Ten Feet Tall and Not Quite Bulletproof

Hardiman 2020-01-28 Cameron

Hardiman lived a life most young boys could only dream of. Every morning he put on a navy blue police flight suit, grabbed his flight helmet, and prepared to work on the police helicopter. He could be called to anything during a shift, to search for a missing child, to pull an injured driver from a

wrecked car, or a dangerous sea rescue. He saw his fair share of trauma and dealt with it like most coppers would: he quickly put each dangerous job out of his mind as soon as it was over. But one particular rescue in Bass Strait brought about a reckoning - and Cameron was never the same again. This is the brilliantly told, white-knuckle story of one cop learning every lesson the hard way - and coming to find

out that being not quite bulletproof doesn't mean that you're not a good cop. **Radio Activism** Annette Rimmer 2021-07-27 This unique book draws on the narratives of women participants in community radio, using intersectionality, feminist, critical psychological and community development frameworks to explore how this highly symbolic, creative dimension of activism can unmute marginalised women and enrich corporate media. Over a period of four years, twelve female radio project volunteers offer their experiences which they analyse, together as part of the RRG (Radio Research Group), alongside a conceptual and contextual framework to produce insights on the gendered nature of silence, voice and empowerment, and the wider potential of radio activism. Employing literature from a variety of fields, from bell hooks to Stuart Hall, the book foregrounds evidence from the majority world to argue the empowerment

potential of community radio and the barriers to radio participation. Through this analysis community radio emerges as a site of development, from which diverse identities transpire through laughter, dialogue, raised consciousness and solidarity, but it also exposes the conflicts of empowerment by recognising inherent tensions in womanhood and in communities. Centering on the global, hegemonic challenge of empowering women, and relevant across multiple disciplines and professions, this is fascinating reading for academics, students and professionals in psychology, gender studies, media studies, development and related areas.

what anyone would call "gifted." But his genius friend Noah Youkilis is actually supergifted, with one of the highest IQs around. After years at the Academy for Scholastic Distinction, all Noah dreams of is the opportunity to fail if he wants to. And he's landed in the perfect place to do it--Donovan's school. Almost immediately, Noah finds himself on the wrong side of cheerleading captain Megan Mercury and alpha jock Hash "Hashtag" Taggart. Sticking up for Noah lands Donovan in the middle of a huge feud with Hashtag. He's told to stay away from the sports star--or else. That should be the end of it, but when a freak incident suddenly makes Donovan a hero, he can't tell anyone about it since Hashtag is involved. So Noah steps in and becomes "Superkid." Now he's gone from nerd to titan at school. And it may have gone more than a little bit to his head.

Ten Feet Tall and Bulletproof

Judy Ferguson 2022-01-11

Ten Feet Tall and Bulletproof is a story of classic Alaska, in the village where the Iditarod began. It features the courageous mushers who broke trail when the Great Race was only a rough trapline experience. At the Iditarod's inception in 1973, Ken Chase and George Attla were finishers, followed in 1974 by Jerry Riley, Rudy Demoski and Warner Vent. The following year Henry Beatus and Emmitt Peters came on, the year Emmitt won, and changed the race from campfire comradeship to a truly competitive contest.

The Girls Lori Lansens
2009-02-24 In Lori Lansens’
astonishing second novel,
readers come to know and love
two of the most remarkable
characters in Canadian fiction.
Rose and Ruby are twenty-
nine-year-old conjoined twins.
Born during a tornado to a
shocked teenaged mother in

the hospital at Leaford,
Ontario, they are raised by the
nurse who helped usher them
into the world. Aunt Lovey and
her husband, Uncle Stash, are
middle-aged and with no
children of their own. They
relocate from the town to the
drafty old farmhouse in the
country that has been in
Lovey’s family for generations.
Joined to Ruby at the head,
Rose’s face is pulled to one
side, but she has full use of her
limbs. Ruby has a beautiful
face, but her body is tiny and
she is unable to walk. She rests
her legs on her sister’s hip,
rather like a small child or a
doll. In spite of their situation,
the girls lead surprisingly
separate lives. Rose is bookish
and a baseball fan. Ruby is
fond of trash TV and has a
passion for local history. Rose
has always wanted to be a
writer, and as the novel opens,
she begins to pen her
autobiography. Here is how she
begins: I have never looked
into my sister’s eyes. I have
never bathed alone. I have

beguiling moon. I've never used an airplane bathroom. Or worn a hat. Or been kissed like that. I've never driven a car. Or slept through the night. Never a private talk. Or solo walk. I've never climbed a tree. Or faded into a crowd. So many things I've never done, but oh, how I've been loved. And, if such things were to be, I'd live a thousand lives as me, to be loved so exponentially. Ruby, with her marvellous characteristic logic, points out that Rose's autobiography will have to be Ruby's as well — and how can she trust Rose to represent her story accurately? Soon, Ruby decides to chime in with chapters of her own. The novel begins with Rose, but eventually moves to Ruby's point of view and then switches back and forth. Because the girls face in slightly different directions, neither can see what the other is writing, and they don't tell each other either. The reader is treated to sometimes overlapping stories told in two wonderfully distinct styles. Rose is given to introspection and secrecy.

Ruby's style is "tell-all" — frank and decidedly sweet. We learn of their early years as the town "freaks" and of Lovey's and Stash's determination to give them as normal an upbringing as possible. But when we meet them, both Lovey and Stash are dead, the girls have moved back into town, and they've received some ominous news. They are on the verge of becoming the oldest surviving craniopagus (joined at the head) twins in history, but the question of whether they'll live to celebrate their thirtieth birthday is suddenly impossible to answer. In *Rose and Ruby*, Lori Lansens has created two precious characters, each distinct and loveable in their very different ways, and has given them a world in Leaford that rings absolutely true. The girls are unforgettable. *The Girls* is nothing short of a tour de force.

relaxed rhythms of nature, and discovering the meaningful gift of growing slow. We long to make a break from the fast pace of life, but if we're honest, we're afraid of what we'll miss if we do. Yet when going big and hustling hard leaves us stressed, empty, and out of sorts, perhaps this can be our cue to step into a far more satisfying, sustainable pace. In this crafted, inspiring read, beloved author Jennifer Dukes Lee offers a path to unhurried living by returning to the rhythm of the land and learning the ancient art of Growing Slow. Jennifer was once at breaking point herself, and tells her story of rude awakening to the ways her chosen lifestyle of running hard, scaling fast, and the neverending chase for results was taking a toll on her body, heart, and soul. But when she finally gave herself permission to believe it takes time to grow good things, she found a new kind of freedom. With eloquent truths and vivid storytelling, Jennifer reflects on the lessons she learned from living on her

fifth-generation family farm and the insights she gathered from the purposeful yet never rushed life of Christ. Growing Slow charts a path out of the pressures of bigger, harder, faster, and into a more rooted way of living where the growth of good things is deep and lasting. Following the rhythms of the natural growing season, Growing Slow will help you: Find the true relief that comes when you stop running and start resting in Jesus Learn practices for unhurrying your heart and mind every day Let go of the pressure and embrace the small, good things already bearing fruit in your life And engage slow growth through reflection prompts and simple application steps

Ten Feet Tall Manohar Shetty 2015-11-03 Ever since Manohar Shetty published his first book of poems in 1985, his work has continued to be defined by clarity and precision. As these selected ten poems from his forthcoming book *Living Room* illustrate, Shetty, unlike most of his contemporaries, believes in a 'user-friendly' approach to poetry, avoiding any trace of wilful and fashionable obscurity. Even as his trademark animal imagery as in 'Survivor' and 'Praying Mantis' remains much in evidence, his work in recent years has branched off into wry and direct social comment and an engagement with the world around him with a touch of humour. As Arvind Krishna

Mehrotra once wrote on his work: 'A spare richness marked his work from the start and, over the decades, this hasn't changed' and his poetry is 'so naturally memorable that you don't need to consciously memorize it'.

[In Pursuit of Alaska](#) Jean Morgan Meaux 2013-07-28

This collection of Alaskan adventures begins with a newspaper article written by John Muir during his first visit to Alaska in 1879, when the sole U.S. government representative in all the territory's 586,412 square miles was a lone customs official in Sitka. It closes with accounts of the gold rush and the 1909 Alaska-Yukon-Pacific Exposition in Seattle. Jean Meaux has gathered a superb collection of articles and stories that captivated American readers when they were first published and that will continue to entertain us today. The authors range from Charles Hallock (the founder of

Forest and Stream, a precursor of Field and Stream) to New York society woman Mary Hitchcock, who traveled with china, silver, and a 2,800 square foot tent. After explorer Henry Allen wore out his boots, he marched barefoot as he continued mapping the Tanana River, and Episcopal Archdeacon Hudson Stuck mushed by dog sled in Arctic winters across a territory encompassing 250,000 miles of the northern interior. Although the United States acquired Alaska in 1867, it took more than a decade for American writers and explorers to focus attention on a territory so removed from their ordinary lives. These writers-adventurers, tourists, and gold seekers-would help define the nation's perception of Alaska and would contribute to an image of the state that persists today. This collection unearths early writings that offer a broad view of American encounters with Alaska accompanied by Meaux's lively and concise introductions. The present-day adventurer will

find much to inspire exploration, while students of the American West can gain new access to this valuable trove of pre-Gold Rush Alaska archives. For more information go to:
