The Return of the River A. Kyce Bello 2010 The Santa Fe River in Santa Fe, New Mexico was named Most Endangered River in America in 2007. This richly illustrated collection is a literary response to that designation, a work that "re-stories" the river, bringing it back to life in the hearts and minds of the Santa Fe community. It's no secret that the river—a dry wasteland for most of the year—is imperiled. Less well known is the real story of the Santa Fe River, its remarkable history, and how it can be saved. The Return of the River includes the words of writers and poets, historians, artists, and ecologists who eloquently and passionately celebrate a living river. The result is a convergence of landscape, community, and creativity that recognizes the interdependence of all three. In a time when the planet faces unparalleled threats, The Return of the River is a testament to the belief that the most damaged places can be healed, and that ordinary voices can be the agent of that change. The book includes a foreword by David Coss, Mayor of Santa Fe at the time of the publication of this book, and contributions from Jack Loeffler, Valerie Martínez, Frances Levine, Arthur Sze, Luci Tapahonso, Miriam Sagan, Fernando Garavito, Melinda Romero Pike, George Johnson, David Groenfeldt, and twenty-four others.

The Fraternity of the Stone David Morrell 2011-11-11 Drew MacLane is a star agent in Scalpel, an organization named for its purpose: precise surgical removal. Assassination. Then MacLane decides to stop killing. He withdraws and retreats to a monastery, where for six years he lives the life of a hermit. But then someone tracks him down, leaving a trail of bodies. Someone who knows all about him - and will stop at nothing to destroy him. Less From acclaimed Thriller Master, David Morrell, comes a classic espionage tale that changed the genre, paving the way for the historical/religious thrillers of Dan Brown, Steve Berry, and James Rollins. In a remote monastery in Vermont, a mysterious man has spent six years alone in a cell, doing penance for unnamed sins that he committed for his government. His only human contact is the hand that delivers his spartan meals through a slot in his door. He allows himself only one small pleasure, the companionship of a mouse. When the mouse dies, nibbling bread, a terrible suspicion makes him finally leave his sanctuary and confront the ruthless enemies that he prayed he had left behind. Beginning with the Crusades and the origin of the word "assassin," *THE FRATERNITY OF THE STONE* was the first novel to deal with Opus Dei, the Vatican's civilian intelligence community. If you like to read about ancient conspiracies that threaten the modern world, this is where the genre began.

Why I Won't Be Going To Lunch Anymore

Douglas Atwill 2011-07-25 Outsiders seldom understand the curious amalgam of artists, galleries, misfits and hangers-on known as the Santa Fe Art Scene. In this collection of stories, we witness a group of Santa Fe painters confronting their art and life in creative ways, solving the ages-old problems of painting the perfect canvas, making that obstinate muse smile. Julia Brownell is a patrician beauty whose exhibition of gold-leafed paintings sells out on its opening night and creates an envious discord among her peers. As Parsley Tiddle approaches the end of his creative life, he will not give up his randy ways, to the delight of his younger friends and the wrath of his socialite sister. The narrator of the title story jeopardizes his friendship with Donald Strether, a painter of small abstractions and a devoted rascal, by his disclosures to the

guests at a summer luncheon party in the foothills. Robert Fenwick, a New Mexico plein air painter of note, discovers that a commission for landscapes of the Barbados cane fields is a more upside-down proposition than he bargained for. There is a keen sense of irony and suitable punishment for the crime in Atwill's stories, light-hearted views of the obstacles and the ever-present challenges to making a living from art. Several of the stories are concerned with goings-on in the studio of Alabaster Prynne, a wellborn, Philadelphia spinster, now in spattered coveralls, who befriends artists fresh from school and offers them her encouragement and cautions. The sprawling compound of adobe studios called Casa Marchmont is the setting for a tale of earnest, untried artists as they find out that all is not what it appears in the estate of Victor Marchmont, a brilliant landscape painter from the early years. Each story contains the secret to a Santa Fe painter, facing craft and life, and how he or she confounds the conventional view of what it is to be an artist. DOUGLAS ATWILL was born in Pasadena, California, earned a BA from the University of Texas at Austin and he served in the Army Counterintelligence Corps. After a long sojourn on a Piedmont cattle farm in Virginia and on the move throughout Europe, he settled in Santa Fe to pursue painting full-time. From a studio on Canyon Road, he paints landscapes and paintings of his own gardens. His work is shown in galleries throughout the West. Atwill's avocation of restoring adobe houses and building them anew has earned him a reputation for excellence in taste and design, and his houses have been featured in many magazines and books. This is his first collection of short stories.

Robert Oppenheimer where the world's best scientists raced to invent the atomic bomb and win World War II. In 1943, J. Robert Oppenheimer, the brilliant, charismatic head of the Manhattan Project, recruited scientists to live as virtual prisoners of the U.S. government at Los Alamos, a barren mesa thirty-five miles outside Santa Fe, New Mexico. Thousands of men, women, and children spent the war years sequestered in this top-secret military facility. They lied to friends and family about where they were going and what they were doing, and then disappeared into the desert. Through the eyes of a young Santa Fe widow who was one of Oppenheimer's first recruits, we see how, for all his flaws, he developed into an inspiring leader and motivated all those involved in the Los Alamos project to make a supreme effort and achieve the unthinkable.

The Secret Cemetery Doris Francis 2020-07-12 Burial sites have long been recognized as a way to understand past civilizations. Yet, the meanings of our present day cemeteries have been virtually ignored, even though they reveal much about our cultures. Exploring an extraordinarily diverse range of memorial practice - Greek Orthodox, Muslim, Jewish, Roman Catholic and Anglican, as well as the unchurched - *The Secret Cemetery* is an intriguing study of what these places of death mean to the living. Most of us experience cemeteries at a ritualized moment of loss. What we forget is that these are often places to which we return either as a general space in which to contemplate or as a specific site to be tended. These are also places where different communities can reinforce boundaries and even recreate a sense of homeland. Over time, ritual, artefact and place shape an intensely personal landscape of memory and mourning, a landscape more alive, more actively engaged with than many of the other places we inhabit.

The Garden in the Machine Scott MacDonald 2001-12-18 "This book is MacDonald's magnum opus: it represents a deep immersion in and advocacy for independent, experimental cinema."—Patricia R. Zimmerman, author of *States of Emergency: Documentaries, Wars, Democracies* "This is a brilliant study—learned, authoritative, and often eloquent. One reads this book with astonishment at the wealth of

thoughtful and playful and provocative work that has occurred in this medium—and astonishment too that most scholars of environmental literature and nature in the visual arts have had minimal contact with independent film and video. MacDonald provides an immensely valuable, readable overview of this field, profoundly relevant to my own work and that of many other contemporary ecocritics."—Scott Slovic, editor of *ISLE: Interdisciplinary Studies in Literature and Environment* "The Garden in the Machine is clearly MacDonald's major work. It is very original and wide reaching especially in its analysis of the relationship of American avant-garde films to the poetry and painting of the native landscape. MacDonald's authority is evident everywhere: he probably knows more about most of the films he discusses than anyone alive."—P. Adams Sitney, author of *Modernist Montage : The Obscurity of Vision in Cinema and Literature* "The Garden in the Machine reflects Scott MacDonald's career-long lived engagement with avant-garde film and filmmakers. With deep respect for the artists and a rich, wide-ranging curiosity about the cultural histories that inform these films, MacDonald makes a powerful argument for why they should be screened, taught, and discussed within the wider context of American Studies. Throughout, MacDonald analyzes themes of race, history, personal and public memory, and the central role of avant-garde films in shaping our possible futures."—Angela Miller, author of *Empire of the Eye: Landscape Representation and American Cultural Politics, 1825-1875*

Santa Fe David Grant Noble 2008 "In 2010, Santa Fe officially turns 400 - four centuries of a rich and contentious history of Indian, Spanish, and American interactions. Pueblo Indians settled along the banks of the Rio Santa Fe as long ago as the sixth century C.E. By 1610, Spanish colonists had established the town as a distant outpost in Spain's expanding empire. Drawing on recent archaeological discoveries and historical research, this updated edition of a classic history details the town's founding, its survival through revolt and reconquest, its turbulent politics, its lively trade with Mexico and the United States, and the lives of its most important citizens, from the governors Peralta, Vargas, and Armijo to the madam dona Tules. The origins and transformations of the very building blocks of Santa Fe, from the iconic Palace of the Governors to the city's acequia irrigation system, are revealed in these pages."--BOOK JACKET.

Midnight in the Garden of Good and Evil

John Berendt 2010-05-12 NATIONAL

BESTSELLER • An enormously engaging portrait of a most beguiling Southern city: "Elegant and wicked.... [This] might be the first true-crime book that makes the reader want to book a bed and breakfast for an extended weekend at the scene of the crime." —The New York Times Book Review Shots rang out in Savannah's grandest mansion in the misty, early morning hours of May 2, 1981. Was it murder or self-defense? For nearly a decade, the shooting and its aftermath reverberated throughout this hauntingly beautiful city of moss-hung oaks and shaded squares. John Berendt's sharply observed, suspenseful, and witty narrative reads like a thoroughly engrossing novel, and yet it is a work of nonfiction. Berendt skillfully interweaves a hugely entertaining first-person account of life in this isolated remnant of the Old South with the unpredictable twists and turns of a landmark murder case. It is a spellbinding story peopled by a gallery of remarkable characters: the well-bred society ladies of the Married Woman's Card Club; the turbulent young redneck gigolo; the hapless recluse who owns a bottle of poison so powerful it could kill every man, woman, and child in Savannah; the aging and profane Southern belle who is the "soul of pampered self-absorption"; the uproariously funny black drag queen; the acerbic and arrogant antiques dealer; the sweet-talking, piano-playing con artist; young blacks dancing the minuet at the black debutante ball; and Minerva, the voodoo priestess who works her magic in the graveyard at midnight. These and other Savannahians act as a Greek chorus, with Berendt revealing the alliances, hostilities, and intrigues that thrive in a town where everyone knows everyone else. *Midnight in the Garden of Good and Evil* is a sublime and seductive reading experience. Brilliantly conceived and masterfully written,

this true-crime book has become a modern classic.

Women Writing Nature Barbara J. Cook 2008 *Women Writing Nature* addresses the question, Do women write about nature differently? In the process, the collection considers women's writings about the natural world in light of recent and current feminist and ecofeminist theory.
