SECRET POWER Le Tran Bao Phuong 2017-01-15 Introduction Easy to understand, deep and profound, Phuong has completely made readers infatuated with his book Secret Power - it is about a type of power which could disseminate profoundly and form powerful thought, opinion or knowledge which in turn can be used to shape the attitude and influence the emotion of the crowd, thus directing the crowd's behavior according to the will of the user. Phuong also shows us quite a few things about dark PR techniques (Dark Art) in business which are being used to manipulate and to mislead public opinion as well as to eliminate enemies, to help us identify and protect ourselves, thus enhancing our ability to control the society. How to apply the secret power to shape the attitude and to influence the emotion of the crowd will be presented in detail in this book along with many practical examples to help you have an easier time understanding and applying it. One notable thing about the Secret Power is that it contains power of the modern doctrine of PR - a very new approach of PR to the age-old business problems (sales, building and protecting company's reputation). The modern doctrine of PR is more comprehensive than the PR concepts in the past because it contains both value of professional knowledge and value of social contribution. Regarding the value of social contribution, the modern PR doctrine publicizes techniques which can help people perceive PR correctly and make it become more popular to the public. In terms of the value of professional knowledge, the modern PR doctrine shows us how to apply the power of 5 Supreme Arts to help enterprises achieve their goals as well as a sustainable development. As containing in it both the value of professional knowledge and the value of social contribution, this book is considered to be one of the remarkable efforts to bring the PR industry back to its roots and its original mission which is contributing to the building of a healthy information society and a transparent business environment, thus enhancing the society. Using Body Language in Your Presentation Jerry Weissman 2011-02-17 This is the eBook version of the printed book. This Element is an excerpt from Presentations in Action (9780132489621) by Jerry Weissman. Available in print and digital formats. Face to face, person to person: Why your body language is even more important than you realize. In human communication, early visual and vocal interactions create dynamics that carry forward into the adult life of every man and woman. By tapping into these universal dynamics, any presenter can more readily connect with any audience. To do so, start by treating every presentation as a series of person-to-person conversations....

One Bucket at a Time Eric Bergman 2020-09-27 "The central theme of this book that a presentation should be a conversation is ingenious. Humans have evolved for hundreds of thousands of years to communicate by conversation. We are mentally structured to do so. "For anyone seeking to set themselves and their ideas

apart, this book is well worth the read. Eric Bergman's techniques are a window to the future of this important human activity." -John Sweller, PhD, Emeritus Professor of Education, University of New South Wales, Sydney, Australia To be truly successful, presentations have to be both meaningful and memorable. The presenter has to have something meaningful to say to that specific audience at that moment in time. And the presentation has to be delivered in a memorable way. One Bucket at a Time is the key to developing and delivering presentations that are meaningful to the audience and memorable in their message. Author Eric Bergman takes readers on a journey through the human mind, focusing on how to structure and deliver presentations that make it as easy as possible for those listening to actually listen. His premise is simple: The only reason for bringing people together in any form of speech or presentation is to listen to someone share something of value. There can be a presentation without slides, but if there is no speaker, lecturer or presenter, there simply cannot be a speech, lecture or presentation. If the audience is reading, writing, texting, looking at slides, scanning their social media feed, sending an e-mail or reading a document, they cannot be listening. And, ultimately, if they're not listening, what on earth is the point? One Bucket at a Time focuses on presentations from the audience's point of view which, truly, is the only perspective that counts. How does the audience, as a collective group of individuals, process what someone else is saying? Using an analogy of a tank, bucket and trough, Bergman outlines exactly how information best travels from sender to receiver if the goal is to engage the audience and have ideas remembered. Along the way, Bergman debunks three myths about presentations: body language is a language, ninety-three per cent of all communication is non-verbal, and slides are necessary for a presentation. Using a combination of leading research and stories gathered from four decades of helping others, he shares incredible insights that can help anyone develop and deliver presentations that are heard, understood and retained by those listening. "After all," Bergman points out, "who goes to the trouble of developing and delivering a presentation to be quickly forgotten? Yet I would argue that the vast majority of the thirty to forty million presentations delivered each and every day are forgotten as soon as they finish." It doesn't matter whether you're preparing a presentation for online or in-person delivery. It doesn't matter whether it's a project update, a new business pitch, a lecture to undergraduates, an employee information session, a webinar or a keynote address to thousands One Bucket at a Time is designed to enhance your ability to have your ideas understood, remembered and acted upon by your audience. Successful presenters know that capitalizing on how people listen is the key to their success-to having ideas understood, absorbed, remembered and acted upon. As you will learn from this invaluable resource, the best path to presentation success is to develop meaningful content and deliver that content memorably, one bucket at a time, into the long-term memory of those in attendance.

This one-of-a-kind book is not about President Barack Obama. It's about how you can hone your presentation and communication skills by using Obama's communication secrets. Obama's Secrets provides you with a wide range of tools from the arenas of persuasion, communication, presentation, psychology, and even from recent studies in the field of brain science! Now, whether you are a CEO, a corporate VP, a sales pro, a lawyer, a teacher, a minister, or a politician—you can use these secrets too. Based on their analysis of over 300 of Obama's appearances worldwide, from the 1990s until August 2011, and by utilizing their more than twenty-five years of experience, international communication guru Gil Peretz, and Defense Counsel and NLP expert Nili Peretz, have cracked the secret code of Obama's techniques and show you, step-by-step, how his "magical rhetoric skills" can translate into your own success. In the first part of the book, you will be exposed to the "street smarts" that will help you transform your messages so that they will penetrate the hearts and souls of your listeners. Part two will show you how the way you think helps to influence and persuade. Something more is required beyond tactics and methods, something much more basic and profound related to our way of thinking. In the third part, you will become acquainted with Obama's "message engineering." You will be provided with a simple implementation toolkit that will enable you to quickly improve the way you convey your messages in all areas. You will be able to use the secrets of other charismatic leaders such as Winston Churchill, John Kennedy, and Bill Clinton, and business pioneers such as Steve Jobs, Jack Welch, and Stephen Covey. In part four, you will discover how Obama made people fall in love with him in 2008 and become enthralled by his messages, and you will get to know how to activate these secrets of infatuation. You will upgrade your skills in creating human chemistry and intimate closeness with a heterogeneous audience—the key to influencing and leading people. Part five will expose you to the right tools to communicate with the "right brain" and tap into the subconscious mind of your listeners. It works like magic. You will be exposed to the naturalness with which the mind absorbs stories and the way in which they directly penetrate the subconscious. After that, you will see how Obama uses "thought programs" to "program" the audience's mind and "glue" messages thereto. You can use these secrets too, and—no less important—you will upgrade your alertness level when others try to influence you. In the sixth part you will learn how Obama uses effective linguistic patterns to convey messages. Here, too, you will be provided with a very useful toolbox, with emphasis not only on the tools themselves, but also on the reasons why these tools are effective. And finally, you will be exposed to the power of non-verbal communication, which is an integral part of any interpersonal communication. Often it is not what you say; it's how you say it. A brief and concise summary on the last page of each chapter will allow you to use the book quickly and efficiently when preparing for your next presentation, speech, or sales call. Do you want to be Magnetizing? Charismatic? Eloquent? Captivating? Persuasive? Heart-piercing? A master of words? When you know what they are, you will be able to use Obama's secrets in order to communicate your messages like a pro, inspire any audience, stimulate action, and gain a competitive advantage. Obama's Secrets: How to Speak and Communicate with Power and a Little Magic will transform the way you plan, prepare and practice for your next presentation, media appearance, or sales meeting—in a way no other book can.
