[A Defense of the Given](#) Evan Fales 1996 What is the connection between experience and knowledge? Evan Fales defends the contested idea that sense experience can be used to justify basic beliefs. He

explores what it is for a belief to be self-evident and examines implications for his argument of Gestalt psychology and visual phenomena and illusions. Fales diverges from classical foundationalism, however, arguing that basic

beliefs are often only probable, rather than infallible. A Defense of the Given is an important work not only for epistemologists but for all philosophers interested in how we can justify our beliefs.

**Seeking the Sydney** Glenys McDonald 2005 The wartime loss of Australia's pride, HMAS Sydney, with all hands on board, remains among the great riddles of modern maritime history. One that has teased authorities, naval experts and researchers for more than six decades. Ablaze, crippled and doomed, the cruiser vanished off the West Australian coast in November 1941, leaving not just profound unanswered questions, but

grieving families and a nation mourning such wholesale loss of life. For author Glenys McDonald, Sydney's final voyage and its ill-fated clash with the German raider Kormoran herald a personal quest that will take many unexpected turns. Seeking the Sydney is her detailed account of how a chance brush with the past turns to deepening obsession and how an unschooled novice takes on an entrenched establishment in a bid to help families of the 645 lost sailors win closure. McDonald's struggle to piece together a labyrinth of facts, theories and, in many cases, elusive false trails makes for compelling reading in this densely woven account.

**True Self** Stephen Cope

2018-04-17 More than 100,000 copies sold! Millions of Americans know yoga as a superb form of exercise and as

a potent source of calm in the midst of our stress-filled lives. Far fewer are aware of the full promise of yoga as "the way of the fully alive human being"--a 4,000-year-old practical path of liberation that fits the needs of modern Western seekers with startling precision. Now one of America's leading scholars of yoga psychology--who is also a Western-trained psychotherapist--offers this marvelously lively and personal account of an ancient tradition that promises "the soul awake in this lifetime." Drawing on the vivid stories of practitioners at the largest yoga center in America, where he has lived and taught for more than ten years, Stephen Cope describes the philosophy, psychology, and practice of yoga--a practical science of development that urges us not to transcend or dissolve the self, but rather to encounter it more deeply. In this irreverent modern-day Pilgrim's Progress, Cope introduces us to an unforgettable cast of contemporary seekers--on the road to enlightenment carrying

all the baggage of the human condition: confusion, loss, disappointment, addiction, and the eternal conflicts around sex and relationship. As he describes the subtle shifts of energy and consciousness that happen at each stage of the path, we discover that in yoga, "liberation" does not require us to leave life in the world for some transcendent spiritual plane. Life itself is the path. Above all, Cope shows how yoga can heal the suffering of self-estrangement that pervades our society, leading us to a new sense of purpose and to a deeper, more satisfying life in the world.

**HMAS Sydney** Tom Frame  
2012-06-01 The complete and authoritative account of the sinking of the HMAS Sydney, and the recent finding of her wreck. On 19 November 1941, the pride of the Australian Navy, the light cruiser Sydney, fought a close-quarters battle with the German armed raider HSK Kormoran off Carnarvon on the West Australian coast. Both ships sank ? and not one of the 645 men on board the

Sydney survived. Was Sydney's captain guilty of negligence by allowing his ship to manoeuvre within range of Kormoran's guns? Did the Germans feign surrender before firing a torpedo at the Sydney as she prepared to despatch a boarding party? This updated edition covers the recent discovery of the wreck with the light this sheds on the events of that day 67 years ago, and the closure it has brought to so many grieving families. Tom Frame has produced the most comprehensive and compelling account of the loss of HMAS Sydney to date. His judgements are fair and his conclusions reasoned. If you only read one book on this tragic event in Australian naval history, and want all the facts and theories presented in a balanced way, Tom Frame's book is for you. - Vice Admiral Russ Shalders AO CSC RANR Chief of Navy, 2005-08.

In *Truth and Conviction*, Jane McMillan - Marshall's former partner, an acclaimed anthropologist, and an original defendant in the Supreme Court's Marshall decision - tells the story of how Marshall's life-long battle against injustice permeated Canadian legal consciousness and revitalized Indigenous law. Marshall died in 2009, but his legacy lives on. The Harp in the South Trilogy Ruth Park 2009 'Ruth Park . . . that steady glow at the heart of Australian literature.' Ruth Cracknell Three of Ruth Park's best loved books - Missus, The

Harp in the South and Poor Man's Orange - are brought together in this volume, tracing the saga of the Darcy family over thirty years. The story has its beginnings in the awkward courtship of dreamily innocent Margaret Kilker and unwilling hero Hugh Darcy in the dusty country towns of rural Australia. After their marriage, the couple moves to Sydney and raises a family amid the brothels, grog shops and run-down boarding houses of inner-city Surry Hills, where money is scarce and life is not easy. Here their daughter Roie grows up all too quickly, while younger daughter Dolour tries to make sense of a world in which loss and love go hand in hand. Filled with beautifully drawn characters that will make you laugh as much as cry, Ruth Park's Australian classics take you from the barren landscapes of the outback to the colourful slums of Sydney with convincing depth, careful detail and great heart.

2009-11-12 This book fills an important gap in the literature of modern warfare by focusing on random elements in warfare often overlooked in both the planning and execution of military operations—factors that can turn certain success into devastating failure. By definition, the unforeseeable cannot be seen, but one way to bring more variables under consideration when planning a military action is to review

those instances where the unforeseeable changed everything. For professionals and enthusiasts alike, *Imponderable But Not Inevitable: Warfare in the 20th Century* does just that, reviewing specific instances in 20th-century warfare when things did not go according to plan. *Imponderable but Not Inevitable* uses case studies to expose the "Inevitability Syndrome," exploring the role of luck, fate, and randomness in influencing both victory and defeat. In essays drawn from World War II, Konfrontasi, the Vietnam War, and the Gulf War, a distinguished set of military experts looks at real scenarios of inexplicable losses, illustrating why nothing—nothing—should be taken for granted in war.

*Super Girls and Halos* Maria Morera Johnson 2017-09-08 Winner of a 2018 Catholic Press Association Award: Gender Issues. (Second Place). Award-winning author Maria Morera Johnson follows up her bestselling book, *My Badass Book of Saints*, with a unique and daring exploration of the cardinal virtues through the saints and heroines of science fiction, fantasy, and comic books. Johnson will reignite

your passion for your faith as she demonstrates the heroic in the sometimes mundane quest for good and reminds us that Catholicism is filled with adventure. What do Wonder Woman and St. Katharine Drexel have in common? How about St. Clare of Assisi and Rey, the ingénue from *Star Wars: The Force Awakens*? All four women sought justice for the abused. With the same zest for her faith and cheeky wit that readers found so compelling in *My Badass Book of Saints* and a love for the heroic journey that highlights her career, Johnson now focuses on

heroines—improbable pairings of saints and characters from sci-fi, comics, and fantasy—who have influenced her life and deepened her understanding of the Church’s cardinal virtues: prudence, temperance, fortitude, and justice. Johnson tells her own story alongside the unlikely pairs to show how the cardinal virtues are at play in our lives as well: Prudence (judgment of right and wrong), which influences Marvel’s

### **Grounding Our Faith in a Pluralist World** John P.

Keenan 2009-01-01 This book draws upon the Mahayana philosophy developed within Buddhism, employing it as a means to empty our usual alternatives for viewing the

world's many religions-- whether exclusivism, inclusivism, or pluralism. The aim is to free people from clinging to intellectual positions, enabling them gently but committedly to affirm their vernacular tradition as it is practiced on the ground. It critiques the above three options, and introduces the Mahayana philosophy of emptiness and dependent arising, along with its distinction between ultimate truth and conventional truth. It then applies this philosophy to an urgent question that bedevils modern people: how to practice one's chosen faith in the awareness of many other honored and attractive paths, both elegant and efficacious.

*Lighting Dark Places* Sue Kossew 2011 This is the first published collection of critical essays on the work of Kate Grenville, one of Australia's most important contemporary writers. Grenville has been acclaimed for her novels, winning numerous national and international prizes including the Orange Prize for Fiction and the Commonwealth Writers' Prize. Her novels are marked by sharp observations of outsider figures who are often under pressure to conform to society's norms. More recently, she has written novels set in Australia's past, revisiting and re-imagining colonial encounters between settlers

and Indigenous Australians. This collection of essays includes a scholarly introduction and three new essays that reflect on Grenville's work in relation to her approach to feminism, her role as public intellectual and her books on writing. The other nine essays provide analyses of each of her novels published to date, from the early success of *Lilian's Story* and *Dreamhouse* to the most recently published novel, *The Lieutenant*. Her work has been the subject of some debate and this is reflected in a number of the essays published here, most particularly with regard to her most successful novel to date, *The Secret River*. This intellectual engagement with important contemporary issues is a mark of Grenville's fiction, a testament to her own analysis of the vital role of writers in uncertain times. She has suggested that our writers have ways of going into the darkest places, taking readers with them and coming out safely. This volume attests

to GrenvilleOCO's own significance as a writer in a time of change and to the value of her novels as indices of that change and in OC lighting dark places.OCO"

*Patrick White Centenary* Bill Ashcroft 2014-08-20 This volume marks the birth centenary of a giant amongst contemporary writers: the Australian Nobel prize-winning novelist, Patrick White (1912–1990). It proffers an invaluable insight into the current state of White studies through commentaries drawn from an international galaxy of eminent critics, as well as from newer talents. The book proves that interest in White's work continues to grow and diversify. Every essay offers a new insight: some are re-evaluations by seasoned critics who revise earlier positions significantly; others admit new light onto what has seemed like

well-trodden terrain or focus on works perhaps undervalued in the past—his poetry, an early short story or novel—which are now subjected to fresh attention. His posthumous work has also won attention from prominent critics. New comparisons with other international writers have been drawn in terms of subject matter, themes and philosophy. The expansion of critical attention into fields like photography and film opens new possibilities for enhancing further appreciation of his work. White's interest in public issues such as the treatment of Australia's Indigenous peoples, human rights and Australian nationalism is refracted through the inclusion of relevant commentaries from notable contributors. For the first time in Australian literary history, Indigenous scholars have participated in a celebration of the work of a white Australian writer. All of this highlights a new direction in White studies—the appreciation of his stature as a public intellectual. The book

"It took me a long time and most of the world to learn what I know about love and fate and the choices we make, but the heart of it came to me in an instant, while I was chained to a wall and being tortured." An escaped convict with a false passport, Lin flees maximum

security prison in Australia for the teeming streets of Bombay, where he can disappear. Accompanied by his guide and faithful friend, Prabaker, the two enter the city's hidden society of beggars and gangsters, prostitutes and holy men, soldiers and actors, and Indians and exiles from other countries, who seek in this remarkable place what they cannot find elsewhere. As a hunted man without a home, family, or identity, Lin searches for love and meaning while running a clinic in one of the city's poorest slums, and serving his apprenticeship in the dark arts of the Bombay mafia. The search leads him to war, prison torture, murder, and a series of enigmatic and bloody betrayals. The keys to unlock the mysteries and intrigues that bind Lin are held by two people. The first is Khader Khan: mafia godfather, criminal-philosopher-saint, and mentor to Lin in the underworld of the Golden City. The second is Karla: elusive, dangerous, and beautiful, whose passions are driven by
