Language Development U N Singh Translation

as Growth: Towards a Theory of Language
Development useful for students and scholars of
literature, comparative literature and linguistics,
and translators, argues that translation, like
authoring, is a creative act enriching both the
original and translated language. It discusses
the development of major modern Indian
languages through 'vertical' translations from
the languages of power and knowledge, English
and Sanskrit as well as by engaging in
'horizontal' translations of one another,
ultimately creating a pluralistic body of
literature in India.

The Postcolonial Unconscious Neil Lazarus
2011-06-30 The Postcolonial Unconscious is a
major attempt to reconstruct the whole field of
postcolonial studies. In this magisterial and, at
times, polemical study, Neil Lazarus argues that
the key critical concepts that form the very
foundation of the field need to be re-assessed
and questioned. Drawing on a vast range of
literary sources, Lazarus investigates works and
authors from Latin America and the Caribbean,
Africa and the Arab world, South, Southeast and
East Asia, to reconsider them from a postcolonial
perspective. Alongside this, he offers bold new
readings of some of the most influential figures
in the field: Fredric Jameson, Edward Said and
Frantz Fanon. A tour de force of postcolonial
studies, this book will set the agenda for the
future, probing how the field has come to
develop in the directions it has and why and how
it can grow further.

Orientalism and the Postcolonial Predicament

Carol A. Breckenridge 1993 This book explores
the ways in which colonial administrators
constructed knowledge about the society and
culture of India and the processes through which
that knowledge has shaped past and present
Indian reality.

Encyclopedia of Literary Modernism Paul
Poplawski 2003-12-30 Modernism is still widely
acknowledged as perhaps the most important
and influential artistic and cultural phenomenon
of the 20th century. Written by expert scholars
from around the world and covering hundreds of
different topics in a clear, incisive, and critical

manner, this reference maps the complex field of modernism in a fresh and original way. The principal focus of the book is on English-language literary modernism and the period 1890-1939, yet many entries extend beyond those parameters to include important precursors and successors of the movement. The book also covers the crucial European and interdisciplinary dimensions of modernism and provides complementary comparative perspectives from countries and regions not usually included in traditional accounts of the subject. Entries cite works for further reading, and the volume closes with a selected, general bibliography.

Literary Representations of Pandemics, Epidemics and Pestilence Nishi Pulugurtha 2022-12-23 Disease, pestilence and contagion have been an integral component of human lives and stories. This book explores the articulations and representations of the vulnerability of life or the trauma of death in literature about epidemics both from India and around the world. This book critically engages with stories and narratives that have dealt with pandemics or epidemics in the past and in contemporary times to see how these texts present human life coming to terms with upheaval, fear and uncertainty. Set in various places and times, the literature examined in this book explores the themes of human suffering and resilience, inequality, corruption, the ruin of civilizations and the rituals of grief and remembrance. The chapters in this volume cover a wide spatio-temporal trajectory analysing the writings of Fakir Mohan Senapati and Suryakant Tripathi Nirala, Jack London, Albert Camus, Margaret Atwood, Sarat Chand, Pandita Ramabai and Christina Sweeney-Baird, among others. It gives readers a glimpse into both grounded and fantastical realities where disease and death clash with human psychology and where philosophy, politics and social values are critiqued and problematized. This book will be of interest to students of English literature, social science, gender studies, cultural studies, psychology, society, politics and philosophy. General readers too will find this exciting as it covers authors from across the world.
