
The practical application of micro-historical approaches in 'Women in Port' helps to re-frame our understanding of women's possibilities in the Atlantic world.

Planters, Merchants, and Slaves Trevor Burnard  
2019-02-22 "As with any enterprise involving violence and lots of money, running a plantation in early British America was a serious and brutal

enterprise. Beyond resources and weapons, a plantation required a significant force of cruel and rapacious men men who, as Trevor Burnard sees it, lacked any better options for making money. In the contentious Planters, Merchants, and Slaves, Burnard argues that white men did not choose to develop and maintain the plantation system out of virulent racism or sadism, but rather out of economic logic because to speak bluntly it worked. These economically successful and ethically monstrous plantations required racial divisions to exist, but their successes were always measured in gold, rather than skin or blood. Burnard argues that the best example of plantations functioning as intended is not those found in the fractious and poor North American colonies, but those in their booming and integrated commercial hub, Jamaica. Sure to be controversial, this book is a major intervention in the scholarship on slavery, economic development, and political power in early British America, mounting a powerful and

original argument that boldly challenges historical orthodoxy."--

**Architecture and Empire in Jamaica** Louis Nelson 2016-03-15 Through Creole houses and merchant stores to sugar fields and boiling houses, Jamaica played a leading role in the formation of both the early modern Atlantic world and the British Empire. *Architecture and Empire in Jamaica* offers the first scholarly analysis of Jamaican architecture in the long 18th century, spanning roughly from the Port Royal earthquake of 1692 to Emancipation in 1838. In this richly illustrated study, which includes hundreds of the author's own photographs and drawings, Louis P. Nelson examines surviving buildings and archival records to write a social history of architecture. Nelson begins with an overview of the architecture of the West African slave trade then moves to chapters framed around types of buildings and landscapes, including the Jamaican plantation landscape and fortified

houses to the architecture of free blacks. He concludes with a consideration of Jamaican architecture in Britain. By connecting the architecture of the Caribbean first to West Africa and then to Britain, Nelson traces the flow of capital and makes explicit the material, economic, and political networks around the Atlantic.

**Christian Ritual and the Creation of British Slave Societies, 1650-1780** Nicholas M.

Beasley 2010-01-25 This study offers a new and challenging look at Christian institutions and practices in Britain's Caribbean and southern American colonies. Focusing on the plantation societies of Barbados, Jamaica, and South Carolina, Nicholas M. Beasley finds that the tradition of liturgical worship in these places was more vibrant and more deeply rooted in European Christianity than previously thought. In addition, Beasley argues, white colonists' attachment to religious continuity was thoroughly racialized. Church customs,

sacraments, and ceremonies were a means of regulating slavery and asserting whiteness. Drawing on a mix of historical and anthropological methods, Beasley covers such topics as church architecture, pew seating customs, marriage, baptism, communion, and funerals. Colonists created an environment in sacred time and space that framed their rituals for maximum social impact, and they asserted privilege and power by privatizing some rituals and by meting out access to rituals to people of color. Throughout, Beasley is sensitive to how this culture of worship changed as each colony reacted to its own political, environmental, and demographic circumstances across time. Local factors influencing who partook in Christian rituals and how, when, and where these rituals took place could include the structure of the Anglican Church, which tended to be less hierarchical and centralized than at home in England; the level of tensions between Anglicans and Protestants; the persistence of African

religious beliefs; and colonists' attitudes toward free persons of color and elite slaves. This book enriches an existing historiography that neglects the cultural power of liturgical Christianity in the early South and the British Caribbean and offers a new account of the translation of early modern English Christianity to early America. *Mastery, Tyranny, and Desire* Trevor Burnard 2009-11-17 Eighteenth-century Jamaica, Britain's largest and most valuable slave-owning colony, relied on a brutal system of slave management to maintain its tenuous social order. Trevor Burnard provides unparalleled insight into Jamaica's vibrant but harsh African and European cultures with a comprehensive examination of the extraordinary diary of plantation owner Thomas Thistlewood. Thistlewood's diary, kept over the course of forty years, describes in graphic detail how white rule over slaves was predicated on the infliction of terror on the bodies and minds of slaves. Thistlewood treated his slaves cruelly even while

he relied on them for his livelihood. Along with careful notes on sugar production, Thistlewood maintained detailed records of a sexual life that fully expressed the society's rampant sexual exploitation of slaves. In Burnard's hands, Thistlewood's diary reveals a great deal not only about the man and his slaves but also about the structure and enforcement of power, changing understandings of human rights and freedom, and connections among social class, race, and gender, as well as sex and sexuality, in the plantation system.

*Searching for the Invisible Man* Michael Craton 1978 Though centered on a single Jamaican sugar estate, Worthy Park, and dealing largely with the period of formal slavery, this book is firmly placed in far wider contexts of place and time. The "Invisible Man" of the title is found, in the end, to be not just the formal slave but the ordinary black worker throughout the history of the plantation system. Michael Craton uses computer techniques in the first of three main

parts of his study to provide a dynamic analysis of the demographic, health, and socioeconomic characteristics of the Worthy Park slaves as a whole. The surprising diversity and complex interrelation of the population are underlined in Part Two, consisting of detailed biographies of more than 40 individual members of the plantation's society, including whites and mulattoes as well as black slaves. This is the most ambitious attempt yet made to overcome the stereotyping ignorance of contemporary white writers and the muteness of the slaves themselves. Part Three is perhaps the most original section of the book. After tracing the fate of the population between the emancipation of 1838 and the present day through genealogies and oral interviews, Craton concludes that the predominant feature of plantation life has not been change but continuity, and that the accepted definitions of slavery need considerable modification.

### **Slavery, Childhood, and Abolition in**

**Jamaica, 1788-1838** Colleen A. Vasconcellos  
2015-05-15 This study examines childhood and slavery in Jamaica from the onset of improved conditions for the island's slaves to the end of all forced or coerced labor throughout the British Caribbean. As Colleen A. Vasconcellos discusses the nature of child development in the plantation complex, she looks at how both colonial Jamaican society and the slave community conceived childhood—and how those ideas changed as the abolitionist movement gained power, the fortunes of planters rose and fell, and the nature of work on Jamaica's estates evolved from slavery to apprenticeship to free labor. Vasconcellos explores the experiences of enslaved children through the lenses of family, resistance, race, status, culture, education, and freedom. In the half-century covered by her study, Jamaican planters alternately saw enslaved children as burdens or investments. At the same time, the childhood experience was shaped by the ethnically, linguistically, and

culturally diverse slave community. Vasconcellos adds detail and meaning to these tensions by looking, for instance, at enslaved children of color, legally termed mulattos, who had unique ties to both slave and planter families. In addition, she shows how traditions, beliefs, and practices within the slave community undermined planters' efforts to ensure a compliant workforce by instilling Christian values in enslaved children. These are just a few of the ways that Vasconcellos reveals an overlooked childhood—one that was often defined by Jamaican planters but always contested and redefined by the slaves themselves.

*The Routledge History of Slavery* Gad Heuman  
2010-11-01 The Routledge History of Slavery is a landmark publication that provides an overview of the main themes surrounding the history of slavery from ancient Greece to the present day. Taking stock of the field of Slave Studies, the book explores the major advances that have

taken place in the past few decades of study in this crucial field. Offering an unusual, transnational history of slavery, the chapters have all been specially commissioned for the collection. The volume begins by delineating the global nature of the institution of slavery, examining slavery in different parts of the world and over time. Topics covered here include slavery in Africa and the Indian Ocean World, as well as the Transatlantic Slave Trade. In Part Two, the chapters explore different themes that define slavery such as slave culture, the slave economy, slave resistance and the planter class, as well as areas of life affected by slavery, such as family and work. The final part goes on to study changes and continuities over time, looking at areas such as abolition, the aftermath of emancipation and commemoration. The volume concludes with a chapter on modern slavery. Including essays on all the key topics and issues, this important collection from a leading international group of scholars presents

a comprehensive survey of the current state of the field. It will be essential reading for all those interested in the history of slavery.

Slave Cultures and the Cultures of Slavery  
Stephan Palmié 1995 "Featuring essays by historians and anthropologists, this volume focuses on the cultural dimensions of slavery in a wide variety of geographical and historical settings. The contributors examine the historical manifestations of slavery not only as legal, political, and economic institutions but as systems of human interaction and experience that are prone to conflicts and riddled with contradictions." "Among the geographic areas covered in this collection are colonial Louisiana, the American South of the antebellum and Reconstruction periods, Jamaica, the Danish West Indies, Suriname, and Africa's Gold Coast. Some of the essays deal with conceptual and theoretical problems of current slavery studies, while others present new research on neglected issues such as Native American slave-holding

and the integration of former slaves into West African societies. Still other essays probe the continuities of cultural processes across the historical threshold between slavery and freedom." "Taken together, the comparative perspectives and interdisciplinary approaches offered by this volume make it an important addition to the increasingly sophisticated ways in which the social and ideological arrangements produced by slavery are understood."--BOOK JACKET. Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

**Searching for the Invisible Man** Michael Craton 1978

*General History of the Caribbean UNESCO Volume 6* NA NA 2019-06-12 Volume6 looks at the ways historians have written the history of the region depending upon their methods of interpretation and differing styles of communicating their findings. The authors examine how the lingual diversity of the region

has affected the historian's ability to coalesce an historical account. The second half of the volume describes the writing of history in the individual territories, taking into account changes in society, economy and political structure. This volume concludes with a detailed bibliography that is comprehensive of the entire series.

**Slave Women in Caribbean Society,**

**1650-1838** Barbara Bush 1990 In this text the author sets forth and then evaluates the images of slave women accumulated in published sources and folklore.

Slavery and Social Death Orlando Patterson 2018-10-15 In a work of prodigious scholarship and enormous breadth, which draws on the tribal, ancient, premodern, and modern worlds, Orlando Patterson discusses the internal dynamics of slavery in sixty-six societies over time. These include Greece and Rome, medieval Europe, China, Korea, the Islamic kingdoms, Africa, the Caribbean islands, and the American South.

**Sugar and Slaves** Richard S. Dunn 2012-12-01  
First published by UNC Press in 1972, *Sugar and Slaves* presents a vivid portrait of English life in the Caribbean more than three centuries ago. Using a host of contemporary primary sources, Richard Dunn traces the development of plantation slave society in the region. He examines sugar production techniques, the vicious character of the slave trade, the problems of adapting English ways to the tropics, and the appalling mortality rates for both blacks and whites that made these colonies the richest, but in human terms the least successful, in English America. "A masterly analysis of the Caribbean plantation slave society, its lifestyles, ethnic relations, afflictions, and peculiarities.--*Journal of Modern History* "A remarkable account of the rise of the planter class in the West Indies. . . . Dunn's [work] is rich social history, based on factual data brought to life by his use of contemporary narrative accounts.--*New York Review of Books* "A study of

major importance. . . . Dunn not only provides the most solid and precise account ever written of the social development of the British West Indies down to 1713, he also challenges some traditional historical clichés.--*American Historical Review*  
*Longman Companion to Slavery, Emancipation and Civil Rights* Harry Harmer 2014-06-11 This Companion provides the essential background to the defining fate of the African diaspora in the Americas and the Caribbean from the 15th to the 20th centuries. Central to the book are detailed chronologies on the development and decline of the slave trade, slavery in colonial North and South America, the Caribbean and the United States, movements for emancipation, and the progress of black civil rights. Separate sections look at the long-running resistance against slavery and the black civil rights movements in the Americas and the Caribbean, with a comparative chronology of apartheid in South Africa. Supported by biographies of over 100 key

individuals and a full glossary providing definitions of crucial terms, expressions, ideas and events, this is required reading for anyone interested in the historical experience of slavery. *The Reaper's Garden* Vincent Brown 2008 Winner of the Merle Curti Award Winner of the James A. Rawley Prize Winner of the Louis Gottschalk Prize Longlisted for the Cundill Prize "Vincent Brown makes the dead talk. With his deep learning and powerful historical imagination, he calls upon the departed to explain the living. *The Reaper's Garden* stretches the historical canvas and forces readers to think afresh. It is a major contribution to the history of Atlantic slavery."—Ira Berlin From the author of *Tacky's Revolt*, a landmark study of life and death in colonial Jamaica at the zenith of the British slave empire. What did people make of death in the world of Atlantic slavery? In *The Reaper's Garden*, Vincent Brown asks this question about Jamaica, the staggeringly profitable hub of the British Empire

in America—and a human catastrophe. Popularly known as the grave of the Europeans, it was just as deadly for Africans and their descendants. Yet among the survivors, the dead remained both a vital presence and a social force. In this compelling and evocative story of a world in flux, Brown shows that death was as generative as it was destructive. From the eighteenth-century zenith of British colonial slavery to its demise in the 1830s, the Grim Reaper cultivated essential aspects of social life in Jamaica—belonging and status, dreams for the future, and commemorations of the past. Surveying a haunted landscape, Brown unfolds the letters of anxious colonists; listens in on wakes, eulogies, and solemn incantations; peers into crypts and coffins, and finds the very spirit of human struggle in slavery. Masters and enslaved, fortune seekers and spiritual healers, rebels and rulers, all summoned the dead to further their desires and ambitions. In this turbulent transatlantic world, Brown argues, "mortuary

politics” played a consequential role in determining the course of history. Insightful and powerfully affecting, *The Reaper’s Garden* promises to enrich our understanding of the ways that death shaped political life in the world of Atlantic slavery and beyond.

### **The Archaeology of Slavery and Plantation**

**Life** Theresa A Singleton 2016-09-16 This volume represented a compilation of interdisciplinary research being done throughout the American South and the Caribbean by historians, archaeologists, architects, anthropologists, and other scholars on the topic of slavery and plantations. It synthesizes materials known through the 1980s and reports on key sites of excavation and survey in the Carolinas, Barbados, Louisiana and other locations. Contributors include many of the leading figures in historical archaeology.
