Centerville, Fremont Jill M. Singleton 2011 The tale of Centerville, Fremont--part of the sprawling landscape of the southeast San Francisco Bay--begins with near forgotten histories such as the once sprawling grandeur of the Alviso rancho and the California 100, a battalion raised in Centerville for the Civil War. Centerville celebrates a sporting-mad past, centrally located on the "Way to San Jose" from Oakland on the long, straight stretch once famed for horse and then bicycle racing and later as a motor-touring destination on the early Route 17. By the 1890s, Centerville was home to Washington Union High School and the Centerville Athletic Club and began collecting trophies in football, rugby, baseball, and other sports. Fabled athletes of later eras include Wimbledon tennis queen Helen Wills Moody, football coach Bill Walsh, and hall of fame pitcher Dennis Eckersley.

Journal California. Legislature 1880

Centerville Richard Otto Wiegand 2019-07

Centerville is a personal venture into the author, Richard Weigand's past, based in Town Centerville in Manitowoc County, Wisconsin where he grew up. The book adds a powerful but fictitious love story. There is a time-travel to the mid-1800s and then to the year 2000.

Considerable information from the 1800s is included covering German culture, immigration stories, religious practices, political thought, clearing of forests, farming, early building construction, and various challenges and tragedies of the time. It was the author's intention to honor the contributions of his ancestors and their neighbors, and to illustrate their struggles settling in the New World. It is a reminder that what we have today was built upon the sacrifices and foundations established by those who came before us. The book is both informative and entertaining. Much of the book centers around the Wiegand farm, the author's home farm, established in 1848, and the immediate neighborhood. The farm, called the

Wagner farm in the book, is still owned by the family. The author maintains, "Although I have considerable knowledge of the history of the farm and the neighborhood, I had to use my imagination for many of the details in the narrative." Most of the events and some of the persons portrayed were either real or had some basis in reality. However, the names of people have been changed and the events have been obscured to provide confidentiality. The names of local businesses have been changed or omitted. Events have been altered to fit the narrative and the time period. Real place names are used, however. Those who want to know the exact history should contact the author or other local sources. Part One of the book details the main character's mission traveling from the present back in time to visit his ancestors in 1858. He planned to only stay for a few months. The mission becomes complicated and extended to a dozen years by the fact that he falls in love with Elsa, the Wagner maid. In Part Two of the

book, I bring Elsa to the present to renew our relationship and give her a chance to experience another, more-modern life, which she accepts. Elsa's recollections, comparisons of the past with the future, and commentary, in general, are valuable historical lessons. My hope is that this book will someday be made into a movie. A percentage of the net proceeds from the book and movie are to be used as a fundraiser for a library for Centreville Settlement Inc, a historical preservation organization in Town Centerville that I helped to establish in 1982. The library, mentioned near the end of the book, does not yet exist but is a dream of mine.

Centerville Paul Robert Hanna 2007-09

PREFACE. THE Author of this very practical treatise on Scotch Loch - Fishing desires clearly that it may be of use to all who had it. He does not pretend to have written anything new, but to have attempted to put what he has to say in as readable a form as possible. Everything in the way of the history and habits of fish has been studiously avoided, and technicalities have been used as sparingly as possible. The writing of this

book has afforded him pleasure in his leisure moments, and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general. This section is interleaved with blank sheets for the readers notes. The Author need hardly say that any suggestions addressed to the care of the publishers, will meet with consideration in a future edition. We do not pretend to write or enlarge upon a new subject. Much has been said and written-and well said and written too on the art of fishing but loch-fishing has been rather looked upon as a second-rate performance, and to dispel this idea is one of the objects for which this present treatise has been written. Far be it from us to say anything against fishing, lawfully practised in any form but many pent up in our large towns will bear us out when we say that, on the whole, a days loch-fishing is the most convenient. One great matter is, that the loch-fisher is depend- ent on nothing but enough

wind to curl the water, -and on a large loch it is very seldom that a dead calm prevails all day, - and can make his arrangements for a day, weeks beforehand whereas the stream- fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river, it is quite another matter to arrange for a days river-fishing, if one is looking forward to a holiday at a date some weeks ahead. Providence may favour the expectant angler with a good day, and the water in order but experience has taught most of us that the good days are in the minority, and that, as is the case with our rapid running streams, -such as many of our northern streams are, -the water is either too large or too small, unless, as previously remarked, you live near at hand, and can catch it at its best. A common belief in regard to loch-fishing is, that the tyro and the experienced angler have nearly the same chance in fishing, -the one from the stern and the other

from the bow of the same boat. Of all the absurd beliefs as to loch-fishing, this is one of the most absurd. Try it. Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy, or even a cast similar to those which a crack may be using and if he catches one for every three the other has, he may consider himself very lucky. Of course there are lochs where the fish are not abundant, and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught, and where each has a fair chance. Again, it is said that the boatman has as much to do with catching trout in a loch as the angler. Well, we dont deny that. In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream-fishing...
