constellation Leo, and was recarved during the Old Kingdom era of Egypt • Reveals that the Sphinx was built during the actual historical Golden Age of ancient Egypt, the period known in legend as Zep Tepi No other monument in the world evokes mystery like the Great Sphinx of Giza. It has survived the harsh climate of Egypt for thousands of years and will remain long after our own civilization is gone. According to orthodox Egyptology, the Sphinx was built around 2500 BCE as a memorial to the pharaoh Khafre. Yet this “fact” has scant to no supportive evidence. When was the Sphinx really built and, most importantly, why? In this provocative collaboration from two Egyptology outsiders, Robert M. Schoch, Ph.D., and Robert Bauval combine their decades of research to show how the Sphinx is thousands of years older than the conventional Egyptological timeline and was built by a long forgotten pre-Pharaonic

civilization. They examine the known history of the Sphinx, contrasting what Egyptologists claim with prominent historical accounts and new research, including updates to Schoch’s geological water weathering research and reanalysis of seismic studies. Building on Bauval’s Orion Correlation Theory, they investigate the archaeoastronomical alignments of the monuments of the Giza Plateau and reveal how the pyramids and Sphinx were built to align with the constellations of Orion and Leo. Analyzing the evidence for a significantly older construction phase at Giza and the restoration and recarving of the Sphinx during the Old Kingdom era, they assert that the Sphinx was first built by an advanced pre-Pharaonic civilization that existed circa 12,000 years ago on the Giza Plateau, contemporaneous with the sophisticated Göbekli Tepe complex. The authors examine how the monuments at Giza memorialize Zep Tepi, the Golden Age of legend shown here to be an actual historical

time period from roughly 10,500 BCE through 9700 BCE. Moving us closer to an understanding of the true age and purpose of the Great Sphinx, Schoch and Bauval provide evidence of an early high civilization witnessed by the Great Sphinx before the end of the last ice age.

“You either love Andrea Camilleri or you haven’t read him yet. Each novel in this wholly addictive, entirely magical series, set in Sicily and starring a detective unlike any other in crime fiction, blasts the brain like a shot of pure oxygen. Aglow with local color, packed with flint-dry wit, as fresh and clean as

Mediterranean seafood — altogether transporting. Long live Camilleri, and long live Montalbano.” A.J. Finn, #1 New York Times bestselling author of *The Woman in the Window* Things are not going well for Inspector Salvo Montalbano. His relationship with Livia is once again on the

rocks and—acutely aware of his age—he is beginning to grow weary of the endless violence he encounters. Then a young woman is found dead, her face half shot off and only a tattoo of a sphinx moth giving any hint of her identity. The tattoo links her to three similarly marked girls—all victims of the underworld sex trade—who have been rescued from the Mafia night-club circuit by a prominent Catholic charity. The problem is, Montalbano's inquiries elicit an outcry from the Church and the three other girls are all missing.

### **The Message of the Sphinx**

Graham Hancock 2009-06-10

NATIONAL BESTSELLER •

Two Egypt experts posit a revolutionary theory: The Sphinx and other great Egyptian monuments are older than common history books tell us and are arranged in such a way as to send us a message from the silent past. Guardian of the ancient mysteries, the keeper of secrets . . . For thousands of years the Great Sphinx of Egypt has gazed toward the east, its eyes

focused on eternity, reading a message in the stars that mankind has long forgotten. And today as our civilization stands poised at the end of a great cycle, it is a message that beckons insistently to be understood. All the clues are in place. Geology and archeoastronomy have already indicated that the lion-bodied Sphinx may be vastly older than Egyptologists currently believe, dating not from 2500 B.C., but from 10,500 B.C.—the beginning of the astrological Age of Leo. And we now know that the three pyramids of Giza, standing on high ground half a mile to the west of the Sphinx, are in fact a precise map of the three stars of Orion's belt, formed in fifteen million tons of solid stone. Are these monuments trying to tell us something? And, if so, what? In *The Message of the Sphinx*, Robert Bauval and Graham Hancock present a tour de force of historical and scientific detective work that unravels the millennial code embodied in these structures. Using sophisticated computer

simulations of ancient skies, they unravel the riddle of the Sphinx, and they present a startling new theory concerning the enigmatic Pyramid Texts and other archaic Egyptian scriptures. Their discoveries lead the authors to this question: Does mankind have a rendezvous with destiny—a rendezvous not in the future, but in the distant past, at a precise place and time? The secrets can be kept no longer. *The Message of the Sphinx* brings them to light. Secret Chamber Robert Bauval 1999 In the last three years a covert archaeological search has taken place at Giza to locate the Hall of Records under the Sphinx and also find a reputed secret room inside the Great Pyramid.

**Mystery of Egypt** Radu Cinamar 2012 Radu Cinamar stunned the world when he announced the greatest archeological find of all time in his first book, *Transylvanian Sunrise*, which revealed a hidden chamber some 50,000 years old beneath the Romanian Sphinx in the Bucegi

Mountains. This chamber includes holographic technology with a visual data bank of infinite DNA permutations in addition to three tunnels: one leading to the inner earth, one to Tibet and one to Egypt. In *Mystery of Egypt*, Radu is part of an expedition to explore the tunnel to Egypt where they encounter ancient artifacts that look more futuristic than they do ancient. It is a detailed account of a remarkable adventure that includes further interactions with Cezar Brad, the head of Romanian Intelligence's Department Zero, and Elinor, the enigmatic alchemist. While these claims are more than controversial, Cezar ignites further controversy when he shares some of his experiences since their last meeting. An amazing follow-up to Radu's second book, *Transylva*.

upon the secret systems of philosophy existing in the ancient world, but the ageless truths of life, like many of the earth's greatest thinkers, have usually been clothed in shabby garments. The present work is an attempt to supply a tome worthy of those seers and sages whose thoughts are the substance of its pages. To bring about this coalescence of Beauty and Truth has proved most costly, but I believe that the result will produce an effect upon the mind of the reader which will more than justify the expenditure.

### **The Sphinx Without a Secret**

Oscar Wilde 2021-03-01

"Please, speak softly, we might be overheard," Two college friends run into each other in Paris and one tells the other of a mysterious woman he's been seeing. She sets appointments to meet him and doesn't show up, and she asks him not to write her at her home address but gives him an alias name and address instead. As the tension builds, the friends start to suspect that maybe the real mystery is that there isn't a

mystery at all. The Sphinx Without a Secret suggests that the thrill of the chase will always end in disappointment when it comes to love, because sooner or later the chase must end. With charm and a great understanding of the human condition, Oscar Wilde more than succeeds with this suspenseful Sherlock Holmes-like mystery. Oscar Wilde (1854-1900) was an Irish playwright, novelist, essayist, and poet, famous for 'The Picture of Dorian Gray' and 'The Importance of Being Earnest' to name a couple. He was believed to be a homosexual and met a lot of resistance in his life on that account. He died in Paris at the age of 46.

### **The double act of Oedipus and Sphinx unriddled**

Thomas Taylor, Helena Petrovna Blavatsky, Éliphas Lévi 2018-01-21 Sphinx is Imagination lighting up our blind senses. She corresponds to Aether, or Spiritual Insight (Buddhi-Manas) opened up. There are two Oedipodes, a Divine Oedipus, being a ray of

pure mind self-exiled from its celestial abode. And a Worldly Oedipus, a reflection of the same ray imprisoned in an impure body. Both are sentenced to suffer conjointly on earth. Inspired by the Imagination and Will of Divine Oedipus, animal man begins awakening his higher faculties. If he succeeds, he will ascend from star to star, from one world to another, circling onward to rebecome the once pure planetary Spirit that he had started from. Bereft of Ariadne's thread of philosophy, Worldly Oedipus remains spiritually blind and unlearned, unable to escape from the labyrinth of matter. Enmeshed in the darkness of duality, his unmastered passions condemn him to involuntary exile from the solidarity of the One — a perfect recipe for drama. Sphinx is the greatest mystery of past, present, and future initiations. How the tetrad changing into a duad is explained by the triad. Man's clinging to the form allowed the idea to be forgotten. Sphinx is the living palladium of

humanity. But she devours only blind interpreters.

Sphinx Christiane Zivie-Coche 2004 "Sphinxes are legion in Egypt--what is so special about this one?... We shall take a stroll around the monument itself, scrutinizing its special features and analyzing the changes it experienced throughout its history. The evidence linked to the statue will enable us to trace its evolution... down to the worship it received in the first centuries of our own era, when Egyptians, Greeks, and Romans mingled together in devotion to this colossus, illustrious witness to a past that was already more than two millennia old."--from the Introduction  
The Great Sphinx of Giza is one of the few monuments from ancient Egypt familiar to nearly everyone. In a land where the colossal is part of the landscape, it still stands out, the largest known statue in Egypt. Originally constructed as the image of

King Chephren, builder of the second of the Great Pyramids, the Sphinx later acquired new fame in the guise of the sun god Harmakhis. Major construction efforts in the New Kingdom and Roman Period transformed the monument and its environs into an impressive place of pilgrimage, visited until the end of pagan antiquity. Christiane Zivie-Coche, a distinguished Egyptologist, surveys the long history of the Great Sphinx and discusses its original appearance, its functions and religious significance, its relation to the many other Egyptian sphinxes, and the various discoveries connected with it. From votive objects deposited by the faithful and inscriptions that testify to details of worship, she reconstructs the cult of Harmakhis (in Egyptian, Har-em-akhet, or "Horus-in-the-horizon"), which arose around the monument in the second millennium. "We are faced," she writes, "with a religious phenomenon that is entirely original, though not unique: a

theological reinterpretation turned an existing statue into the image of the god who had been invented on its basis. "The coming of Christianity ended the Great Sphinx's religious role. The ever-present sand buried it, thus sparing it the fate that overtook the nearby pyramids, which were stripped of their stone by medieval builders. The monument remained untouched, covered by its desert blanket, until the first excavations. Zivie-Coche details the archaeological activity aimed at clearing the Sphinx and, later, at preserving it from the corrosive effects of a rising water table.

### **The Magic of the Pyramids and the Mystery of the Sphinx**

A. Bothwell Gosse 1915

The Mars Mystery Graham Hancock 2010-08-11 An asteroid transformed Mars from a lush planet with rivers and oceans into a bleak and icy hell. Is Earth condemned to the same fate, or can we protect ourselves and our planet from extinction? In his most riveting and revealing book yet, Graham Hancock examines the evidence that the barren Red Planet was once home to a lush environment of flowing rivers, lakes, and oceans. Could Mars have sustained life and civilization? Megaliths found on the parched shores of Cydonia, a former Martian ocean, mirror the geometrical conventions of the pyramids at

Egypt's Giza necropolis. Especially startling is a Sphinx-like structure depicting a face with distinguishable diadem, teeth, mouth and an Egyptian-style headdress. Might there be a connection between the structures of Egypt and those of Mars? Why does NASA continue to dismiss these remarkable anomalies as "a trick of light"? Hancock points to the intriguing possibility that ancient Martian civilization is communicating with us through the remarkable structures it left behind. In exploring the possible traces left by the Martian civilization and the cosmic cataclysm that may have ended it, *The Mars Mystery* is both an illumination of our ancient past and a warning--that we still have time to heed--about our ultimate fate.

*The Secret History of the World* Mark Booth 2010-02-23  
This New York Times bestselling work reimagines world history through the belief systems of Freemasons, Rosicrucians, Kabbalists, and others. They say that history is

written by the victors. But what if history as we know it written by the wrong people? What if everything we've been told is only part of the story? In this groundbreaking and controversial work, Mark Booth embarks on an enthralling tour of our world's secret histories. Booth starts from a dangerous premise: That the stories put forward by the world's various cults and mystical traditions are true. From there he relates a deeply provocative alternate history of the past 3,000 years. From Greek and Egyptian mythology to Jewish folklore, from Christian cults to Freemasons, from Charlemagne to Don Quixote, from George Washington to Hitler—Booth shows that history needs a revolutionary rethink, and he has 3,000 years of hidden wisdom to back it up. **William Honyman Gillespie of Torbanehill...Scottish Metaphysical Theist... 1920 Secret of the Sands, 2009 ReadersFavorite. com 'Fiction-Mystery' Silver Medalist, Rai Aren 2013-02-28**

**The Zodiac Conspiracy** Atara 2011-11 The appearance of an astronomer, who was discussing the 13th constellation on national TV last year, caused a huge outcry from the public. The big question was, "How can my sun sign be different?" Many people concluded that the astronomer did not know what he was talking about! People wanted to know how their Sun sign could be different than what they had been told all these years. Actually, the astronomer was very correct; he was telling everyone the truth as indicated by the science of astronomy, which the psychological art of astrology is based upon. There are 13 constellations and has always been 13. This is why the book also features a section on Ophiuchus, which is the 13th constellation and the only

constellation/sign named after a human being, Imhotep an African Egyptian. There has been a conspiracy of silence among Western astrologers to misrepresent the history of astrology and ignore the truth of astronomy. Since astrologers did not adhere to the science of astronomy, as dictated by the constellations, they created an alternative paradigm called the Koch zodiac system, which only acknowledges 12 constellations and therefore 12 signs.

Astrologers who live in the Eastern part of the world practice the truth of astronomy by using the Sidereal zodiac system. Most people in the Western world actually believe that on January 1st their Sun sign is Capricorn. However, the truth is that the Sun is actually in the constellation of Sagittarius. This is the truth of astronomy and the sidereal zodiac system. So, if you were born on January 1st (of any year) your Real Sun Sign is Sagittarius (not Capricorn). This book shows everyone (who wants to continue believing in their old "sign", while

embracing the truth of their Real Sun Sign), how to blend these two systems, so that who you REALLY ARE and what you are destined to learn about yourself, is anchored in the truth. It is a gentle reminder that you are not living your most authentic self. Are you the Virgo, Selfless Servant or Aquarius, The Giver? Read, the Zodiac Conspiracy and be introduced to the truth and Your Real Sun Sign.

The Sphinx Mystery Robert Temple 2009-01-20 A book that verifies the existence of secret underground chambers beneath the Sphinx and demonstrates its origins as the Egyptian god of the dead, Anubis • Includes an anthology of eyewitness accounts from early travelers who explored the secret chambers before they were sealed in 1926 •

## Secrets Of The Sphinx Mysteries Of The Ages Revealed

Reveals that the Sphinx was originally carved as a monumental crouching Anubis, the Egyptian jackal god of the necropolis Shrouded in mystery for centuries, the Sphinx of Giza has frustrated many who have attempted to discover its original purpose. Accounts exist of the Sphinx as an oracle, as a king's burial chamber, and as a temple for initiation into the Hermetic Mysteries. Egyptologists have argued for decades about whether there are secret chambers underneath the Sphinx, why the head-to-body ratio is out of proportion, and whose face adorns it. In *The Sphinx Mystery*, Robert Temple addresses the many mysteries of the Sphinx. He presents eyewitness accounts, published over a period of 281 years, of people who saw the secret chambers and even went inside them before they were sealed in 1926--accounts that had been forgotten until the author rediscovered them. He also describes his own exploration of a tunnel at the rear of the Sphinx, perhaps used for

obtaining sacred divinatory dreams. Robert Temple reveals that the Sphinx was originally a monumental Anubis, the Egyptian jackal god, and that its face is that of a Middle Kingdom Pharaoh, Amenemhet II, which was a later re-carving. In addition, he provides photographic evidence of ancient sluice gate traces to demonstrate that, during the Old Kingdom, the Sphinx as Anubis sat surrounded by a moat filled with water--called Jackal Lake in the ancient Pyramid Texts--where religious ceremonies were held. He also provides evidence that the exact size and position of the Sphinx were geometrically determined in relation to the pyramids of Cheops and Chephren and that it was part of a pharaonic resurrection cult.

### Keeper Of Genesis Robert

Bauval 2011-01-25 In Keeper of Genesis, Robert Bauval and Graham Hancock present a tour de force of historical and scientific detective work and answer the following questions: When and where did history begin? When was the genesis of civilisation in Egypt? How and why were the Great Sphinx and the three pyramids of Giza designed to serve as parts of an immense three-dimensional model of the sky of 'First

Time'? What is contained in the rectangular chamber that seismic surveys have located in the bedrock far below the paws of the sphinx? What lies behind the mysterious doors recently discovered at the end of a previously unexplored shaft inside the Great Pyramid? And does mankind have a rendezvous with destiny - a rendezvous not in the future, but in the distant past - at a precise place and time? Using sophisticated computer simulations of the ancient skies to crack the millennial code that the monuments transcribe, Bauval and Hancock set out a startling new theory concerning the Pyramid Texts and other archaic Egyptian scriptures.

brehtaking work of staggering research and synthesis that provides startling new information and context to the first thirty years of Jesus' life Where was Jesus for the first thirty years of his life? Where and what was he taught? Who were his teachers? Based on new information culled from hard to find Vatican texts, theosophical classics, ancient texts, legends, and systems of hermetic symbolism, Tricia McCannon constructs a radical new timeline of Jesus' life. She asserts Jesus spent at least seven years of study and training in Egypt, a number of years in England, and visited both India and Tibet before beginning his public ministry in Palestine. This is a wide-ranging examination of the direct links and similarities between Jesus' teachings and those of various Mystery religions and sects that were popular during his lifetime, including the Essenes, Buddhist, Mithrans, Zoroastrians, and Druids. McCannon offers compelling

evidence that places Jesus's life and mission firmly in the context of the profound spiritual teachings that came before him. Drawing on records from the Vatican, Tibet, India, and Egypt, along with Greek, Aramaic, and Pali text, as well as oral traditions of Jesus's teachings, McCannon uncovers the real reason that he has remained such a powerful and pivotal figure in world consciousness for over two millennia. The cold wind blows from the desert, and the silence of the night sets in. I hear the hoarse barking of a desert jackal and see bats flying by like shadows. Clouds of perfume engulf me as I approach the bridge over the Nile. The marvelous Giza gardens of acacias and orange trees are in full bloom. I watch the canoes in the Nile rocking back and forth at the edge of the river, and I remember my ride here. I was so sure of myself. I wanted to dig, explore, and find remains of dead kings... ### **The Empires of Atlantis**

South America • Shows how pyramids and other megalithic monuments testify to the survival of a “Sacred Science” of Atlantean origin and how this Sacred Science provided the foundation for esoteric traditions and secret societies throughout the ages • Draws on more than 500 ancient and modern sources and the author’s own personal exploration of hundreds of archaeological sites Exploring more than 100,000 years of Earth’s history, Marco Vigato combines recent discoveries in the fields of archaeology, geology, anthropology, and genetics with the mystery teachings of antiquity to investigate the true origins of civilization. Establishing the historical and geological reality of Atlantis stretching all the way back to 432,000 BCE, he traces the course of Atlantean civilization through its three empires, revealing how civilization rose and fell several times over this lengthy span of time. The author shows that Atlantis did not vanish “in one terrible day and night” but

survived in a variety of different forms well into the historical era. He reveals how the first Atlantean civilization lasted from 432,000 to 33,335 BCE, the second one from 21,142 to 10,961 BCE, and the third Atlantis civilization--the one celebrated by Plato--collapsed in 9600 BCE, after the Younger Dryas cataclysm. The author examines the role of Atlantean survivors in restarting civilization in different parts of the world, from Göbekli Tepe and Egypt to India, Mesopotamia, and the Americas. He explains how they created colonies and outposts around the globe, as evidenced by the colossal network of pyramids, earthen mounds, and other megalithic monuments they left behind. He shows how these monuments testify to the survival of a “Sacred Science” of Atlantean origin, and he documents the survival of the primeval Atlantean Tradition through various secret societies into the modern era. Drawing on more than 500 ancient and modern sources

and his own personal exploration of hundreds of archaeological sites around the world, the author shows not only that Atlantis was real but that the whole world is now being called to become a New Atlantis and awaken into a new Golden Age.

obsolete beliefs of our modern worldview have brought us to

knowledge with the new facts from new discoveries that is the key to keeping science honest, current, and meaningful. To continue teaching science that is not supported by the new discoveries—ones based upon accepted scientific methods—is not, in fact, scientific. But this is precisely what we see happening in traditional textbooks, classrooms, and mainstream media today. The Opportunity: Explore for yourself the discoveries that change 150 years of scientific beliefs, yet are still not reflected in mainstream thinking, including:

- Evidence of advanced, near-ice age civilizations
- The origin of, and reasons for, war in our ancient past, and why it may become obsolete in our time
- The false assumptions of human evolution and of the Darwinian theory "Let the strongest live and the weakest die" and how this plays out in corporations, societies, warfare, and civilization today

Deep Truth reveals new discoveries that change the way we think about

everything from our personal relationships to civilization itself. When the facts become clear, our choices become obvious.
