All About the Klondyke Gold Mines (Classic Reprint) J. Armoyn Knox 2018-02-07 Excerpt from All About the Klondyke Gold Mines Since the dawn of history man has attached to gold a value greater than that of any of the metals. Indeed, the value of every product of Mother Earth, of the fields, the forest or the mine has been fixed by its worth in gold. Hence the quest of gold has inspired mankind to acts of heroism, to a search for knowledge, and to a resignation to hardship and privation that have given to the explorer and prospector a character scarcely second to that of the heroes of the battlefield or the leaders of the world's senates. The history of the human race, even the record of the discovery of continents, is largely a history of the search for the yellow treasure in its hiding places in the earth or among the elements of Nature. Columbus' voyage, which gave to the world America, with its California and now its

Klondyke, was but a search for gold. Chemistry is only the offspring of alchemy, and while adventurous spirits were daring the main, suffering the torments of the tropics and the gloom of the wilderness, the but and the cave of the hermit - man's first laboratories - were the scene of other labors and privations, and all in the search for gold, gold, whether in the ground, the water or the air. - But it has remained to our own day to witness this quest extended to the region of eternal snow and rewarded among the glacial mountains of the frozen North. Ming had fallen asleep looking at the stars. He woke up to a dark gray sky. There were no stars in sight. Sheets of water fell from the sky. The wind howled. The junk pitched wildly. Men were rushing around to take down the sails. Water splashed everywhere. At times, it felt like the junk might tear apart. Ming's father grabbed Ming. He held him tightly. But Ming wasn't afraid. "Don't worry," his father said. "If the junk tips over," Ming said, "some of the barrels will float. We can hop on barrels and ride them to Gold Mountain."

Emigrant Gulch Doris Whithorn 2002 In 1864, an Oregon Trail wagon train of pioneers from Pennsylvania and Iowa found their way to Emigrant Gulch and Park County in search of gold. The first settlers staked 200-foot claims at the mouth of the Gulch, in what had been called the Curry District. One of the oldest mining districts in Park County, the history of the area is reproduced here in almost 200 vintage photographs, and captures America's fascination with the development of the Wild West. Park County, so named due to its proximity to Yellowstone Park, was established in 1887. Placer gold was discovered in the Gulch in 1864, and with this discovery came miners and prospectors from all over the country, ultimately resulting in the development of Yellowstone City and other communities. While open hostilities with the native Crow Indians in the region would eventually dissuade continual mining in the region, many stayed to populate the area. Pictured here are the miners, residents, businesses, street scenes, and social activities that made Park County what it is today.

The Age of Gold H. W. Brands 2008-12-10 From the two-time Pulitzer Prize finalist, bestselling historian, and author of *Our First Civil War*—the epic story of the California Gold Rush, “a fine, robust telling of one of the greatest adventure stories in history” (David McCullough, Pulitzer Prize-winning author of *John Adams*). The California Gold Rush inspired a new American dream—the “dream of instant wealth, won by audacity and good luck.” The discovery of gold on the American River in 1848 triggered the most astonishing mass movement of peoples since the Crusades. It drew fortune-seekers from the ends of the earth, accelerated America’s imperial expansion, and exacerbated the tensions that exploded in the Civil War. H.W. Brands tells his epic story from multiple perspectives: of adventurers John and Jessie Fremont, entrepreneur Leland Stanford, and the wry observer Samuel Clemens—side by side with prospectors, soldiers, and scoundrels. He imparts a visceral sense of the distances they traveled, the suffering they endured, and the fortunes they made and lost. Impressive in its scholarship and overflowing with life, *The Age of Gold* is history in the grand traditions of Stephen Ambrose and David McCullough.

Slumach's Gold Rick Antonson 2007 Slumach's Gold chronicles what is possibly Canada's greatest lost-mine story. It searches out the truth behind a Salish man's hanging for murder in 1891 and tracks the intriguing legend about him that grew after his death. It was a legend that turned into a drama of international fascination when Slumach—the hanged criminal—was mysteriously linked to gold nuggets "the size of walnuts." The stories claimed that Slumach had placed a curse on a hidden motherlode to protect it from interlopers and trespassers just before he plunged to his death "at the wrong end of a five-strand rope." Although many have attempted to find Slumach's gold over the past 100 years, following tantalizing clues that are part of the legend itself, none have succeeded—or have they? Rick Antonson, Mary Trainer and Brian Antonson have diligently sifted through history and myth, separating fact from fiction, but leaving the legend intact—along with the promise of gold yet to be found by some future gold seeker.
