A New History of

Management Stephen Cummings 2017-09-19 Existing narratives about how we should organize are built upon, and reinforce, a concept of 'good management' derived

The Sinking Of The Eastland Americas Forgotten Tragedy

from what is assumed to be a fundamental need to increase efficiency. But this assumption is based on a presentist, monocultural, and generally limited view of management's past. A New History of Management disputes these foundations. By reassessing conventional perspectives on past management theories and providing a new critical outline of present-day management, it highlights alternative conceptions of 'good management' focused on ethical aims, sustainability, and alternative views of good practice. From this new historical perspective, existing assumptions can be countered and simplistic views disputed, offering a platform from which graduate students, researchers, and reflective practitioners can develop alternative approaches for managing and organizing in the twenty-first century. *Ship Ablaze* Ed O'Donnell 2008-12-30 The true story of one of the greatest tragedies in New York history On June 15, 1904, the steamship General

Slocum was heading from Manhattan to Long Island Sound when a fire erupted in one of the storage rooms. Faced with an untrained crew, crumbling life jackets, and inaccessible lifeboats, hundreds of terrified passengers--few of which were experienced swimmers--fled into the water. By the time the captain found a safe shore for landing, more than 1000 people had perished. It was New York's deadliest tragedy prior to September 11, 2001. The only book available on this compelling chapter in the city's history, *Ship Ablaze* draws on firsthand accounts to examine why the death toll was so high, how the city responded, and why this event failed to achieve the infamy of the Titanic's 1912 demise or the 1911 Triangle Shirtwaist Factory fire. Masterfully capturing both the horror of the event and heroism of men, women, and children aboard the ship as the inferno spread, historian Edward T. O'Donnell brings to life a bygone community while honoring the victims of that

forgotten day.

Sinkable Daniel Stone

2022-08-16 From the national bestselling author of *The Food Explorer*, a fascinating and rollicking plunge into the story of the world's most famous shipwreck, the RMS Titanic. On a frigid April night in 1912, the world's largest—and soon most famous—ocean liner struck an iceberg and slipped beneath the waves. She had scarcely disappeared before her new journey began, a seemingly limitless odyssey through the world's fixation with her every tragic detail. Plans to find and raise the Titanic began almost immediately. Yet seven decades passed before it was found. Why? And of some three million shipwrecks that litter the ocean floor, why is the world still so fascinated with this one? In *Sinkable*, Daniel Stone spins a fascinating tale of history, science, and obsession, uncovering the untold story of the Titanic not as a ship but as a shipwreck. He explores generations of eccentrics, like American Charles Smith, whose 1914

recovery plan using a synchronized armada of ships bearing electromagnets was complex, convincing, and utterly impossible; Jack Grimm, a Texas oil magnate who fruitlessly dropped a fortune to find the wreck after failing to find Noah's Ark; and the British Doug Woolley, a former pantyhose factory worker who has claimed, since the 1960s, to be the true owner of the Titanic wreckage. Along the way, *Sinkable* takes readers through the two miles of ocean water in which the Titanic sank, showing how the ship broke apart and why, and delves into the odd history of our understanding of such depths. Author Daniel Stone studies the landscape of the seabed, which in the Titanic's day was thought to be as smooth and featureless as a bathtub. He interviews scientists to understand the decades of rust and decomposition that are slowly but surely consuming the ship. (It is expected to disappear entirely within a few decades!) He even journeys over the

The Sinking Of The Eastland Americas Forgotten Tragedy

Atlantic, during a global pandemic, to track down the elusive Doug Woolley. And Stone turns inward, looking at his own dark obsession with both the Titanic and shipwrecks in general, and why he spends hours watching ships sink on YouTube. Brimming with humor, curiosity and wit, Sinkable follows in the tradition of Susan Orlean and Bill Bryson, offering up a page-turning work of personal journalism and an immensely entertaining romp through the deep sea and the nature of obsession.

[A Lincoln Legacy](#) David Gardner Chardavoyne 2020-10-06 A Lincoln Legacy: The History of the U.S. District Court for the Western District of Michigan by David Gardner Chardavoyne with Hugh W. Brenneman, Jr. provides the first and only comprehensive examination of the history of the United States federal courts in the Western District of Michigan. The federal courts were established by the U.S. Constitution to adjudicate disputes involving federal laws,

disputes between litigants from different states involving state and federal laws, and to punish violations of criminal laws passed by Congress. During the Civil War, Abraham Lincoln signed legislation creating two federal districts in the state of Michigan: the Eastern and Western Districts—the latter of which is headquartered in Grand Rapids and which now encompasses the western half of the Lower Peninsula and all of the Upper Peninsula. With the rapid expansion of legislation passed by Congress, the increasing mobility of society, and the growth of interstate commerce, the federal courts have assumed an important and sometimes dominant role in major litigation today. In A Lincoln Legacy, Chardavoyne tracks the history of these courts over eleven chapters, from their creation by the Northwest Ordinance of 1787 to 2020. He discusses the changes in society that drove the evolving federal litigation and some significant cases heard in the Western District. Additionally,

The Sinking Of The Eastland Americas Forgotten Tragedy

fifteen appendices are included in the book, listing of all the federal circuit and district judges in the Western District; commissioners; magistrate judges and bankruptcy judges; U.S. Attorneys; clerks of the courts; and more. Chardavoyne also identifies auxiliary offices and organizations revolving around the federal court that play a major role in its activities (e.g., the U.S. Attorney's Office, the Federal Public Defender's Office, the Federal Bar Association, etc.). A Lincoln Legacy provides a thorough examination of the history of the federal courts of Western Michigan. It will appeal to those learning and practicing law, as well as those with an interest in Michigan history.

The Short Writings of Nelson Algren Richard F. Bales
2022-09-08 Nelson Algren was a renowned Chicago writer known for his social commentary and his novels like *The Man with the Golden Arm* and *A Walk on the Wild Side*. Although he continues to be remembered almost exclusively

for his novels, this book aims to highlight the value and influence of his short form works. Before he died in 1981, Algren had amassed a genre-defying body of work, including short stories, articles, poems and book reviews. The present book features a comprehensive analysis and discussion of Algren's lost literature, including everything but his novels. One of the pieces covered is a masterpiece of race relations written in 1950, more than 60 years before the galvanization of the Black Lives Matter movement. Another is a scathing poem about Algren's transatlantic love affair with Simone de Beauvoir. Both items are reprinted in the book courtesy of the Algren estate. This book also includes references to Algren's works that have yet to be studied by Algren scholars.

Whether it's the dedication of the Pablo Picasso sculpture downtown on August 15, or the arrest of Rod Blagojevich at his Ravenswood home on December 9, or a fire that possibly involved a cow on October 8, each day is redolent with the power of the past. Here, acerbic Chicago Sun-Times columnist Neil Steinberg takes us on a tour of the year, illuminating the famous, obscure, tragic, and hilarious elements that make each day in Chicago one to remember"--

The Sinking Of The Eastland

Jay R. Bonansinga 2004 At once riveting and poignant, *The Sinking of the Eastland* brings to life a bygone era that yielded one of the most significant American disasters of the last century. Includes 16 pages of black and white photos.

The Chicago River Jonathan Genzen 2007 Calling upon his considerable novelistic skills, Loren D. Estleman exposes the black heart of a seemingly stable, well-run city suddenly pitched into violence and chaos. A delicate balance of forces-greed and corruption, ambition and desire-run out of control in the wake of a serial killer's grisly rampage. A power struggle-between a police chief who has looked the other way for too long, a Mafia boss who holds the city's vices in his powerful grasp, and media reporters looking for a big story-turns what has been a minor dispute into a desperate struggle for survival. Setting this drama in a blue-collar metropolis dominated by an oil company, Estleman, with an

unerring eye for telling detail and an ear for dialogue that reveals the secret desires of his characters, crafts a fascinating, deadly tapestry of love, ambition, revenge, and redemption, a stunning portrait of the human condition.

Shipwrecks of the Great Lakes Anna Lardinois

2021-07-01 Submerged stories from the inland seas The newest addition to Globe Pequot's Shipwrecks series covers the sensational wrecks and maritime disasters from each of the five Great Lakes. It is estimated that over 30,000 sailors have lost their lives in Great Lakes wrecks. For many, these icy, inland seas have become their final resting place, but their last moments live on as a part of maritime history. The tales, all true and well-documented, feature some of the most notable tragedies on each of the lakes. Included in many of these tales are legends of ghost ship sighting, ghostly shipwreck victims still struggling to get to shore, and other chilling lore. Sailors are a superstitious group, and the stories are sprinkled with omens and maritime protocols that guide decisions made on the water.

Ashes Under Water Michael McCarthy 2014-10-07 The untold story of the worst disaster on the Great Lakes in U.S. History. On July 24th, 1915, Chicago commuters were horrified as they watched the SS Eastland, a tourism boat taking passengers across Lake Michigan, flip over while tied to the dock and drown 835 passengers, including 21 entire families. Rockefeller, Morgan, and Carnegie had bought into the ship business in the Midwest, creating a boom market and a demand for ships that were bigger, longer, faster. The pressure-filled and greedy climate that resulted would be directly responsible for the Eastland disaster and others. As dramatic as the disaster was, the subsequent trial was even more so. The public demanded justice. When the immigrant engineer who was being scapegoated for the accident was left out to dry by the ship's owners, penniless and down-on-his-luck Clarence

Darrow decided to take his case. The defense he mounted, which he was too ashamed to even mention in his memoirs, would be even more shocking. [Pinkerton's War Jay Bonansinga](#) 2011-11-08 A thrilling historical account of Allan Pinkerton's pivotal role in the Civil War and the birth of the Secret Service Scottish immigrant Allan Pinkerton is best known for creating the Pinkerton National Detective Agency, which gained renown for solving train robberies in the 1850s and battling the labor movement in the late-nineteenth and early-twentieth centuries. But the central drama of his career, and the focus of this book, was his work as protector of President Abraham Lincoln and head of a network of Union spies (including himself!) who posed as Confederate soldiers and sympathizers in a deadly cat-and-mouse game. As here told in riveting prose by author Jay Bonansinga, Pinkerton's politics and abolitionist sympathies drew the attention of supporters of presidential

The Sinking Of The Eastland Americas Forgotten Tragedy

incumbent Abraham Lincoln—and Pinkerton was hired to act as his bodyguard. Pinkerton was asked to organize the U.S. government's first "Secret Service," and during the Civil War he managed a network of spies who worked behind confederate lines and tackled espionage at the highest levels in Washington. By war's end, the agency's reputation was so well established that it was often hired by the government to perform many of the same duties today assigned to the Secret Service, the FBI, the CIA, and, most recently, the Department of Homeland Security. -- Bonansigna is also the author of the novelization of the huge hit television series *The Walking Dead*, a book titled *The Walking Dead: Rise of the Governor*.

There's no detour from terror on this creepy thrill ride down part of America's historic highway—from the author of *Haunted Ozarks*. Route 66 is no longer the main thoroughfare

Janice Tremear chases down accounts of a man executed for witchcraft, the demon baby of Hull House, and the secrets of H. H. Holmes's "Murder Castle." Native American legends place the piasa bird in the skies above the highway's southern stretch with the same insistence that characterize contemporary UFO sightings in the North. In between, spirits such as Resurrection Mary join the throng of hapless souls wandering the roadside of the Prairie State's most famous byway.

Chicagos deadliest day, far worse than the Great Fire. The SS Eastland - a poorly-designed, overcrowded lake steamer - capsized without warning in the heart of downtown Chicago, killing 844 people preparing for a

The Sinking Of The Eastland Americas Forgotten Tragedy

company picnic. The victims - mostly young immigrants who toiled long hours in Western Electrics Hawthorne Works - and the disaster itself were largely forgotten to the mists of time. But on the 100th anniversary of the tragedy, a quake strikes below Chicago, a purple flash emanates from a mystery hole in the Chicago River and an inexplicable hazmat event strikes a Chinatown diner. Thus begins Chicagos shocking reintroduction to the horror of July 24, 1915, and a commemoration of the victims. The Eastland Water Spirits is a parable about memories and stories which refuse to disappear. It explores our ancestors impact on each of us, like it or not. It celebrates our connectedness over time and space, using water and spirits to tell the tale.

Happy picnic-goers headed for an employee outing across Lake Michigan suddenly found themselves in a struggle for their lives. Trapped belowdecks, crushed by the crowds attempting to escape the rising waters, or hurled into the river from the upper deck of the ship, roughly one-third of the passengers, mostly women and children, perished that day. The Eastland disaster took more passenger lives than the Titanic and stands today as the greatest loss of life on the Great Lakes. *Capsized!* details the events leading up to the fateful day and provides a nail-biting, minute-by-minute

account of the ship's capsizing. From the courage of the survivors to the despair of families who lost loved ones, author Patricia Sutton brings to light the stories of ordinary working people enduring the unthinkable. *Capsized!* also raises critical-thinking questions for young readers: Why do we know so much about the Titanic's sinking yet so little about the Eastland disaster? What causes a tragedy to be forgotten and left out of society's collective memory? And what lessons from this disaster might we be able to apply today?
