Seeking the God Beyond J.P. Williams 2018-06-30 Apophatic theology, or negative theology, attempts to describe God, the Divine Good, by negation, to speak only in terms of what may not be said about the perfect goodness that is God. It is a way of coming to an understanding of who God is which has played a significant role across centuries of Christian tradition but is very often treated with suspicion by those engaging in theological study today. Seeking the God Beyond explores the difference a negative theological approach might make to our faith and practice and offers an introduction to this oft-misunderstood form of spirituality. Beginning by placing apophatic spirituality within its biblical roots, the book later considers the key pioneers of apophatic faith and a diverse range of thinkers including CS Lewis and Keats - to inform us in our negative theological journey.

The Soul's Slow Ripening Christine Valters Paintner 2018-09-07 What does God want for your life? Christine Valters Paintner, bestselling Catholic author and online abbess for Abbey of the Arts, uses reflections, stories, guided activities, prayer experiences, and a variety of creative arts to help you patiently and attentively listen to God's invitation. Everyone wants to understand God's will for their lives. Christine Valters Paintner shares one of the most ancient paths to understanding from her study of monasticism and immersion into Celtic spirituality while living in Ireland. The Celtic way, which Paintner distills into twelve practices, offers discernment that focuses on the environment rather than the intellectual focus present in other forms of discernment. It allows for what Paintner calls the "soul's slow ripening," coming into the fullness of our own sweetness before we pluck the fruit. Each chapter begins with a story of a particular Irish saint—some well-known like Patrick or Brigid, others less so, such as Ita and Ciaran—and then introduces a helpful practice for discernment that the saint's life illustrates. Paintner explores the call of dreams, the importance of thresholds, the practice of peregrination (wandering for the love of God), walking the rounds, learning by heart, soul friends, blessing each moment, and the wisdom of the landscape and the seasons. Readers are invited to explore these concepts through photography and writing. She invites us to contemplative walks with specific themes along with poetic writing prompts for expression. As you explore an alternate way of discerning a spiritual path—one which honors the moment-by-moment invitations and the soul's seasonal rhythms—you will discover that this book will help you become more aligned with creativity and wholeness.

In Seeking the Sacred, Stephanie Dowrick invites us to go beyond cultural divisions and religious dogma and to discover what makes our lives sacred, satisfying, and meaningful. Weaving personal stories—including her own—with an inspired vision

Seeking Faith Nathan Rutstein 2002 Many people express a need for spiritual fulfillment but are troubled, or at best put-off, by what is often and loosely called "organized" religion. This is especially true today, when once-venerated institutions and trusted public figures have become subjects of investigation, sources of disappointment, and worse. People fear becoming victims of crime and alter their daily lives to avoid it. Terrorism committed in the name of religion and political causes painfully reminds us of how human capacities can be turned with devastating results against ourselves. At times much of the world appears to be in a state of decay, and sources of spiritual strength seem scattered and elusive. Nathan Rutstein understands this. His book, Seeking Faith: Is Religion Really What You Think It Is? describes his personal search for purpose and meaning in life, a search that led him to the Baha'i Faith and its distinctive perspective on the past, its reassuring understanding of the present, and its confident vision of the future.

The Great Spiritual Migration Brian D. McLaren 2017-09-12 The Christian story, from Genesis until now, is fundamentally about people on the move—outgrowing old, broken religious systems and embracing new, more redemptive ways of life. It's time to move again. Brian McLaren, a leading voice in contemporary religion, argues that— notwithstanding the dire headlines about the demise of faith and drop in church attendance—Christian faith is not dying. Rather, it is embarking on a once-in-an-era spiritual shift. For millions, the journey has already begun. Drawing from his work as global activist, pastor, and public theologian, McLaren challenges readers to stop worrying, waiting, and indulging in nostalgia, and instead, to embrace the powerful new understandings that are reshaping the church. In The Great Spiritual Migration, he explores three profound shifts that define the change: • Spiritually, growing numbers of Christians are moving away from defining themselves by lists of beliefs and toward a way of life defined by love • Theologically, believers are increasingly rejecting the image of God as a violent Supreme Being and embracing the image of God as the renewing Spirit at work in our world for the common good • Missionally,

the faithful are identifying less with organized religion and more with organizing religion—spiritual activists dedicated to healing the planet, building peace, overcoming poverty and injustice, and collaborating with other faiths to ensure a better future for all of us With his trademark brilliance and compassion, McLaren invites readers to seize the moment and set out on the most significant spiritual pilgrimage of our time: to help Christianity become more Christian.

Seeking the Sacred with Psychoactive Substances [2 volumes] J. Harold Ellens 2014-10-28 Can drugs be used intelligently and responsibly to expand human consciousness and heighten spirituality? This two-volume work presents objective scientific information and personal stories aiming to answer the question. The first of its kind, this intriguing two-volume set objectively reports on and assesses this modern psycho-social movement in world culture: the constructive medical use of entheogens and related mind-altering substances. Covering the use of substances such as ayahuasca, cannabis, LSD, peyote, and psilocybin, the work seeks to illuminate the topic in a scholarly and scientific fashion so as to lift the typical division between those who are supporters of research and exploration of entheogens and those who are strongly opposed to any such experimentation altogether. The volumes address the history and use of mind-altering drugs in medical research and religious practice in the endeavor to expand and heighten spirituality and the sense of the divine, providing unbiased coverage of the relevant arguments and controversies regarding the subject matter. Chapters include examinations of how psychoactive agents are used to achieve altered states in Judaism, Christianity, Islam, and Buddhism as well as in the rituals of shamanism and other less widely known faiths. This highly readable work will appeal to everyone from high school students to seasoned professors, in both the secular world and in devoted church groups and religious colleges.

Seeking God in All Things William E. Reiser 2004 The practice of spiritual direction assumes a theology of the Holy Spirit, a theology of revelation and of the Church, and a theology of prayer. *Seeking God in All Things* explores each of these themes as the underpinnings of spiritual direction and examines what makes the Christian religious experience distinctive. Since not every experience of God bears a Christian imprint, William Reiser, SJ, asks whether and in what way a Christian might be able to assist someone who is not Christian in developing his or her interior life. This question looks beyond suggesting the concrete steps a person might take in initiating, nurturing, and solidifying a way of praying. It looks, rather, toward the fundamental issue of helping others as they discover and deepen their relationship to the mystery of God. Chapters are *It Is God Who Directs*, *"Imagining Divine Action in Human Lives*, *"Where Do Holy Desires Come From?* *"What's Distinctive About the Christian Religious Experience?* *"Further Elements of Christian Distinctiveness*, *"The Incarnation as a Starting Point for Spiritual Direction*, *"and "Should Christian Spirituality Move Beyond Jesus?" - William Reiser, SJ, PhD, is a professor of theology in the religious studies department at Holy Cross College, Worcester, Massachusetts. Over the past twelve years, he has also served as an associate staff member at the Center for Religious Development in Cambridge. He is the author of *Jesus in Solidarity with His People*, published by Liturgical Press. "*

Seeking Union with Spirit Fiona Gardner 2020-05-05 For over twenty years, Fiona has participated in facilitating the Meeting for Learning (a year-long program for spiritual nurture, designed to explore Spirit and Quaker ways), and lives with her partner in a small intentional community that has been a place of spiritual nurture and learning. She has worked as a social worker for many years and now as a university teacher, particularly in fostering critical reflection and spirituality for social workers and critical spirituality for pastoral care workers. A continuing challenge in her spiritual life has been how to integrate her spiritual being in all of these aspects of her life. In the 2010 Lecture, Fiona asks *Why seek to live life in union with Spirit?* Such a life, in my experience and that of many others, is a fuller, richer, meaning filled and deeper life, connected to that which is eternal. It means moving from what is often called the divided life, beyond opposing forces to a place of wholeness, to integrating all of who we are in all that we do. To do this means holding together these opposites.

The Spiritual Life Jean Nicolas Grou 2002 We found this lost classic among the cherished works that French Catholics risked everything to save when the Church was under attack -- in the frenzied days of the French Revolution and its aftermath. French Catholics valued this book as a tough, uncompromising handbook on how to deal with the obligations and problems of the spiritual life. It teaches you what you need to know and to do when the comforts and supports of life have been swept away. Our times are not so far removed from the Godless irrationality that swept across France in Fr. Grou's day. That's why, in our own tumultuous age, The Spiritual Life is so desperately needed. It's the one guide that offers you real help to navigate the treacherous spiritual waters of today's world, and to keep the Faith

Seeking Community William Mahler 2021-12-01 The title Seeking Community: A Spiritual Journey came to me almost before I knew what the content of the writing would be. You could say that this writing was created around the title, as my eighty-year life journey has made me become more aware of the importance of the friendships and relationships that are made with everything. Each of these relationships constitutes or creates a community unto itself. Most of us spend our entire life looking for and modifying our relationships and communities in accordance with our life needs as those needs change throughout life. The motivation for the creation of any relationship is the need to belong. The connection that is then made is spiritual, meaning that it is about the feeling of belonging, the creation of the friendship, the connection that is of importance, whether those relationships are with people, animals, things, or with the world around us. It is the connection itself that is spiritual, not the entity. The realization that all feelings, good or bad, are spiritual, which is the essence of this writing. Without the connections made through community, there would be no evolution, which is growth and/or change, because there would be no entity to share that which has been learned with. This is the scenario for all species, not just man.

Spirituality Seeking Theology Roger Haight 2014 Many religious seekers in our time do not understand church doctrines or fail to see the bearing of such doctrines on their immediate lives. For such people, Christian spirituality can offer a more pertinent and fulfilling avenue toward faith. In treating the Christian story of creation, the life of Jesus, the history of the church, eschatology and more, Roger Haight suggests ways in which spirituality-the cultivation of a relationship with the transcendent-can lead spiritual seekers to open-ended questions of theology. Seeking the Spiritual Townsend Ludington 1998 Marsden Hartley (1877-1943) was a writer and a spiritual seeker, as well as a distinguished American painter. In his introduction to this generously illustrated volume, Townsend Ludington explores the relationships among Hartley's art, poetry, and essays. He traces the philosophical and literary sources that nourished the artist's evolving spiritual consciousness. Raised in Lewiston, Maine, Hartley felt at odds with life. A voracious reader, he educated himself and became enamored of the transcendentalists Ralph Waldo Emerson and Henry David Thoreau, and, particularly, of Walt Whitman. He began spending winters in New York City where he met and was befriended by Alfred Stieglitz. He visited Europe but remained restless for the right physical environment. Eventually returning to New England, Hartley painted in Dogtown, Massachusetts, in the low hills behind the port of Gloucester, and the stark landscape there stimulated some of his most famous paintings. Throughout his career, Hartley painted landscapes and seascapes in which he tried to convey his sense of the wonder of earth, at the same time attempting to articulate the spiritual awareness that came to him in the "magic of dreams." Consciously representative of modernism, Hartley strove to express, as Wallace Stevens said, "not ideas about the thing but the thing itself." He believed that the acts of reading, writing, and painting gave significance to the world accessible to his senses. This book is published with the cooperation of the Ackland Museum in Chapel Hill, North Carolina, and the Babcock Galleries in New York City.
